THE UNIVERSITY OF OPPORTUNITY

Jobchange is working with Wolverhampton University this month and encouraging mature students to take up the learning they left behind, we are promoting their event that is taking place on the 6th of May. The event will put answers to questions that stopped individuals from furthering their education, can you help spread the word too:

This session is open to anyone who is interested in studying at University and will cover a variety of topics including:

- choosing a course;
- applying for a course and writing a personal statement;
- balancing study with your other commitments;
- top tips from current mature students;
- the financial support available.

There will also be an opportunity to ask any questions you may have.

Open to All.

These people made the choice, so can you!

I made the decision to go to University when my kids were young, I felt I had missed out, my parents never had much money and couldn't afford the fees, it's not like that anymore, you only pay back the loan if you earn a certain amount. I enjoyed the company of others, we worked through the lectures together, we had many a conversation over a cup of tea and a cheeky glass of wine. Best decision I ever made, now my kids are grown up, I work in an area I studied for and feel so lucky to have made the decision to go back to education.

J. Cooke

JOBCHANGE REVIEWS

"A brilliant, professional and helpful service. I would definitely recommend it to anybody!"

Thank you Sim

"Great service at Jobchange Walsall. A big thank you to Laura Thomson for recommending me to Jobchange and booking my appointment. Thank you to Steven Morris for doing me a superb job with my CV it looks so professional. Looking forward to all my replies when I start sending it off. I would definitely recommend Jobchange Walsall to my friends and family. Much appreciated Lee Dixon"

Thank you Lee

"Tyrell is the most patient person ever, 4 old ladies redundant from bank to teach. Have managed us so well and we have learned so much so a huge THANK YOU and recommend to all!!!"

Thank you Linda Turner

One of the main reasons why I wanted to go to university was the chance to explore and study in a different city that wasn't home. When it came to making the decision of where to go I did it off my own back, by researching into the city, what it offered and of course which university had the best course criteria. Although each university does pretty much the exact same course, you have to read about what subjects they cover, if you have any trips and also any other benefits that come along with the course as well. I've always wanted to go away from Wolverhampton and see a new city so university was the perfect opportunity to do so. My first thoughts were scary thoughts in fact it was pretty much excitement. To have my own independence, meeting new people and being elsewhere other than home. Uni life is crazy, there's the time when you can be out partying every day, then up early hours for a lecture but you wouldn't change anything. It's all about meeting new people who become your best friends, but it's also about finding yourself and seeing what person you become. Learning is never too late, do it you will be pleased you did

S. Scott

"I am at the moment doing IT entry 3 digital skills with Terrell, He is absolutely amazing, very patient, and a brilliant tutor. I highly recommend this course to anyone who needs to improve their IT skills. I also take Math with Moss who is equally competent and highly skilled. Thank you Job change"

Thank you Rajinder
