EAGLE CABLE

SINCE 1986

Eagle Cable GmbH is an owner-operated family business. Our cables have enjoyed great popularity in the hi-fi scene since 1986. Our focus is not only on the German market but also on the worldwide marketing of our products. Our head office is located in Ballrechten-Dottingen in South Baden at the foot of the Southern Black Forest in Markgräflerland. The proximity to the Swiss and French borders reflects our international ambitions.

This flexibility, the high quality standard and the continuously attractive price-performance ratio demonstrate our efforts to serve EXPORTs as a reliable partner. In addition to this, we provide end customers with a durable product that can be used to optimise any hi-fi, video, multimedia or home cinema system.

NEW PACKAGING

The packaging should captivate with a refined look and feel, and a sophisticated design. It accentuates the distinctiveness of the high-quality Eagle Cable accessory products. Its visual design is complemented by the use of the best paper currently available on the market. The inlay is also made entirely of cardboard and thus also contributes to sustainability.

QUALITY LEVELS

Our products are made of first-rate materials and offer optimum performance. And that is also reflected in the quality. With every quality level, from High Standard and Deluxe, right up to our absolute top-of-the-range High End Deluxe class, you benefit from finer, more sophisticated and ingenious cable technology. What do you get? More sound. More sharpness. Less loss.

HIGH END DELUXE
High End Cable - Made in Germany

HIGH END **DELUXE**
★★★★★

MADE IN GERMANY

Made and engineered in Germany is our core philosophy, which is reflected in the Eagle Cable product range. The loudspeaker cables are manufactured at our very own cable factory in Southern Germany and all cables of the quality level High End Deluxe are assembled on our company headquarters in Ballrechten-Dottingen. All products are manufactured according to current directives (such as RoHS, REACH and CE) and are subject to constant quality control. The manufactured cables are characterised by their adherence to a high quality standard. Individual, customised cables and solutions are possible thanks to our tailored products and special assemblies which offer our customers the highest degree of flexibility.

Eagle Cable High End Deluxe Phono Cable

STEREO AUDIO CABLE | RCA

HIGH END DELUXE
★★★★★

made in 
GERMANY

The elegant looking HIGH END DELUXE audio cable impresses with its symmetrical structure. The two copper conductors consist of fine, lacquered copper strands and are covered with foamed PE material. Two separate PE pipes stabilize the cable. This cable architecture reduces unwanted capacities to a minimum and ensures a neutral and low-loss signal transmission without placing unnecessary strain on the amplifier.

- Symmetrical design
- High Speed copper conductor
- Fine, lacquered 0,10 mm copper wires
- Foamed PE insulation
- 2 pieces of stabilizers (PE tubes)
- Dense, braided shielding made of copper
- PVC coat + textile braid
- Cable diameter 6,5 mm
- Solid, 24k gold-plated full metal connector

SPEAKER CABLE

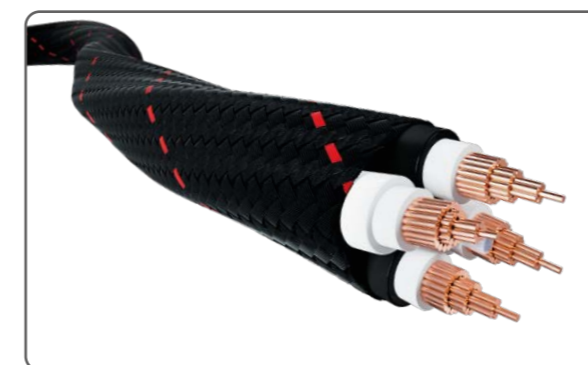

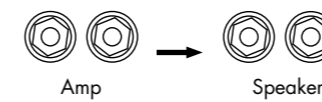

HIGH END DELUXE

★★★★★

made in  **GERMANY**

The HIGH END DELUXE speaker cable, consisting of a 4-fold multicore structure with concentrically arranged copper strands, impresses with its excellent electrical parameters and its attractive design. The arrangement of the wires and the stranded conductors, the high copper content, as well as the PE material in combination with the textile meshwork, ensure a natural and homogeneous reproduction of all frequency ranges.

- 4 x 2,97 mm² cross section
- Concentrically stranded copper wires
- Double symmetrical structure
- Double PE insulation around each conductor
- Dense textile meshwork as outer jacket
- 8,5 mm in diameter
- Low inductance and capacitance
- With BFA beryllium copper bananas or

DIGITAL CABLE

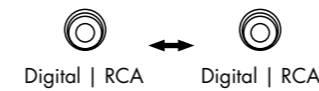

HIGH END DELUXE
★★★★★

made in 
GERMANY

The wave impedance of 75 ohms that is required for a digital cable is guaranteed with the HIGH END DELUXE digital cable due to the complex cable design. In addition, the construction offers optimal protection against external interferences. The solid conductor made of copper is embedded in a foamed PE dielectric and covered and protected with two foils and two shielding braids. High-resolution, digital audio formats can be transported and reproduced precisely and unadulterated. The solid metal connector ensures minimal contact resistance.

