

Quarter Century Club Dance April 24

Inco Club Party at Hotel Biltmore Honors "25-year men"

Fourteen well-known Inco employees will be presented with Quarter Century Club buttons at the Annual Quarter Century Club dance.

The most elaborate of all the Inco Club parties, this is the eleventh Annual Spring Dance for the Inco Club and the Quarter Century Club.

Saturday, April 24th is the date; Hotel Biltmore Ballroom the place.

Mr. R. C. Stanley, President of the Company, will present Quarter Century Club buttons to the following employees:

Robert C. Stanley Honored by British King

Robert C. Stanley, Chairman and President of The International Nickel Company of Canada, Limited, on February 10 was presented with the Ribbon of the King's Medal for Service in the Cause of Freedom by Sir Francis E. Evans, British Consul-General. The ceremony took place aboard the R. M. S. Queen Elizabeth berthed at Pier 90, North River.

Award of the Medal by King George VI of Great Britain was announced last fall in London.

The Medal was specially authorized by His Majesty for the expression of gratitude to non-Britons who assisted the British people during the war in recognition of valuable services in the furtherance of the Allied Cause.

As head of International Nickel, Mr. Stanley was responsible for greatly increasing nickel production for its many vital war uses in World War II. Soon after the war started, he arranged for an extensive expansion of the Company's Canadian mining production, through which a materially increased supply of nickel, copper and other products was made available to the United Nations in the crucial war years. Mr. Stanley also served for some time as Chairman of the Non-ferrous Metals Section of the British War Relief Society.

New Officers Elected by Inco Delaware or by Inco Canada

New Yorkers Chosen are H. G. Fales, W. C. Kerrigan, J. F. McNamara, T. H. Wickenden

The election of four executives of The International Nickel Company, Inc., as corporate officers of the Delaware or Canadian companies was announced Dec. 30, 1947, by President R. C. Stanley.

The four New York men are Inco Vice-President Herbert G. Fales, to be Assistant Vice-President of The International Nickel Company of Canada, Ltd., and Walter C. Kerrigan, James F. McNamara and T. H. Wickenden, to be Vice-Presidents of The International Nickel Company, Inc.

At the same time, Mr. Stanley announced the election of Ralph D. Parker and J. Roy Gordon, of Copper Cliff, Ontario, as Assistant Vice-Presidents of The International Nickel Company of Canada, Ltd., the parent company.

Vice-President Kerrigan

Joining International Nickel in 1930, Mr. Kerrigan had been an Assistant Manager of its Nickel Sales Department from January, 1933, to June, 1946, when he was appointed Manager, a position he continues to hold. He has been associated with business in metals and ores since 1919. A native of New York, Mr. Kerrigan resides at Colonia, N. J.

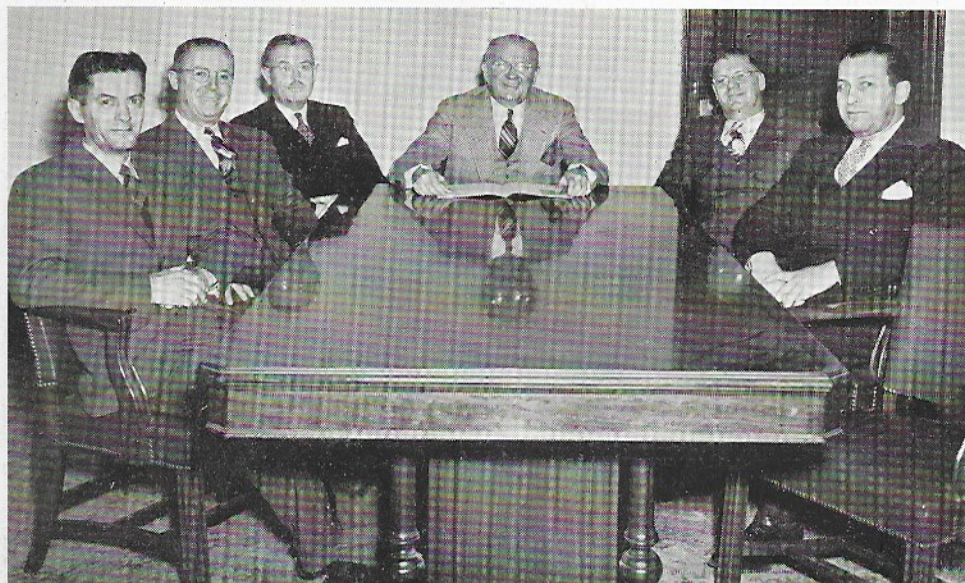

Vice-President McNamara

Mr. McNamara became associated with International Nickel in November, 1911, in the position of salesman and, after serving in various capacities in the Company's Bayonne plant, was appointed Sales Manager for the Company's Mill Products in January, 1921. He continues in this position. Mr. McNamara is a director of Lukens Steel Company, of Coatesville, Pennsylvania. A native of Branford, Connecticut, he now resides at Fairhaven, New Jersey.

