Erasmus+

Co-funded by the
Erasmus+ Programme
of the European Union

This is a special adventure that began in a very interesting and well-conceived eTwinning project, awarded with National and European Labels, between different European countries - "Let's visit a country - II".

The Erasmus+ idea started right at first when students, teachers and parents questioned the possibility to meet the people and places they discovered through all the amazing activities promoted and shared in the eTwinning project.

So, bringing together curiosity, adventure, the need to find and meet different places and cultures, six teachers from six different European schools (Poland (the coordinator), Italy, Spain, Romania, Bulgaria and Portugal) decided to found the Erasmus+ project "Unesco Untold Experiences and Stories of a Country", as cooperation for innovation and exchange of good practices experience.

This is the result of this wonderful three-year intense rich experience

UnESCO- Untold Experiences Stories of a Country 2018-2020

First, we established cooperatively, objectives, activities and products to help us to learn about UNESCO sites, the diversity of expressions of cultural heritage, sustainable development and above all the stories, the experience of people related to certain UNESCO sites.

We planned visits, training courses for students and teachers that made them improve culturally and humanly, making them informed, responsible and active citizens, respecting differences and cultural diversities.

We shared teaching practices and created a European network on the eTwinning platform to exchange teaching methods, and developed cross-curricular practices inside and outside classes.

We created our eTwinning project and started our cooperative work

[HOME](#)[PAGES](#)

UnESCO-Untold Experiences Stories of a Country

The Erasmus+ project "UnESCO- Untold Experiences Stories of a Country", reference 2018-1-PL01-KA229-051224, will be realized using eTwinning platform as place to work, interact and collaborate. The aim of this project is a real achieve the use of UNESCO values and heritage by students as actors of change. Knowing and studying UNESCO sites, discovering and telling their stories will be training courses for students that will make them improve culturally and humanly, making them informed, responsible and active citizens, respecting differences and cultural diversities. It is also aimed at developing our students' transversal skills on critical thinking, foreign languages and digital skills by promoting innovative practices in teaching sharing good practices among teachers, especially to fostering inclusion and contributing to the prevention of early school leaving.

And so the adventure began!

... and in the first mobility we all met in Poland!

The Polish team prepared a wonderful training course for teachers on ICT usage in the classroom and Polish students had a class taught from the foreign teachers! It was very interesting!

