Model HTE-01
Programming Schedule Setup
QUICK SHEET

The Model HTE-01 is a Fully Programmable Smart Thermostat that has been set at the factory to a default setting of OFF (N).

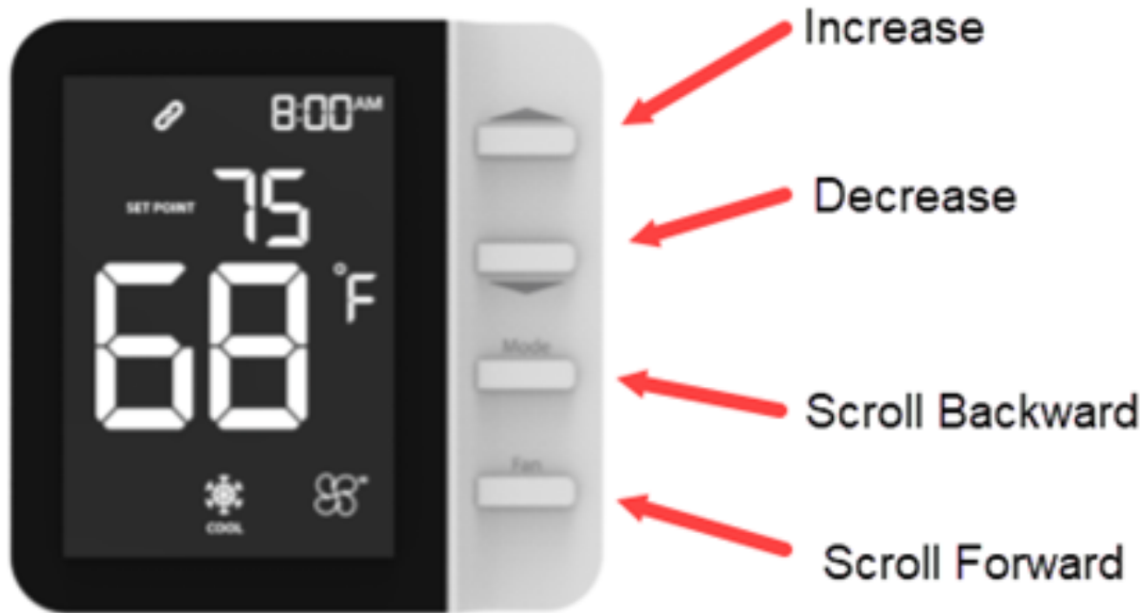

To activate the Programming Schedule function please follow the steps below.

First you must go into the the "Parameter Setup Mode.

To access the Parameter Setup Screens , please PRESS and HOLD the "MODE" and "FAN" buttons together until you hear a "BEEP" , then release the buttons. You will now be in Parameter Setup.

Button Function in Parameter Setup

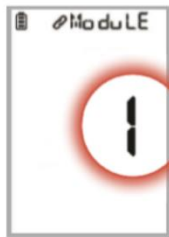

Use the "FAN" button to Scroll forward and the "MODE" button to backward through the available Parameter setup screens.

Parameter setup screens

The Following is a Screen by Screen display order that you will see when in Parameter Setup:

Please Scroll through the Parameter screens till you get to Screen (9) , the "Schedule Screen".

1
