## Q&A ON VISA REQUIREMENTS

---

If you need a visa, you can get it at the Polish embassy in your country. Addresses and contact details of consulates and Embassies in your country can be found [here](#).

Note: To obtain visa you have to prove that you have enough money for living in Poland - with the calculation of approximately 190\$ / month + accommodation expenses + ticket for the return trip to your home country (approximately 680 \$). Please be informed that some embassies may also require to pay for at least one semester of studies. E.g. let's say your accommodation will cost 175\$ / months, thus to obtain visa for one year you have to have:

$(190\$+175\$)\times 12\text{months}+680\$ \approx 5060\$$

Please note the university only provides Admission Letter required by the embassy. The university does not help with visa procedures and other formalities connected with it.
