Shopping mall supermarket freezer fridge

LVNI绿零®/Company Profile

LVNI is located in the political and cultural center of Guangdong Province, Guangzhou, the central city of South China. Since its establishment in 2011, LVNI has been focusing on commercial air-cooled refrigerators. It is a professional manufacturer of refrigeration equipment integrating R&D, design, production, sales and Internet technology.

Since its establishment 11 years ago, the company has successively won the titles of "AAA Credit Enterprise in Guangdong Province", "Famous Brand in Guangdong Province", "Contract-honoring and Credit-Reliable Enterprise in Guangdong Province", "The Most Popular Brand of Refrigeration Equipment in China's Hotel Supplies Industry in 2014", etc. The LVNI production base "Guangzhou AILIPUSH Refrigeration Equipment Co., Ltd." has won the "National High-tech Enterprise" and "National Industrial Product Production License" successively in 2016.

It has successively established Guangzhou AILIPUSH Refrigeration Equipment Co., Ltd. (in April 2013, the refrigerator intelligent manufacturing factory was established), Shanghai LVNI Refrigeration Technology Co., Ltd. (in January 2016, the Shanghai branch was established), and Beijing LVNI Intelligent Equipment Co., Ltd. (in March 2016. Established Beijing Branch), Chengdu Branch (July 2017), Hunan Branch (December 2018), Hunan LVNI Intelligent Technology Co., Ltd. (Hunan Zhizao Factory was established in September 2019, covering an area of 50 acres), Shenzhen Branch (April 2021).

In terms of product research and development, the core parts of the products have independent intellectual property rights, and have obtained a number of independent research and development patents and more than 10 domestic and foreign certifications, including 3C, CE, ROHS, MSDS, SASO and other certifications. In terms of quality inspection and control, there is an independent testing center with complete types of testing equipment, standardized management and strict requirements. Products and components are designed and tested with reference to international standards to ensure product safety and stability.

The company holds three major brands: "LVNI", "AILIPUSH", and "Sai Lingsi". It has trade relations with more than 40 countries and regions around the world, the total export volume is increasing, and it cooperates with domestic and foreign high-quality brand customers.

In order to meet the needs of different types of customers, the company continues to innovate. Since 2015, it has successively launched solutions in the fields of "co-creation and win-win", "smart refrigerators", "Internet of Things refrigerators", "personalized customized refrigerators" and "frequency conversion refrigerators". We will continue to innovate around customer needs and technological leadership, maintain open cooperation with various industry partners, and continue to create value for customers.

LVNI is committed to providing people with green energy-saving products and intelligent sharing services for the majority of users.

Smart Thermostat

Aluminum alloy door handle

Magnetic pull bar

360° circulating air cooling

Divider shelf

Imported compressor

Features

- ①、Intelligent digital temperature control, accurate to 0.1°C;
- ②、Frosted aluminum alloy door frame, strong corrosion resistance;
- ③、Magnetic pull bar, cover the casters, beautiful and integrated;
- ④、Air circulation cooling, no need to defrost, even cold air;
- ⑤、Separate shelves, easy to place and store drinks, neat and beautiful;
- ⑥、Imported compressor, high efficiency, low failure rate, fast cooling.

Automatic induction

The error is accurate to 1g

Strong applicability

Can sell most products
Recognition rate 100%

Flexibility to save

Products in the tray can be placed at will, no need for electronic price tags

System empowerment

Online system equipped with group purchase Diversification benefits

FEATURES OF SMART FRESH FOOD CABINETS

- 1 Independent research and development of intelligent system

The system can be compatible with the weight sensing of fresh fruits and vegetables at the same time, buy equipment and send it to the system

- 2 Intelligent marketing is rich in gameplay

Novice courtesy, payment courtesy, full discount, limited-time spike, lottery

- 3 Support multi-merchant level management

The site and agent profit sharing ratio can be set to facilitate investment and operation

- 4 Support customer OEM customization

The system can display customer brands, many years of industry experience, to meet various customizations