Vice-President Wickenden

Mr. Wickenden joined International Nickel in 1922, when he was placed in charge of developments in the automobile

field for the Development and Research Division at New York. He was appointed Assistant Manager of the Division in 1931. In 1943 he was made Manager of the Development and Research Division, which he continues to head. Mr. Wickenden is well known in engineering circles in the automotive industry, having been in charge of engineering at Studebaker Corporation's South Bend plant from 1913 to 1920, and associated with the Chrysler Corporation in a metallurgical capacity. A native of Toledo, Ohio, he attended Denison University, Granville, Ohio, and received his engineering degree at the University of Michigan. He resides at Short Hills, N. J.

Inco-Canada Officials

Mr. Parker, one of the newly elected Assistant Vice-Presidents of the parent Canadian Company continues as General Superintendent of that Company's Mining and Smelting Division at Copper Cliff, Ontario, a position he has held since 1930.

Mr. Gordon joined International Nickel in 1936 as Director of Research at Copper Cliff, becoming Technical Assistant to the Vice-President in 1946. His new title is Assistant Vice-President. Mr. Fales, the other new Assistant Vice-President, continues also as a Vice-President and Director of The International Nickel Company, Inc.

Dress at the Spring Dance, as usual, is optional. There is no change in the price of tickets—\$6.50 per couple or \$3.25 per person to Inco Club Members. Tickets for additional guests are \$7 per person.

Felix Noblet, Chairman of the Entertainment Committee, has announced that Jenó Bartell's orchestra, which was so well received at the Christmas Dance, will play for the Spring Dance. There will also be entertainment.

G. C. Nitsche Advanced

To G. C. Nitsche, congratulations on his appointment at the beginning of this year as Supervisor of Files, Mail, and Purchases.

Bayonne Lab Bowling League at 2/3 Mark

Team standings in the Laboratory Bowling League, when approaching the 2/3 mark in the schedule, are listed below. *Laura Roman* was holding high game for the girls with a 190, while *George Pease*, of the Research Welding aggregation, topped the men's scores with a 236. League Treasurer,

Dan Dougherty, informed all and sundry that, with the generous assistance of The Inco Club, the league's funds had reached the proportions where another bowling party was economically possible. Accordingly, a match was bowled between New York and Bayonne. This was inconclusive, however, since one team was incomplete.

TEAM STANDINGS

Team	Won	Lost
Welding Electrode	31	5
Bayonne Foundry	27	9
Maintenance	25	11
Bayonne Office	17	22
Research Foundry	16	20
Bayonne Works	14	22
Research Office	10	29
Research Welding	7	29

LIBRARY CHANGES BORROWING RULES

Because of the greatly increased use of the Library and the wide scattering of its clientele throughout the building, circulation and borrowing rules have been radically revised.

Magazines will be allowed out on circulation for three days, after which they must be returned to the Library to be forwarded to the next person on the list. If the magazine cannot be finished in three days, "later" should be written after the name. This applies to pamphlets, catalogs, papers, and all other material circulated by the Library.

Regular technical books and Inco publications may be borrowed for two weeks. Magazines, pamphlets, catalogs, reprints, papers, translations, etc. may be borrowed for three days; and reference books such as handbooks, directories, dictionaries, statistical volumes, specifications, patents, etc. for overnight use. If necessary, renewal is possible.

Rules Prove Effective

These rules seem very strict, but so far, have been very effective. Whatever slight opposition they have met has been more humorous than real.

One borrower, trying to make the system

even more efficient, suggested tying strings to the books and pulling them in when they were due. (We are afraid the elevator operators might object.) Another suggested putting bells on the books, to ring automatically when due. To which one of the Library girls said, "Don't worry, your telephone will ring."

One morning a reference book was returned by a very sleepy individual, and upon inquiry, it was found that he had stayed up all night with it because it was an "Overnight Book".

Book Needed for Dinner

In calling back our books to organize the new system, the library hit a snag with one book which was very much overdue. This book is in constant use, the borrower told us. It holds up a leg of his dining room table! However, there are no exceptions to library rules, and so that Incoite is now eating his meals on the slant.

The magazines have been coming in extremely promptly. Are they being read??? At least, since there is a limited time for perusal of magazines (as complained), there certainly should be no time for cutting them up.
