LG400 MONOTEC COMPETITION

MECHANICAL TRIGGER, 7.5 J, ITEM 2847892

Best Performance, Best Design, Best Variability

The new monotec stock combines the versatile adjustment possibilities of the KK500 stock with a unique suspension. The action is not mounted in the usual fashion on the receiver but instead right on the barrel. The advantage is that vibrations from firing are prevented from being transmitted to the barrel, where they can adversely affect shooting performance.

Best Performance: monotec mounting.
