

JOBCHANGE

Well we have definitely had some fine weather this month and enough rain to water the gardens. We witnessed England in the semi-final of the euro's and continued with getting our vaccines. Now we celebrate the school holidays and thank all the teachers for all good work they have done with our children in such trying times. Just because school is out it doesn't mean Jobchange is! We have continued to remain open through July and are working safely. Jobchange has chosen to continue to follow the COVID guidelines still keeping 2 metres apart and wearing face masks along with hand sanitising at all times. Following these rules means we can still deliver great, FREE training courses and excellent careers advice and guidance.

LOOK AT WHAT'S NEW
