Data Analysis with Pivot Table
Course Curriculum

Data Analysis with Pivot Table
Pivot Example
Arranging Data-Tabular Format
Arranging Data-No Gaps in the data
Arranging data-no subtotals in the data
Arranging data-always use excel tables
Arranging data-formatting
Arranging data-remove spaces
Arranging data-count the data first
Create pivot table
Field list- activate field list
Field list-Move field list
Field list-resize field list
Field list- field list views options
Field list-field list and areas
Field list-renaming field
Field list-duplicate field name
Field list-adjust the column position
Copy as picture
Copy as values
Copy as new pivot table
Exploring subtotal options
Exploring grand total options
Exploring report layout options
Exploring blank rows options
Exploring pivot table styles

Slicers Introduction
PT Connections1
PT Connections2
PT Connections3
Add Search Box To A Slicer
Create slicer to filter another slicer
Protect worksheet, not the slicer
Slicer Styles
Slicer Settings
Custom slicer for year and month
Timeline
CF in Pivot Table
Pivot chart
Defer layout update
Getpivotdata Intro

Custom Report
Pivot Cache
Clear pivot cache old items
Refresh Pivot Table-Non macro
Refresh Pivot Table-With macro
Sort ascending or descending
Sort an item row left to right
Sort manually (drag, type, right click)
Sort using a custom list
Override a custom list sort
Sort regions in ascending order
Sort new items added
Clear a sort
Sort L to S grand totals
Filter by dates
Filter by text labels
Filter by numerical text labels
Value Filters
Filter by report filter
Keep or hide selected items
Filter by wildcards
Filter by multiple fields
Apply multiple filters
Filter by multiple values
Include new items
Clear multiple filters
Add filters to the column
Grp by month and months and years
Group by months and quarters
Group by quarters
Group by quarters & years
Group by years
Grouping by half years
Group by time
Group by week
Group by date
Grouping by a custom date
Errors when grouping by dates
Display dates that have no data
Group columns
Group numbers vs text
Group by text fields
Group by sales ranges
Calculated field
A new calc field from an existing calc field
Excel formulas in calculated fields
Creating a calculated item
Calculated item on column labels

Cal Field vs Cal Item
Create new cal. item using existing one
Excel formulas and calculated items
Solve order for calculated items
List calc field and item formulas
Order of operations
Shortcomings of calculated items
VFS Intro
VFS- Create multiple subtotals
VFS - Count
VFS - Average
VFS- Maximum
VFS- Minimum
VFS- Product
VFS- Count Numbers
VFS - Show multiple grand totals
VFS- See all pivot items
VFS- Show a unique count
Percentage of grand total
Percentage of column total
Percentage of row total
Percentage of
Percentage of parent row total
Percentage of parent column total
Percentage of parent total
Difference from
Percentage Difference from
Running total in
Percentage Running total in
Rank smallest to largest
Rank largest to smallest