POLAND

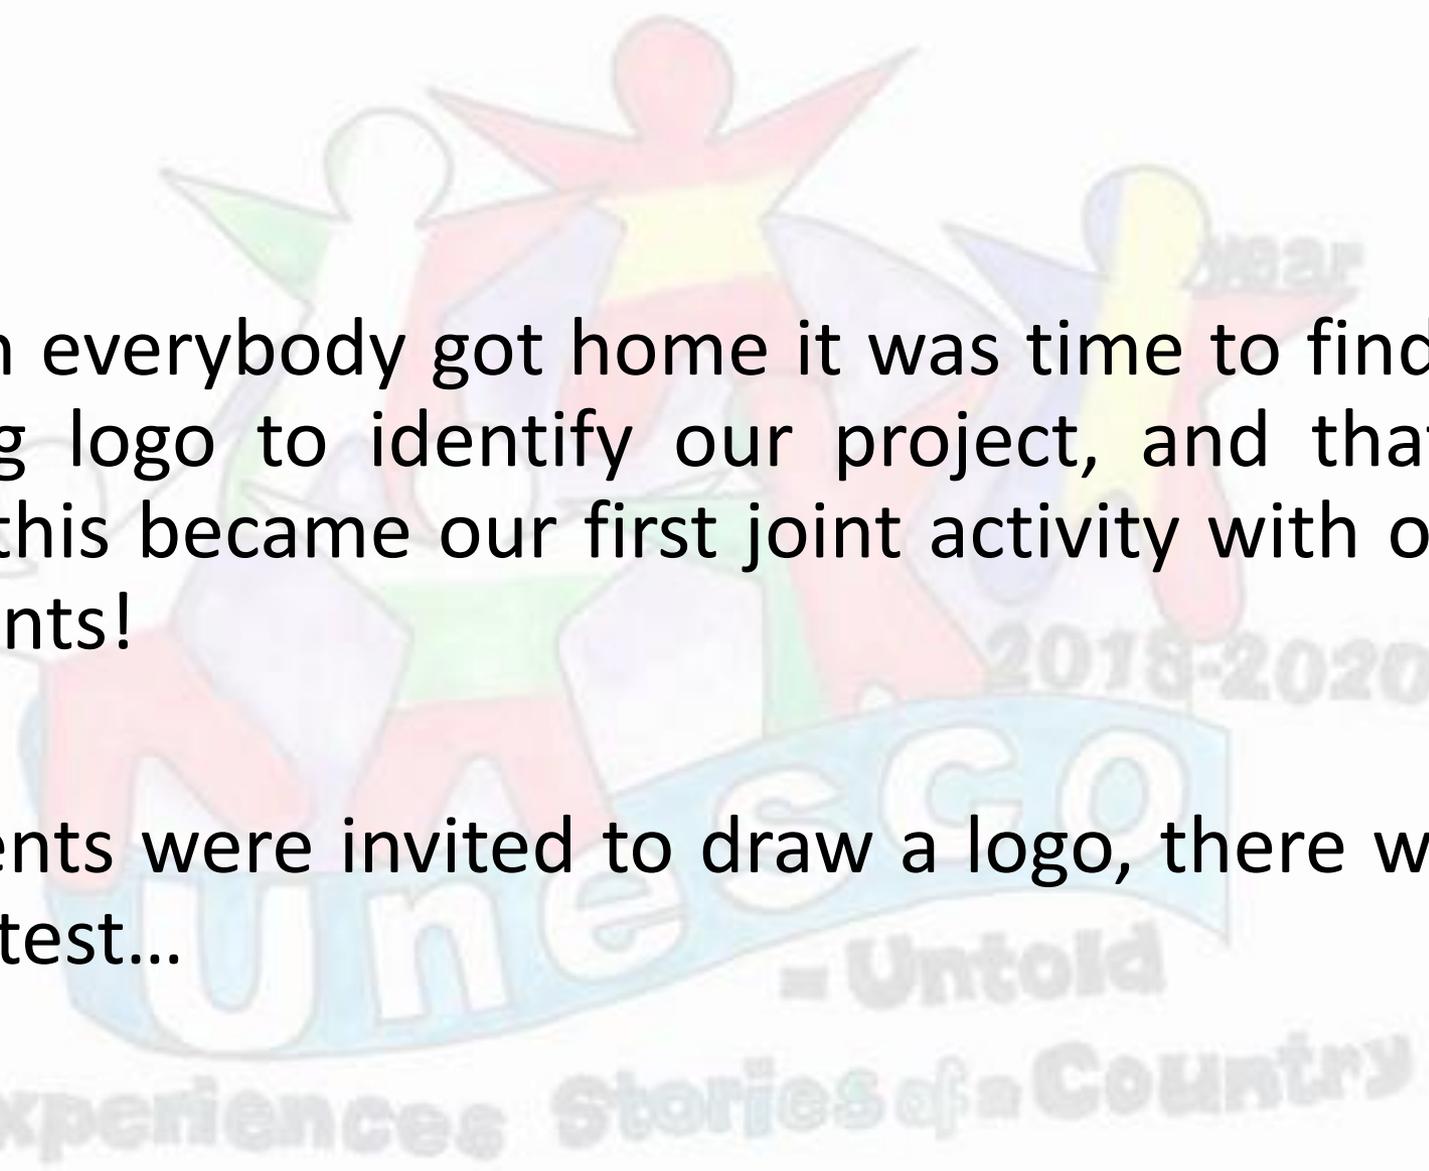

Everything was very beautiful and we found so many differences from our own countries!

The food, traditions, monuments and stories from Poland were shared with love and friendship and we learned a lot from the students and the local community!

When everybody got home it was time to find a strong logo to identify our project, and that's how this became our first joint activity with our students!

