MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group is an established food and beverage grocery distributor in Hong Kong with over 40 years of experience in the food and beverage grocery distribution industry. The Group's customers include restaurants, non-commercial dining establishments, hotels and private clubs, food processing operators and wholesalers in Hong Kong. The Group also offers product sourcing, repackaging, quality assurance, warehousing and storage, transportation as well as other value-added services to provide one-stop food and beverage grocery distribution solutions to the customers. The Group's product portfolio ranges from food commodities, specialty food ingredients to kitchen and hygiene products which can be broadly categorised into (i) commodities and cereal products; (ii) packaged food; (iii) sauce and condiment; (iv) dairy products and eggs; (v) beverage and wine; and (vi) kitchen and hygiene products.

Since the outbreak of the Coronavirus Disease ("COVID-19") at the start of January 2020, the global business environment has been adversely affected. In late December 2021, Hong Kong has confirmed its first community transmission of the Omicron-variant of COVID-19, which is rumored to spread multiple times faster than previous major strains, therefore, social distancing rules in Hong Kong have been tightened again since 7 January 2022. The closure requirements on catering businesses and scheduled premises caused a revenue contraction to the Group in the first quarter of 2022, in line with the experience from prior lockdowns.

With the government's financial stimulus through consumption vouchers and the easing of the pandemic situation in Hong Kong since April 2022, the business of the Group recorded a rebound. Based on the unaudited financial information of our Group, our revenue was approximately HK\$63,565,000 for the three months ended 30 June 2022, representing an increase of approximately 9.7% as compared to approximately HK\$57,944,000 in the corresponding period of 2021.

The Directors expect that it will take some time for the Hong Kong economy to recover to normal. The Group will closely monitor the market conditions and seek suitable business opportunities in order to minimize the negative effects of the renewed outbreak of COVID-19 to our business.

FINANCIAL REVIEW

Revenue

During the three months ended 30 June 2022, our revenue increased by approximately HK\$5,621,000 or approximately 9.7% to approximately HK\$63,565,000 (three months ended 30 June 2021: approximately HK\$57,944,000) mainly due to the increase in sales demand for our food and beverage products. With the gradual relaxation of government's social distancing measures and the distribution of consumption vouchers by the government since April 2022, there was an increase in the overall customer traffic of restaurants. Our customers ordered more food and beverage products from us to cope with the increased demand. Sales demand for our food and beverage products from local restaurants, hotels and private clubs increased dramatically during the current period.

The Group opened its first restaurant in Tsim Sha Tsui in April 2021. However, due to the recent pandemic situation in Hong Kong, the Directors decided to close down the restaurant in March 2022.

Cost of sales

Our cost of sales solely represented cost of inventories sold, which represented the cost of finished goods purchased by us from suppliers. Our cost of sales represents the costs of products, net of discounts and rebates, charged by our suppliers. Our cost of sales increased by approximately HK\$3,768,000 or approximately 8.6% to approximately HK\$47,363,000 for the three months ended 30 June 2022, as compared to approximately HK\$43,595,000 for the three months ended 30 June 2021, mainly due to the increased sales volumes.

Gross profit and gross profit margin

The Group's gross profit increased by approximately 12.9% from approximately HK\$14,349,000 for the three months ended 30 June 2021 to approximately HK\$16,202,000 for the three months ended 30 June 2022. The increase in gross profit was due to the combined effect of our increased revenue resulted from the easing COVID-19 restrictions, our enlarged customer base to high-end customers and lower cost of goods purchased from suppliers. For the three months ended 30 June 2022, the Group's gross profit margin increased to approximately 25.5% as compared with previous year at approximately 24.8%.

Other income

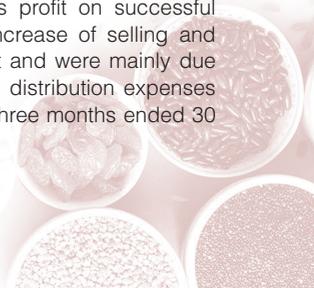

Other income represented interest income from bank deposits, rent concessions, government grant and sundry income. Other income increased from approximately HK\$44,000 for the three months ended 30 June 2021 to approximately HK\$766,000 for the three months ended 30 June 2022 mainly due to receipt of government grant during the current period. During the three months ended 30 June 2022, the Group received government grant of approximately HK\$630,000 from the Employment Support Scheme and the Catering Business Subsidy Scheme launched by the government. The two schemes aimed at providing time-limited financial support to employers to retain their employees who will otherwise be made redundant and providing relief to the sectors directly affected by the tightened social distancing measures. No such government grant was received in the previous period.

