

PASSION 6000 Series

[: Hybrid]

The GECKO® PASSION 6000 is the world's first hybrid True Diversity wireless microphone system that fuses the best of both analog and digital technologies to deliver the best natural tone of your voice and instruments wirelessly in this modern digital era filled with digital interferences.

The MP 6000W wireless handheld transmitter features a Replaceable-Capsule Design, Anti-Roll Steel Mesh Grille, Anodized Anti-Static Aluminium Alloy Body, IR Port, On/Off Switch, Battery Compartment, Anti-Shock Rubber Glove, and a Backlit LCD displaying Group, Channel, Frequency, and Battery Life.

Coupled with C.R.I.S.T.A.L.® Audiophile PreAmps, Advanced Hybrid Signal-Enhancing Filter (AHSEF)™, and Phase-Locked Loop (PLL)™ synthesized technology, the PASSION RP 6000 wireless receiver system is able to send and receive secured audio transmission in great clarity. The PASSION RP 6000 comes ready with a total of 100 UHF Preset Channels over 10 Groups, 4-Step Transmission & Reception Power Level (POL), AF & RF Signal Strength Level Meters, Quiet Power-Up/Shut-Down Design, Infrared (IR) Synchronisation, and Frequency Scan.

The GECKO® PASSION 6000 wireless systems are manufactured-on-demand (MOD).
