

SHOVEL MECHANIC - M/F Fr/En

Offer reference 0021shmec-mp

ONE SA IS RECRUITING IN CAMEROON

A Shovel Mechanic will play a key role in maintaining and repairing the heavy digging machinery used in this major iron ore mining project. This professional will ensure the efficient operation of shovels and other excavation equipment, contributing to the overall success of the project.

Key Responsibilities :

- Perform regular inspections of shovels and related equipment to ensure they are in good working order and meet safety standards.
- Diagnose and repair faults in shovel machinery, including hydraulic, electrical, and mechanical systems.
- Conduct preventive maintenance tasks to reduce the likelihood of significant equipment failure or degradation.
- Respond promptly to any mechanical issues that arise during mining operations, minimizing downtime and maintaining production schedules.
- Work closely with the Maintenance Superintendent and other members of the Engineering Department to implement maintenance strategies and improve equipment reliability.
- Adhere to all safety protocols and regulations during repair and maintenance activities to ensure a safe working environment.
- Create and maintain detailed maintenance logs for all equipment, contributing to the overall tracking of equipment performance and lifespan.
- Participate in training and development opportunities to stay updated on the latest industry trends and enhance technical skills.

Qualifications :

- Vocational training or certification in Mechanical Engineering, or a related field. Experience in heavy equipment maintenance, particularly in shovel mechanics, would be highly advantageous.
- Proven experience as a mechanic in a mining or similar heavy industry setting.
- In-depth knowledge of hydraulic, electrical, and mechanical systems as they apply to heavy mining machinery.
- Physical fitness and the ability to work in challenging conditions, as the role involves manual labor and work in a mining environment.
- Strong problem-solving skills and the ability to work independently or as part of a team.
- Familiarity with safety regulations and the ability to adhere to these at all times.

Personal Attributes :

- Strong attention to detail and commitment to thorough, high-quality work.
- Ability to work effectively under pressure, particularly when dealing with equipment breakdowns or malfunctions.
- Strong team player with good communication skills.

Safety-conscious and committed to maintaining a high standard of workplace safety
