

Parks and Rec
Sept 14, 2022

Parks and Rec met on Wednesday, September 14th at the pool at 10:00 to begin painting the concession stand walls and floor. We did not finish but plan on finishing on Monday, September 26th.

The window vents were painted and are ready to put back up.

We went into the shelter house and made note of what improvements/repairs are needed. We need the floor to be "fixed" and a new door is needed on the north side of the building. We will be writing a WCP grant to secure money to make these repairs. Denny Cousino has been asked to come and assess the cost of fixing the concrete flooring.

We checked out the fencing between the tennis court and the basketball court and it appears to be a repair instead of a replacement job.

Discussed with Marcia Cousino about a concrete estimate for both the shelter house and the basketball court.

We will not meet on Monday, September 26th.

Those in attendance were: Pat Rollins, Joanne Busdeker, Gene Steele, Gordon Bowman and Marcia Mazur.

We dismissed at 2:00.