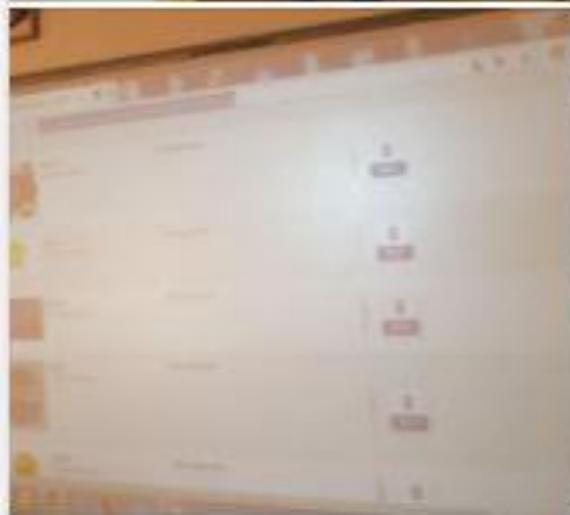

Students were invited to draw a logo, there was a contest...

LOGO COMPETITION - PORTUGAL

BULGÁRIA	ROMENIA	ITÁLIA	POLÓNIA	ESPAÑA	PORTUGAL (no voting)

Experiences Stories of a Country

ITALY

After having a wonderful logo it was time to prepare the mobility to Italy!

The host school organized guided tours of Sicilian UNESCO sites: Syracuse, four cities of Val di Noto (Caltagirone, Modica Ragusa, Noto) and Villa Romana del Casale (Piazza Armerina).

For the visits to Siracusa, a few villages in the Val di Noto and the Villa del Casale in Piazza Armerina, the students had to know the local Unesco heritage and had to contact the local citizens, so they could do some questionnaires with the purpose of determining the importance of Unesco Heritage where they live, and advantages and disadvantages for the environment and for the economy of the city just for having Unesco's official monuments.

