# BIG HOMES

Green and Healthy Living

## W E L C O M E *to the future*

Our homes say a lot about us and what we think is important in life. Home is a sanctuary, where we can rest, relax, enjoy time and grow. And nothing beats the feeling of turning that home into a luxury.

**A Smart Home is basically a home that its lighting, ACs, TVs, entertainment audio & video systems, security, camera systems etc are capable of communicating with one another and can be controlled remotely.**

The benefits of a smart home cannot be over emphasized. A Smart Home provides its home owners security, entertainment, energy efficiency, safety and convenience at all times, regardless of whether anyone is home.

*Why*

## SMARTHOMES?

A Smart home coordinates the technology in your life into complete brilliant interactions that fit into your lifestyle and are easy for you and your family to enjoy.

With one touch, you can dim the lights, check on the cameras in your kids' rooms. Or you can have your house respond to your schedule and settings without touching a button at all.

There are smart devices available today - door locks, TVs, light bulbs, sensors, fire alarms, cameras etc. Our system brings all these devices together and make them work together seamlessly and in unison. And that, is when your home has become truly smart.

Our Smart home design coordinates virtually all the connected devices in your home to create a personalized experience customized only for you, to maximize your comfort, convenience, entertainment, security & safety.