- Coaxial structure
- 4-fold shielding
- Solid conductor made of high-purity copper
- Foamed PE insulation
- 75 ohm impedance
- PVC coat + textile braid
- Cable diameter 8,0 mm
- Solid, 24k gold-plated full metal connector

DELUXE
★★★★★

ENGINEERED IN GERMANY

The best cable is the one that has the least impact on the playback quality of the hi-fi or video system and transmits the original signal with as little loss as possible. This is our goal when developing and designing our DELUXE series at the company's headquarters in Ballreute-Dottingen. All cables are manufactured by long-term, experienced partners from all over the world. Of course, the DELUXE cables also meet all guidelines, such as „RoHS“, „REACH“ or CE. You can also rely on the accuracy of fit and the highest quality standards. Every batch is put through its paces in our in-house test setup.

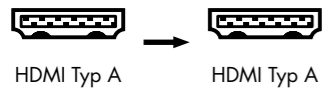

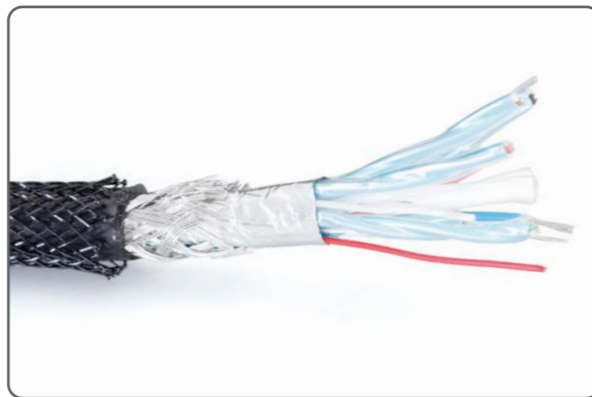

HDMI CABLE

DELUXE
★★★★★

- High Speed HDMI 2.0B
- 4k Ultra HD | 4k@50/60 Hz
- 18 Gbps
- 3 fold shielding
- Solid wire made of high-purity OFC copper
- High Dynamic Range (HDR)
- ARC | HDCP 2.2 | HD Audio
- 7.5 m to 15 m length incl. Redmere Chip integrated in the connector

This High Speed HDMI cable with Ethernet from the Eagle Cable DELUXE series is compatible with all HD audio formats and has a resolution up to 2160p 4k. The solid data cables are triple-shielded. 24k gold-plated contacts ensure low contact resistance and optimum data transmission. It is suitable, for example, for connecting a Blu-ray player or a game console to a smart TV or projector.

HDMI 2.1 CABLE 10K | 100M | OPTICAL FIBRE

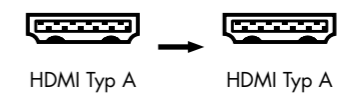

DELUXE
★★★★★

HDMI cable with professional fibre optic technology. This technology facilitates data rates of up to 48 Gbps on a transmission path of up to 100 m. It therefore supports high-resolution 10K formats with 120 Hz as well as HDR. It is the solution for connecting devices with an HDMI 2.1 interface over great distances. Due to the build-in electronics the cable has a signal direction.

- Full HD 1080p 120 Hz 4:4:4 HDR
- UHD 4K 3840 x 2160p 120 Hz 4:4:4 HDR

- protection class IP20
- 1,5m connection cable
- CEE 7/7 angle plug

made in 
GERMANY

Stable power supply forms the basis of good quality pictures and sound. A HiFi or Home Cinema system basically reproduces nothing else than modulated household electricity. So this should arrive at the device as constantly as possible. In this case, the mains connection cable is of essential importance. The big challenge for power bars and cords are extreme current peaks. They are caused by the connected devices themselves through the conversion from alternating to direct current. These extreme current peaks cause a whole series of unwanted effects. The Eagle Cable Power Bar ALU 6 is equipped for this demanding task and especially designed for connecting high-end HiFi Audio and Home Cinema systems.

FURTHER PRODUCT DATA

- Sockets rotated 90°
- Fixing points at the end caps for wall mounting
- Sockets are examined individually
- equipped with contact protections and socket covers
- CE, ROHS, REACH conform
- 250 V~, 16 A, 50 Hz
- Connection power: max. 3.600 W
- Power cord: H05VV-F 3G 1,5 mm²
- Tested according regulations DIN VDE 0620-2-1: 2016-01

JACK CABLE

DELUXE
★★★★★

High-quality jack cable with high-density shielding against external interference, e.g. from smartphones or WiFi routers. Suitable for connecting mobile devices such as MP3 players (iPod), smartphones, laptops or Computers etc. to amplifiers or AV receivers. Assembled with slim, yet solid, full-metal plugs with a practical recessed grip. Available as 3.5mm to 3.5mm or 3.5mm to 2 x RCA version.

- flexible AUX jack cable
- 3.5mm -> 3.5mm
- 3.5mm -> 2 x RCA
- high quality processed
- solid metal plug
- black braid jacket gives the cable a subtle, timeless design
- double shielding against external interference

OUR LOCATION

Our company headquarters in Ballrechten-Dottingen: The pretty wine-growing village of Ballrechten-Dottingen is idyllically embedded in a gently undulating landscape near the 440 metre-high Castellberg hill. Wine-growing has been a tradition here for over a thousand years, which of course can also be tasted in the quality of its products. If you happen to visit us, you should also experience the southern flair of this landscape along the historical dry-stone walls, by light-flooded downy oak groves or vast orchards, in addition to the joys of the local hospitality. Far-reaching views over the Rhine plains to the Vosges mountain range will accompany you on your adventures. It is not for nothing that Markgräflerland is also called the Tuscany of Germany.