ERASMUS+ PROJECT UNESCO-UNOLD EXPERIENCES STORES OF A CENTRES

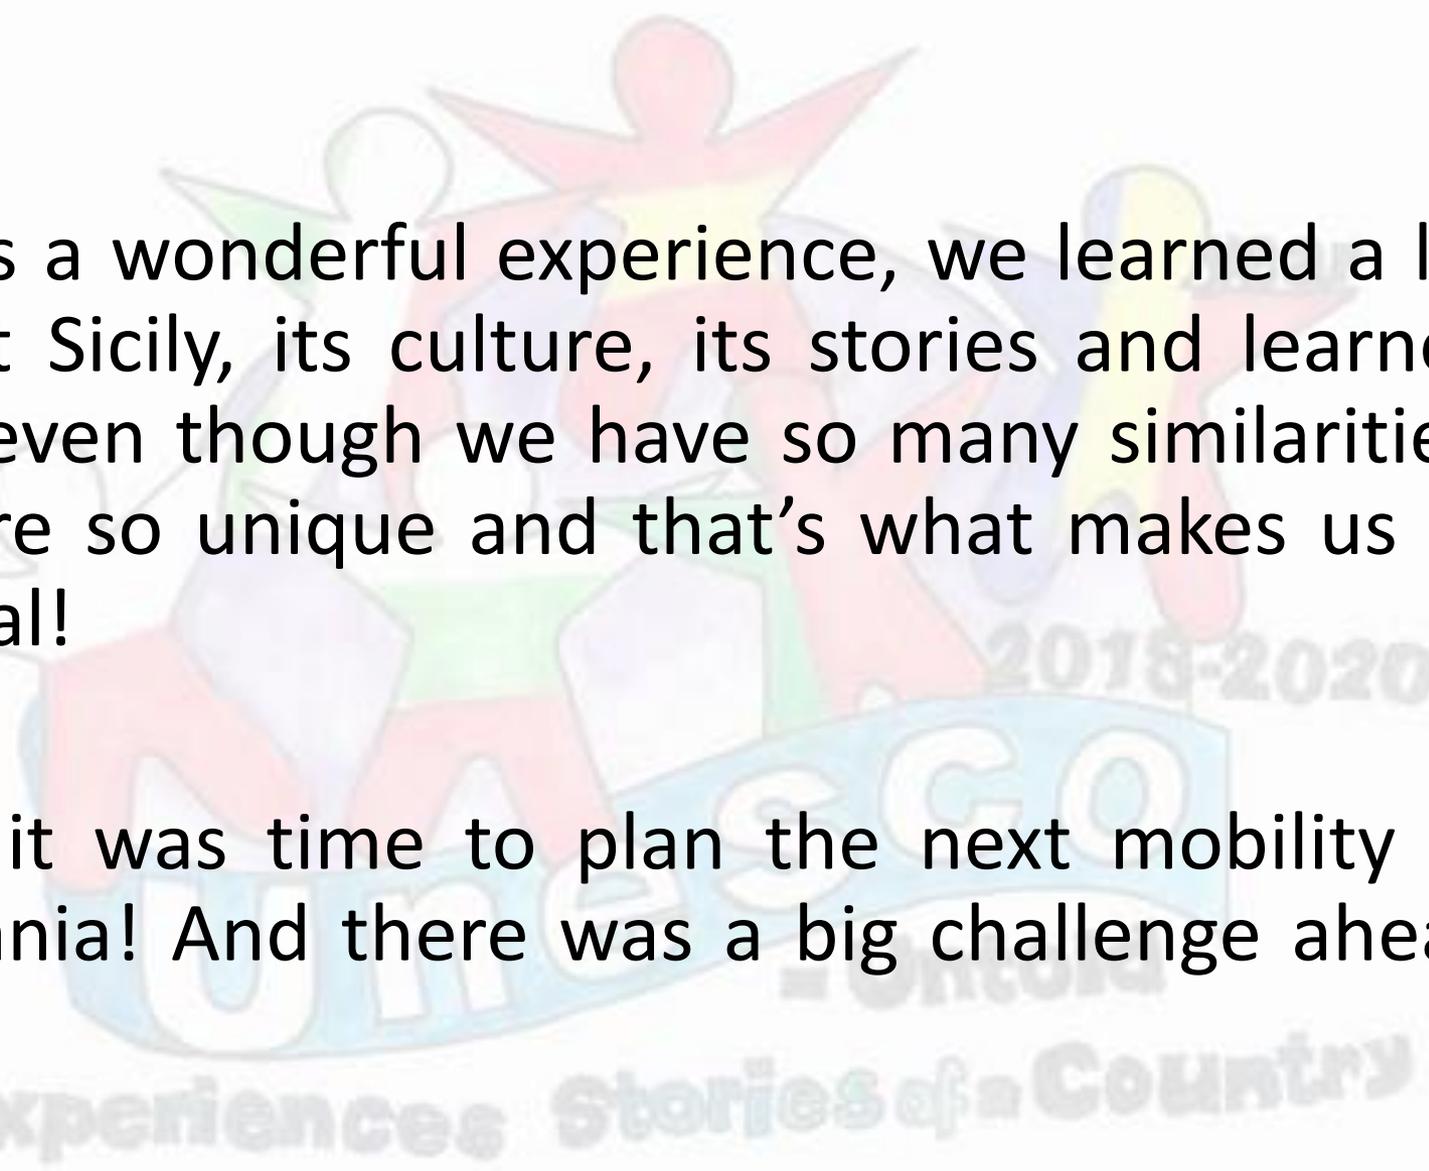

It was a wonderful experience, we learned a lot about Sicily, its culture, its stories and learned that even though we have so many similarities, we are so unique and that's what makes us so special!

Now it was time to plan the next mobility to Romania! And there was a big challenge ahead us!

ROMANIA

The Romanian prepared a very challenging task : students had to prepare themselves to participate in an Unesco Formal Meeting organized by the Romanian team.

They did some researches on the topic they wanted to argue about and then presented their opinion to all the participating schools. It was very important because this activity permitted the Romanian school to become Unesco School and to publish the 1st unique booklet "Unesco Model" and guide book "Covid Unesco".