Other gain and losses, net

The Group recorded net other losses of approximately HK\$421,000 for the three months ended 30 June 2022 which was attributable to the loss on disposal of items of property, plant and equipment and written off of bad debts. In May 2022, the Group sold a motor vehicle to a third party at a loss of approximately HK\$416,000.

Selling and distribution expenses

Our selling and distribution expenses mainly comprised transportation expenses, commission expenses to sales persons based on a certain percentage of the gross profit on successful sales, staff costs for our sales team and entertainment expenses. The increase of selling and distribution expenses of the Group were in line with the revenue increment and were mainly due to the increase in commission expenses to sales persons. The selling and distribution expenses accounted for approximately 11.3% and 11.5% of the total revenue for the three months ended 30 June 2022 and 2021 respectively.

Administrative expenses

For the three months ended 30 June 2022, the Group's administrative expenses primarily comprised staff costs for administrative and management personnel, directors' remuneration, depreciation on property, plant and equipment and depreciation on right-of-use assets. Administrative expenses increased from approximately HK\$7,175,000 for the three months ended 30 June 2021 to approximately HK\$7,985,000 for the three months ended 30 June 2022. The increase of administrative expenses of the Group was mainly due to increase in depreciation on right-of-use assets for the newly rented Tuen Mun warehouse since September 2021 and increase in legal and professional fees.

Finance costs

Finance costs amounted to approximately HK\$151,000 for the three months ended 30 June 2022, increased by approximately HK\$54,000 as compared to approximately HK\$97,000 for the three months ended 30 June 2021. Finance costs of the Group represented interest expenses on lease liabilities. The increase was mainly due to the increased interest expenses incurred for the newly rented Tuen Mun warehouse since September 2021.

Income tax expense

For the three months ended 30 June 2022 and 2021, our income tax expenses were approximately HK\$106,000 and HK\$217,000, respectively.

Profit and total comprehensive income attributable to owners of the Company

For the three months ended 30 June 2022 and 2021, the Group's profit and total comprehensive income attributable to owners of the Company was approximately HK\$1,125,000 and HK\$192,000, respectively. The increase of profit and total comprehensive income attributable to owners of the Company was mainly attributable to the increase in revenue and increase in receipt of government grant, partially offset by the increase in commission expenses to sales persons, increase in depreciation on right-of-use assets for the newly rented Tuen Mun warehouse and increase in legal and professional fees.

Dividend

No dividend was paid, declared or proposed during the period. The Directors do not recommend the payment of any dividend for the three months ended 30 June 2022 (three months ended 30 June 2021: nil).

No shareholder of the Company has waived or agreed to waive any dividends during the period.

The current ratios (current assets divided by current liabilities) of the Group were approximately 5.6 times and 6.8 times as at 30 June 2022 and 31 March 2022 respectively. The Group generally financed its daily operations from internally generated cash flows. Note: The expected timeline for utilising the unutilised net proceeds is based on the best estimation of the future market conditions made by the Group. It is subject to change based on the current and future development of the market condition.

As disclosed in the prospectus of the Company dated 31 March 2017 (the “**Prospectus**”), the Group’s principal business objectives are to strengthen its position in the food and beverage grocery distribution industry and further expand its business operations with a view to creating long-term shareholders’ value. The Directors intend to achieve the objectives by (a) increasing warehouse facilities strategically located in certain districts of Hong Kong in proximity to the Group’s customers; (b) upgrading the ERP system to enhance the Group’s operation efficiency; (c) further penetrating the food and beverage grocery distribution market through sales and marketing activities and the Group’s quality value-added services; and (d) attracting and retaining quality personnel.

