

2nd Foot and Ankle International Congress

Meir Medical Center, Kfar Saba - ISRAEL

Welcome to the Second Foot and Ankle International Congress

Meir Medical Center

Kfar-Saba

Israel

Program

2nd Foot and Ankle International Congress

Meir Medical Center, Kfar Saba - ISRAEL

Dear friends,

It is my honor and pleasure to welcome you to the second Meir Medical Center International Foot and Ankle conference. The meeting will cover the most cutting-edge subjects in foot and ankle surgery. For that purpose, we have invited distinguished friends from abroad who will share with us their experience. The program is loaded with interesting topics, some of which are controversial. I hope you all find the time to meet old friends and to make new connections. We expect to see you in Meir Kfar-Saba for a productive and interesting two days that, we hope, will be the first of many academic events.

Sincerely,

Ezequiel Palmanovich, MD
Meir Medical Center

2nd Foot and Ankle International Congress

Meir Medical Center, Kfar Saba - ISRAEL

Dear colleagues,

It is my pleasure to welcome you for the Second Meir international foot and ankle symposium.

Foot and ankle surgery in Meir medical center, is one of the excellence centers of the hospital. The symposium is a bright declaration of our commitment to further contribute in research and developing this aspect of orthopaedic surgery in Israel.

The conference's program, which was carefully built by Dr. Palmanovich, is aimed to cover the most important and some of the controversial issues in our profession. I am sure you find its educational value high and useful for your practice.

Here in Meir medical center, we expect a full attendance of the Israeli foot and ankle society members. This would be a perfect opportunity to catch-up with friends, teachers and students.

We hope that this conference will be the beginning of yearly educational events to come.

Yours,

Nissim Ohana, MD

Chairman, the department of Orthopaedic surgery

Meir Medical Center, kfar-Saba.