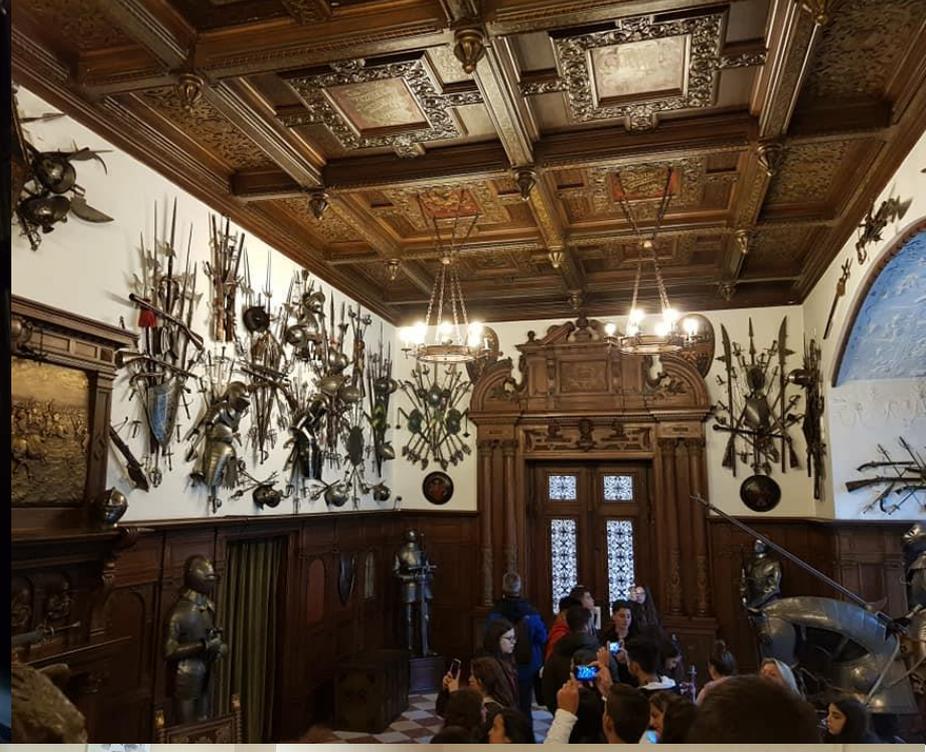

There was a trip to Targusoru Vechi Gymnasium where the students were able to see a UNESCO intangible heritage, a dance called Calusarii, a monastery that was built by *Vlad* the *Impeller* or *Vlad* Dracula, and also Bucharest and UNESCO headquarters. We visited Rasnov citadel then to Harman and Prejmer, Braşov City, Sinia and the Peles Castel.

Peles Castle

Wonderful experience, we learned a lot about the Unesco's responsibilities to human kind!

Thank you Romanian team!

It's time to go to Spain!

SPAIN

In the Spanish mobility everything was organized to show Almadén and some Unesco places with great importance!

In this mobility, all students and teachers were able to participate in common activities such as:

- Visiting World Heritage sites.
- Students getting to know each other through photographic activities, video making, ICT usage and social networks.
- Photography Gymkhana in World Heritage sites from Almadén.
- Photography work fulfilment in teams to remember the places visited, acknowledge them and make daily videos for uploading them to the social networks and web page made for the purpose.
- Video contest.
- KAHOOT contest.
- Group dance.
- Virgen del Castillo visit.
- Visit to Almadén and Chillón townhalls.

Entry

Exp

In Spain we found some stories about the mines and the living conditions in the past and the struggle of the Almaden people to have their mines recognized as Unesco's!

Life was very hard in the past but in the present people still fight for better conditions!

And it was time to visit Portugal!

PORTUGAL

The first Portuguese mobility organized a teachers' training course, and all partners participated in two different workshops and the main topics were: "Cross-Curriculum projects- How to create and implement cross-curriculum eTwinning Projects?"

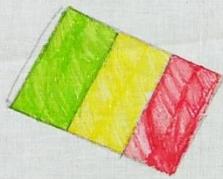

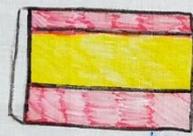

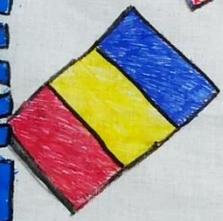

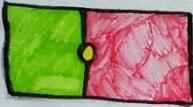

"What different approaches do we have to professional school students"? This second training moment was in Casa Pia de Lisboa- vocational school which is specialized on teaching different jobs including watchmaker, cooks and others.

After the workshops the teams had a great opportunity to watch a music performance prepared by Portuguese teachers and students and also participated in a Cultural Unesco's Portuguese Tour that included visiting Cascais- an important tourist destination and Sintra- the Unesco cultural landscape with a tour guide; Visiting the park and Quinta da Regaleira and Sightseeing of Sintra landscape.

