4. Best Practices

In order to be able to complete online surveys you must be at least 18 years old and be a customer willing to give your honest opinion about different types of products. In general, the researchers are looking for people who live in urban areas, are employed and buy at least half of the products for their home.

However, if you do not have this profile, do not be upset, because you can still have some surveys opportunities since there are a lot of them for all kind of people daily. Besides that, some TimeBucks partners give you some cents for disqualification as well. Also, TimeBucks provides a lot of other tasks to earn money daily and you always have something to do.

There are some tips below that you can follow to prepare yourself for completing surveys and other tasks, being able to earn your rewards and avoid being screened out or banned.

PREPARE YOURSELF

- Create an email account different from your personal one to sign up on TimeBucks, so you can work properly. I recommend a gmail account;
- Create a digital wallet (e-wallet) account using the same email you intend to use to sign up on TimeBucks. Also, your first and last names must match exactly;
- Prepare a peaceful environment with a good Internet connection, so you can focus on the surveys and other tasks without interruptions;
- Keep TimeBucks on your bookmark toolbar for an easy access.

ALWAYS...

- Provide real information;
- Be patient, responsible and honest;
- Allow the cookies and notifications for TimeBucks and its partners;
- Disable ad blocks;
- Take your time to read all the instructions and complete surveys and other tasks properly;
- Make sure each survey page fully loads before filling out information;
- Leave the last page of the survey open once completed for a few minutes or until it credits;
- Wait a short period of time before trying your next survey.

NEVER...

- Try to fraud;
- Try to complete the surveys as fast as you can;
- Try to complete more than 1 survey at a time;
- Share the link or the content of the surveys with your family, friends or other people;
- Create multiple accounts;
- Use VPN or Proxy programs.

Money per week: The top 5 referrers of the week are awarded up to 100 dollars every Friday

How it works: This is a weekly contest where the users with the most referral commission are awarded. However, it only includes your level 1 referrals that have signed up since last Friday, it does not include referrals that have signed up before that.

You must invite other people to join TimeBucks, teach them how to use the website and try to keep them interested in completing tasks at least during their first week.

6.9. Referrals

TimeBucks provides to its users a referral link that they can use to invite other people to use the website and earn commission on everything they make for life. This is a good way to increase your earnings passively.

Path: Earn > Refer > TimeBucks

Limit per day: There is no limit, you can have unlimited referrals from any country

Money per referral: 15% commission on completed tasks + 10% commission on deposited advertise funds

How it works: All you have to do is copy your referral link and share with your friends and other people. I really recommend you to know TimeBucks very well before doing it. Then you can talk about it to your close friends and ask them to sign up using your referral link.

You can also make a website talking about earning money online, upload YouTube videos or post your referral link on your social media, always showing the details about the website and payment proof based on your own experience, this way you can attract more people easily.

6.10. Premium

Path: Earn > Premium

Limit: There is no limit, you can renew it every 7 days

How it works: In this tab, you can use your credit card to pay 4 dollars and 95 cents to become a premium user for 7 days to increase your earnings by 25%.

That means, if you do a task that usually pays 1 dollar, you will get 1 dollar and 25 cents for it. This only increases normal task earnings and excludes referral earnings and bonuses.

When your premium expires after 7 days, you can come back to this tab and purchase again if you want.

Note: It will only worth it if you earn more than 20 dollars per week completing surveys and other tasks on the website. Also, you can alternatively earn the Premium Membership by completing the Daily Goal Checklist for 6 days in a row, paying nothing.

6.11. Sweepstakes Software

This is the Official Sweepstakes Software by TimeBucks. By running the software, you will get 100 free Sweepstakes entries every 10 minutes, without even doing any tasks. It will increase your chances of winning a prize in the weekly Sweepstakes.

The software mines cryptocurrency using your unused processing power and it currently only works on Windows PC with a 64 bit operating system. It is whitelisted by all major antivirus providers and has undertaken very strict assessment.

All you have to do is download the software and login using your TimeBucks credentials. It is possible to manage the software and choose if you want to run at startup, pause, quit and take some other actions.

You can download the software on the website or using the direct link:

1. [Website](#): Earn > Sweepstakes > My Entries
2. <https://downloads.joinmassive.com/timebucks/windows/TimeBucksInstaller.exe>

7. Final Consideration

TimeBucks is indeed the best website to earn money because it is available for all countries and has a lot of different tasks to do.

Using this guide, you can easily earn at least 10 dollars per month as a beginner. After a while, you can find yourself earning 10 dollars per week and maybe per day.

However, the amount of money that you will earn totally depends on your patience, persistence, dedication and effort. Also, your earning potential is unlimited if you keep getting more and more referrals.
