A grassroots-developed **resource to help the victims of campus sexual assault** and to change the rules around how such assaults are handled by schools... "Founded in 2013, Know Your IX is a survivor- and youth-led project of Advocates for Youth that aims to empower students to end sexual and dating violence in their schools. <https://www.knowyourix.org/> "

In my Oregon Library Association workshop recently we talked briefly about how serving on voluntary **boards, commissions and advisory groups** can provide a voice in your community. Most communities have a variety of opportunities.

I used the example of La Pine, Oregon, population 2,000, which has three such boards that "provide the City Council with recommendations for decision making". It's often the closest you can be to making laws short of being an elected official, as elected officials rely on such groups for advice! Check opportunities with your local governments [city, county, Metro, if applicable].

Here is an article on the **Educating for American Democracy Roadmap**. It's an effort to provide guidance on Civics and History education. Glad to see History being included with Civics.

This is a good explanation of **Oregon's tax system** and how it is "upside-down", benefitting those at the top most. https://www.ocpp.org/2021/04/07/flip-upside-down-tax-system-oregon/?blm_aid=28553

Recently at the **Oregon Library Association Conference** I spent an hour telling 175 librarians that public libraries are the key to our democracy - that they need to be centers for lifelong civic education. Civic literacy among the population is depressingly poor [only half know that there are three branches to the federal government and only a third can pass a Citizenship test]. And many are disengaged from the political process.

Libraries must provide the knowledge citizens need to participate and by imparting that knowledge people also will be more motivated to engage - too much of how to make one's civic/political voice heard is a mystery to many. It doesn't have to be that way. [The Citizen Activism 101 workshop June 3 tells how!]