We visited beautiful, digital Presidential Museum, watched the Jeronimos Monastery, the Monument to the Discoveries, Belem National Palace and followed a guide paper made by the students.

In the late afternoon we met in The Oeiras Winery restaurant . The farewell meeting started with beautiful performance about the history and traditions acted by the local people of Paço de Arcos. We were really admired of actors' play and the outstanding performance.

Our first year was getting to the end and we had another visit to Romania, this time only for teachers, to attend a training course on stereotypes. Very interesting!

Teachers also visit the newest Communist Museum, with an incredible tour guided visit that made us understand so much about the Romanian people.

Everything was going great! And we were just starting to plan Year 2...

From mobility to mobility our friendship was growing, our cultural education was increasing, our knowledge about the world around us was enriched and our dreams were coming true!

We were united by bonds of kindness and understanding and we were planning more...much more...

...and suddenly...

COVID-19

PORTUGAL

March 2019 was time to return to Portugal and this new disease all over the world was getting closer...

The mobility to Portugal happened but our Italian friends couldn't come, they were the first "victims" from this project that couldn't travel abroad due to increasing covid19 victims in Italy.

So, we shared with them our adventure:

Santo

Nicolau
Tolentino

Even though we really didn't know about the length nor the terrible results of covid19 at the time, we enjoyed very much being together and most of all, we couldn't say when we would meet again...

We still had two countries to visit: Bulgaria and back to Poland, and we were afraid we couldn't complete our wonderful project.

As a result of the increasing cases of infected and dead people around the world, all countries were forbidden to travel abroad and all people were supposed to stay at home, out of streets, schools, public places...out of life...

