Life in Poland

2021

Why is Poland a good option for life and work?

Poland is a country situated in the heart of Europe, with a fast-growing economy. During the last years, the standard of living in Poland began to increase swiftly, which became especially noticeable after the state joined the **EU**. Rapid improvement of the economics, surge in the variety of jobs, and growth in general welfare brought Poland to the top 25 most developed republics in the world.

According to statistics, 17000 foreign citizens are officially employed in Poland every year. This country is perfect for people who want to move to Europe, then at one go, immediately find a job and accommodation, as well as get permission to travel visa-free in the EU.

PAID WORK EXPERIENCE IN POLAND

The state favors inviting people from abroad who agree to do menial labor such as factory jobs in Poland. It should be noted that the number of Polish citizens working abroad or migrating abroad for permanent residence is much greater. The exact figure of illegal immigrants in Poland is unknown, but as per approximate calculations, it is over 200 thousand. To note, if the foreigner works well, he has an excellent chance to gain a foot hold in the republic, get a residence permit in the EU, and gradually find his place in this society.

Reviews on life in Poland are positive for various reasons. Immigrants and native Poles have almost equal rights. Non-nationals can work in Europe and receive decent wages, get an education, and even set up their own business in any field. Official state structures provide all possible support in this regard. The country issues work permits for a period of 6 to 12 months.

HOW IT WORKS

JOB PLACEMENT IN POLAND

- Our team plan to provide you with invitations for a national type D visa for 1 year. This document will allow you to work in Poland and travel anywhere in the European Union. If you are considering immigration to the EU, please note that if you decide to look for a job outside of Poland you will not be able to get any legal jobs using this visa.
- Importantly, if you don't want/ don't like the first job, you will not work for that company, since we are able to help you find a job of your preference. The first workplace is good to work for at least one month, use the accommodation and get to know the city and how work and life are in Poland in general. The reason why we offer this company is that visa chances are very good with them since this a well-known company and they have great tax records. I would like to stress that the most important thing is to get you to Poland through the embassy and then we can assist you to find better jobs if you would like to.

Poland Work Permit Invitation

The latest EU economy survey exposed that Poland's labour market is thriving. Career prospects in the republic are promising. There are many jobs available for candidates from all over the world, who see Poland as a work destination. In fact, it is now one of the leading shared employment services / business process outsourcing hubs in the European Union.

To start working at one of the corporations in Poland you should get a work visa at the Polish Embassy in your homeland or in the state where you have a permanent residence permit.

- This kind of visa is issued on the grounds of **Wojewódzki zaproszenie** – an invitation from the **Voivodeship**, licensed by a **Voivode** (which in translation means the governor post of the Polish governmental division, analogous to a “province” in several other states). A firm that wants to hire a foreigner applies for employment to the Voivode office for foreigners at the registration place of the enterprise.
- Because the consulate, in the first place, is guided by the Governor's decision, such an invitation to a visa is always confirmed almost. The period of application processing is usually between 8 and 10 weeks (40-50 working days).
