60,000 students

Students are part of the fabric of Sheffield, and are important parts of communities wherever they live in the city.

Students voted Sheffield as one of the best UK cities in the Student Crowd Best Student Cities 2022.

One of the UK's most affordable student cities

With many costs sitting below the UK average, it's a little bit easier to stretch your student budget here.

You'll find a welcoming city with lots of student deals and affordable accommodation within walking distance of your campus.

UK's greenest city

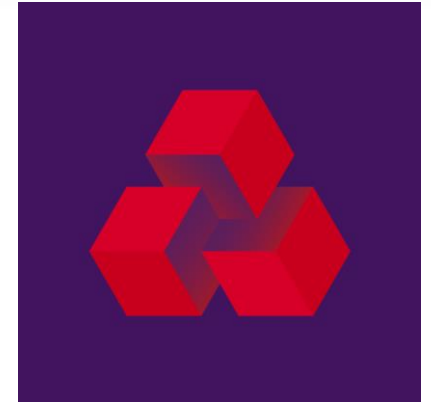

We were ranked the UK's greenest city by the 2021 NatWest Green Cities Report, and we weren't surprised. We have the highest percentage of green space (61%) of any city in the world.

5 rivers, more trees per person than any other European city, and a third of the city sitting in the Peak District National Park.