In light of the rise in number of customers and purchase orders, the Group had planned to lease two warehouse facilities, one in the New Territories and another on the Hong Kong Island for accommodating the increased inventory level. However, since the second half of 2017, the rent and the rent price index in the factory building rental market in Hong Kong showed a continuous uptrend and the Group had not yet identified suitable premises for the warehouse facilities in both areas, therefore the leasing was not yet commenced up to March 2019.

In early 2019, the Group surveyed a premise in Yau Tong, Kowloon, which size and location are suitable for our warehousing, and additionally, the proposed rental fee is relatively cost-effective. The Board evaluated that the premise in Yau Tong, Kowloon is meeting the Group’s requirements for fair and efficient use of financial resources. Therefore, the Board had decided to establish a new warehouse at the above mentioned premise and migrated all inventory from the existing warehouses to the new location.

In view of the conditions and expansion of the existing business, there is no urgent need to lease another warehouse facility as the current warehouse facility has met the needs of the Group. Therefore, on 18 February 2021, the Board has resolved to reallocate all utilised net proceeds for leasing of warehouse facility in Kowloon to develop the business in provision of food catering services through restaurants and general working capital, except that approximately HK\$3,278,000 of the net proceeds are remained to settle the rental expenses of the Yau Tong premise. Up to 18 February 2021, a total of approximately HK\$5,052,000 was spent on rental deposits, renovation costs and start-up costs for the warehouse facility. Up to the date of this report, approximately HK\$6,862,000 was spent on rental payments.

The Group has planned to use approximately HK\$12,560,000 of the net proceeds to upgrade the ERP system, which is used to monitor the inventory level and minimise incidences of overstocking, so as to enhance the operational efficiency of the Group. Up to the date of this report, the Group selected a new ERP software for implementation and a total of approximately HK\$5,076,000 was spent on consultancy services and software and hardware acquisition for the upgrade of the ERP system.

The Group has planned to use approximately HK\$5,540,000 of the net proceeds to conduct sales and marketing activities to attract more customers and strengthen customer loyalty so as to further penetrate the food and beverage grocery distribution market. Up to the date of this report, a total of approximately HK\$1,228,000 was spent on advertising and participating in domestic food exhibition and sales exhibition to showcase our products to potential buyers. The Group is currently recruiting new marketing company for upcoming new sales campaign.

The Group has planned to use approximately HK\$3,500,000 to purchase new repackaging equipment to further automate the repackaging process and increase efficiency. Since outsourcing the repackaging is more cost-effective compared to acquiring and installing new repackaging equipment under the current market conditions, the Board has resolved to reallocate all unutilised net proceeds for installation of new repackaging equipment to develop the business in provision of food catering services through restaurants and general working capital on 18 February 2021. Up to 18 February 2021, a total of approximately HK\$237,000 was spent on purchasing new automatic repackaging machines.

In early 2021, the Group was planning to develop the business in provision of food catering services through restaurants in view of the low market rent under current economic conditions. The Board is of the view that such vertical expansion would give us a competitive advantage, given that it allows us to have better cost control of the supplies for the new restaurant business and improve the performance of our existing business. Approximately HK\$9,000,000 of the net proceeds is allocated for the start-up costs and renovation costs for the restaurants. Up to the date of this report, a total of approximately HK\$3,064,000 was spent on renovation and start-up of the new restaurant in Tsim Sha Tsui. However, due to the recent pandemic situation in Hong Kong, the Directors decided to close down the restaurant in Tsim Sha Tsui in March 2022 and are looking for opportunities to develop such segment.

An addition of HK\$5,211,000 of the net proceeds is allocated for the general working capital to support the daily operation of the Group and to maintain sufficient working capital in preparation of any market upheaval. Full amount was utilised as general working capital up to the date of this report.

Looking forward, the Group is still reasonably optimistic to sustain the core business given all the economic uncertainties with the latest outbreak of the Omicron-variant. However, the Directors are actively assessing and managing the uncertainties, and implementing, if necessary, measures to conquer this challenging time. At the same time, the Group remains committed to the strategies that we have promised our shareholders before being listed and will continue to seek for the best possible opportunities to grow our business by leveraging our current client base, offering a wide spectrum of products for customers and exercising careful cost controls.
