

TE-W300

Hand held type human body temperature rapid screening equipment

— Flexible combination, more efficient temperature measurement

On-line type

Hand held type

Features

24h Use external power ,
24 hours non-stop working

External display ,
Full video image recording

Non-contact rapid screening ,
Avoid cross infection

High-precision body temperature
measurement algorithm

Main Spec

	TE-W300
Resolution	160×120
Temp Range	20℃~50℃
Accuracy	±0.6℃
CCD	1.3 Million pixel
Working Temp	0℃~40℃
LCD	3.5" LCD
Function	Abnormal temperature alarm, automatic tracking Video and photo functions

Standard Accessory

Thermal Camera , TF Card, Video output Cable,
Carry case, Battery, Power Adaptor

A LARGE NUMBER OF DALI PRODUCTIONS HAVE USED AT THE FOREFRONT

Airport / Train Station / Office Building /
Commercial Complex / Metro Station /
Hospitals, factories, schools, companies, etc.

Metrological certificate

Designated temperature measurement
enterprise by the Ministry of Industry
and Information Technology
