

I don't have very much free time but I have many hobbies. I like reading, playing with my computer, walking, cycling, learning English and music. I have more time at the weekends—I go cycling, alone or with my friends. We visit beautiful places, like Szentendre. I try to use bikeways where possible because I really don't want an accident and sometimes car drivers are crazy. They go like hell and don't follow traffic rules. I like walking too but I prefer cycling because it is faster and more interesting. I usually read when I travel on public transport but when I travel by car, I cannot read. I like reading novels but I like short stories even better. I like playing with my computer but I don't always play with games, I like reading interesting things on the Internet, and I also use my computer to study English. I like walking when the weather is nice—it is very healthy. I listen to music on my mobile phone. I have a nice pair of headphones so the sound quality is quite good. I listen to music at home because the headphones filter out a lot of outside sounds so it is not safe to travel wearing headphones. And finally my most important hobby: learning English. I love learning English because I can read interesting books and watch interesting films in English. It is great fun. I have found some very interesting books on the Internet. I can download them free and there are several levels of difficulty. The address is:

<http://english-e-reader.net/findbook>

There are lots of interesting books on this website.

I also like going out with my friends. We usually go to pubs, restaurants, Margaret Island, Budapest Zoo, or McDonalds. We have great fun when we go out. I am very interested in modern technology, computers, mobile phones, cars, animals and psychology. I like reading about them on the Internet. I like reading books too, but the Internet is free so I prefer that. I don't like going to the theatre or the cinema. They are expensive and you have to travel there. Although the experience in a cinema or theatre is wonderful, it is far more comfortable to watch a film at home on your TV or computer. I used to go to concerts when I was a teenager but I don't any more. I have been to the opera a few times but I didn't like it. I used to watch TV a lot 20 years ago. I watched English language programmes. Now I don't watch TV programmes, I watch films on Netflix or on the Internet. I have cable TV and I can watch quite a lot of channels. Of the more than 100 channels I can watch, only three are in English, the others are in Hungarian. A long time ago there was only one channel, MTV (Hungarian Television), later two new channels started, RTL Klub and TV2. Now everybody has 20, 30, 40 or more channels. I prefer humorous films but I also like detective films and thrillers. I am interested in the news. I used to read newspapers but now I don't spend money on newspapers, I read the news on the Internet. I think radio programmes are interesting—I like listening to the radio but I rarely have time. I can listen to the radio on my mobile phone when I want to.

Unfortunately, my eyesight is not as good as earlier, so I don't read books so often; nowadays I read things on my computer or my tablet. When I was a child, I often went to the library. I read an awful lot of books in primary school and secondary school.

We had to read many books for the literature lessons but I didn't like it. I liked reading but not what the teacher told us to read. I had many favourite books but I don't remember them now, after all it was more than 30 years ago.

I love animals and I have 2 dogs and 3 cats myself. I like them very much—they are like my children.