- **...and the news came from Bulgaria..**

Красимира Чорбаджийска

11 de maio de 2020 · 🌐

Hello, dear partners and friends 😊

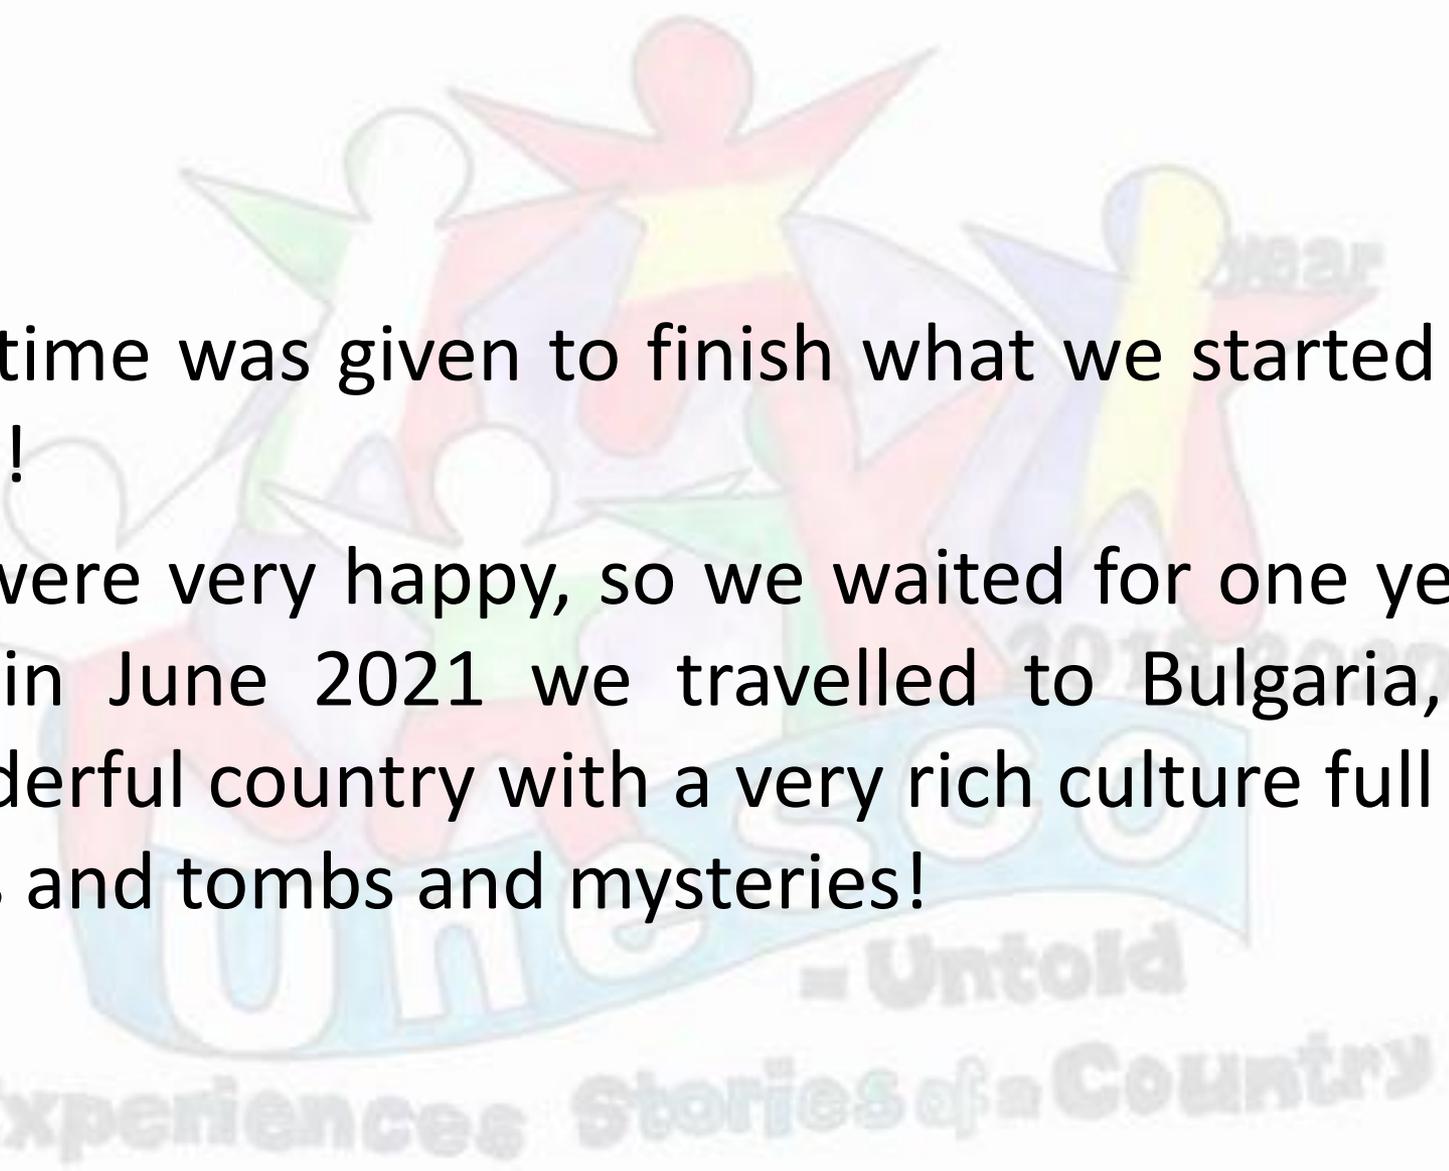

Today we were supposed to be together here, in Bulgaria for the "UNESCO" project. Of course we will wait for better and safer times for all planet.

For now, greetings and virtual hugs 😊

... coordinators started to work online to get more time to finish the project... in a big common cooperative effort.

And time was given to finish what we started in 2018!

We were very happy, so we waited for one year and in June 2021 we travelled to Bulgaria, a wonderful country with a very rich culture full of kings and tombs and mysteries!

BULGARIA

ANIA

Our journey was ending and the last mobility was two weeks later!

So, finally, we met again in Poland!

Land of warm-hearted people, rich mysterious traditions, popular festivities, tasty food and unique songs!

