

EBTWF SERIES

High Speed - Faster operation, improved efficiency

Features

- Powered by an advanced brushless motor, maintenance free
- Fast & Advanced: Fully automatic gearbox design, eliminating the need to switch between high speed and low speed gears - fast run down speed and lower speed for final tightening only
- User friendly: preset torque settings, large size LCD display screen
- Accurate: High repeatability of +/-2%, easy re-calibration system
- Gear Technology: Advanced planetary gear design technology and high strength alloy steel makes tools lighter, durable and faster
- More Functions: Display of torque in real time, angle, number of rotations, number of bolts etc - optional
- Smart App: Optional wireless bluetooth transfer of data, data storage of millions of applications, allows for tracking of results
- Large torque range - models available up to 4,000 Nm
- Models available with angle head, offset drive upon request
- Automatic shut-off system once the selected torque is reached
- Free connection of motor housing and gearbox, safe operation, body and handle can be rotated freely by 360 degrees
- Angle- and Offset-drive units available upon request
- Optional 240V power supply, allowing continuous operation

Model	Torque range Nm	Square Drive	Max speed rpm	Dimension L = mm	Dimension D = mm	Dimension H2 = mm	Weight kg
EBTWF-05	100 - 500	3/4"	100	300	60	245	4.5
EBTWF-10	130 - 1'000	3/4"	82	310	74	245	5.0
EBTWF-20	250 - 2'100	1"	48	330	76	245	5.7
EBTWF-30	480 - 3'100	1"	45	350	86	245	7.7
EBTWF-40	650 - 4'000	1"	45	350	95	245	9.7
EBTW-FC	Fast Charger 18V						1.0
EBTW-B5	Li-Ion Battery 18V 5.0A						0.5
EBTW-ACDC	AC/DC Power Adaptor 240V						0.6
