

**FIELD MECHANIC - M/F (Fr/En)****Offer reference 0031Fieldmecha-mp****ONE SA IS RECRUITING IN CAMEROON****apply to : [direction@one-saholdings.com](mailto:direction@one-saholdings.com)**

A Field Mechanic plays a crucial role in maintaining and repairing the heavy-duty mining machinery and equipment used in this major iron ore mining project. Ensuring equipment functionality is critical to the project's operational efficiency and success.

**Key Responsibilities :**

- Perform regular maintenance and repair work on mining machinery and equipment to ensure they operate safely and efficiently.
- Diagnose and troubleshoot equipment faults on-site and perform necessary repairs or adjustments.
- Work closely with the engineering team to understand the specificities of each machine and devise effective maintenance strategies.
- Respond swiftly to emergency breakdowns and minimize downtime.
- Inspect equipment for proper performance and detect faults and malfunctions.
- Collaborate with the Procurement Specialist to manage spare parts inventory and ensure critical spares are always available.
- Adhere strictly to safety protocols and regulations at all times.
- Keep detailed records of the maintenance and repair work carried out, including parts replaced and work hours spent.
- Provide recommendation and feedback on the performance of equipment to the engineering team and suggest improvements where necessary.

**Qualifications :**

- Technical diploma or certification in mechanical engineering or a related field.
- Proven experience as a field mechanic in a mining environment or similar heavy industry.
- Extensive knowledge of heavy-duty mining machinery and equipment.
- Proficiency in using various tools and equipment for repair and maintenance work.
- Ability to diagnose and troubleshoot mechanical issues in heavy machinery.
- Strong understanding of safety protocols and regulations in a mining environment.
- Ability to work under pressure and in challenging conditions.
- Willingness to work in shifts and be on-call for emergency breakdowns.

**Personal Attributes :**

- Strong problem-solving skills and a hands-on approach.
- Detail-oriented with a focus on quality and safety.
- Ability to work as part of a team and collaborate effectively with colleagues.
- High level of integrity and dependability.
- Proactive in identifying issues and implementing solutions.