Experiences Stories of a Country

- Untold

2018-2020

POLAND

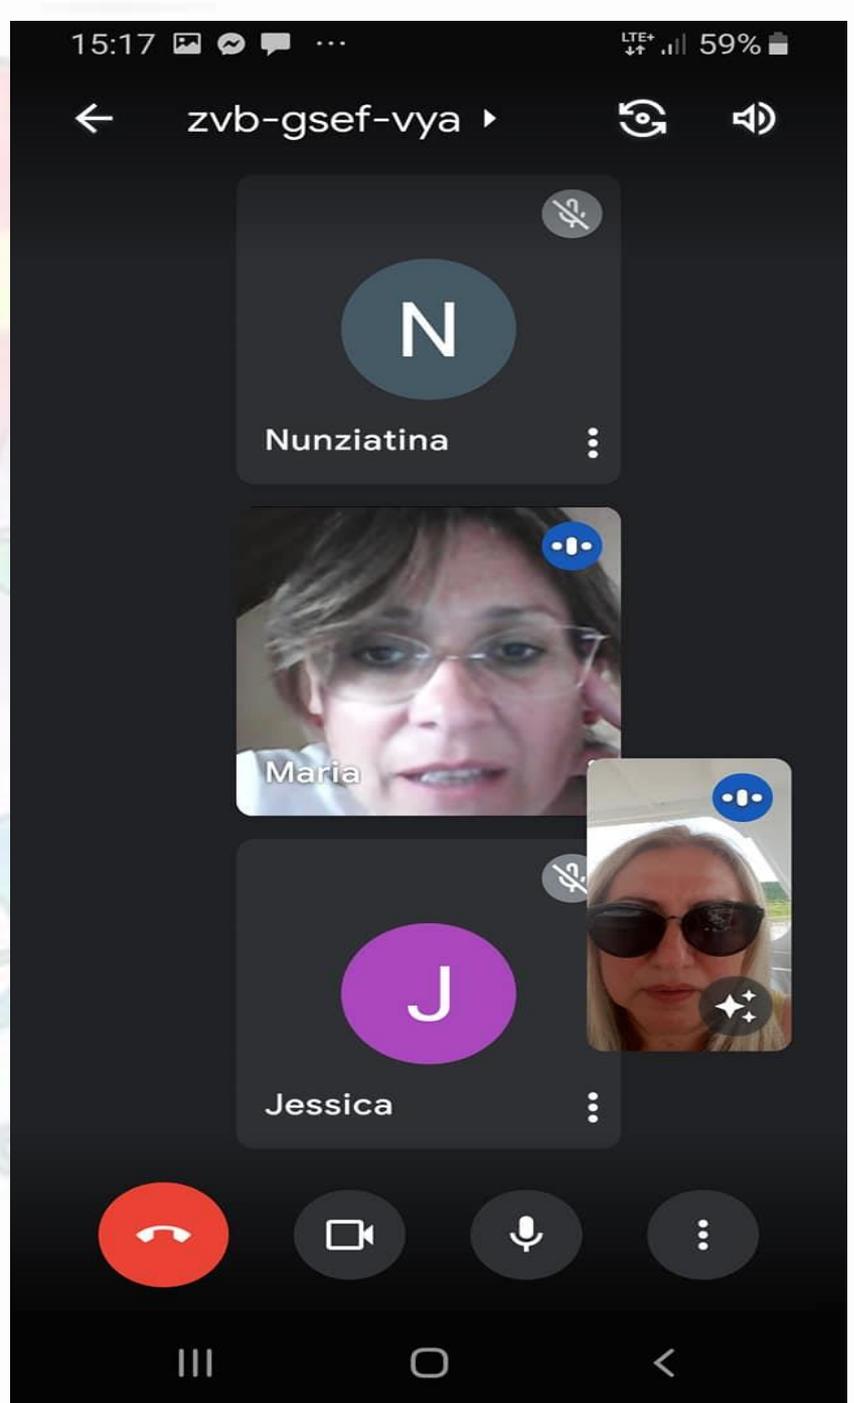

"A group becomes a team when each member is sure enough of himself and his contribution to praise the skills of others.", someone said... and in times like these we are living, friendship, love, respect, cooperation and help are magic words.

The best lesson we have learned in thios project was, for sure, being resiliente, being brave and never give up!

Resilience is the ability to withstand adversity and bounce back from difficult life events. Resilient people tap into their strengths and support systems to overcome challenges and work through problems.

THAT'S US!

**THANK TEAM! SEE YOU JUST
AROUND THE CORNER!**

Just to remember...because we couldn't post all photos, we give you the video links to remember all the wonderful moments!:
