SCHEDA NEW PLATINUM 4 EDITION
La seguente lista elenca parte dei titoli emulati dalla scheda NEW PLATINUM 4 (20.000).

- I giochi per computer (Amiga, Commodore, Pc, etc) richiedono una tastiera per computer e talvolta un mouse USB da collegare alla console (in quanto tali sistemi funzionavano con mouse e tastiera).
- I giochi che richiedono spinner (es. Arkanoid), volanti (giochi di corse), pistole (es. Duck Hunt) potrebbero non essere controllabili con joystick, ma richiedono periferiche ad hoc, al momento non configurabili.
- I giochi che richiedono controller analogici (Playstation, Nintendo 64, etc etc) potrebbero non essere controllabili con plance a levetta singola, ma richiedono, appunto, un joypad con analogici (venduto separatamente).

- Questo elenco è relativo alla scheda NEW PLATINUM EDITION 4. La versione PLUS P2 emula solo 300 titoli ARCADE, generati casualmente al momento dell'acquisto e non modificabile. La versione GOLD 3 emula gli stessi sistemi della NEW PLATINUM 4, ad esclusione dei 3d e dei computer anni '80; sono, pertanto, esclusi dall GOLD 3 gli emulatori Amiga, Commodore, Playstation, Nintendo64, Saturn, Dreamcast, Daphne, MSX.
- Gli emulatori Atomiswave, Sega Naomi (Virtua Tennis, Virtua Striker, etc.) sono presenti SOLO nelle schede NEW PLATINUM 4.
Ultimo aggiornamento 8 Giugno 2021
