3	4	5	6	7	8	9

Life Skills Focus & Engagement: This class is filled with games and learning. We work on important life skills in a fun way. This class will help increase your dog's confidence, engagement, focus, proximity, calmness and so much more. Each class we will work through different activities and distractions that will help all of your everyday life skills like loose leash walking, recalls, impulse control, ability to move through distracting environments and helping your dog to make better decisions.

Urban Life Skills - (*Location will be determined and emailed to those that sign up*): This class is held outdoors in a public setting at various locations. You will learn and test practical skills in the real world, and have fun! We will work on how to be polite in public by working on loose leash walking, polite greetings, calmness and settling in new places, stays, focus around distractions, building confidence, etc.

Dogs that enroll must be friendly toward people and accept being around other dogs.

This class is weather permitting.

Life Skills; Agility for Fun: Both you and your dog will have fun and work as a team as we safely teach them to jump over hurdles, run through tunnels, balance on the wobble boards, work on rear end awareness and much more. This is all while working on important life skills too! This class works on communication between handler and dog, confidence, obedience skills like recall, stay, focus, impulse control, off leash connection and more.

While this class could be a nice foundation for agility, it is not competition-focused.

This class will be held outside in a fenced in area.

Life Skills; All The Manners! : This class brings it all together. We will work on all the manners; polite greetings, impulse control, loose leash walking, recalls, stays, going to a "place," and staying there until released, focus and so much more. This is all taught while having fun. We will keep you busy and moving. You will go home with homework and skills to take you and your dog to the next level!

Life Skills; Advanced: Not sure what to do next with your dog? This is the class for you! This class will involve fun challenges that will work on proofing your core skills.

- Recall amongst Distractions
- "Leave It" - Do not pick up that dirty napkin
- Focus on handler and not reacting with distractions like joggers or other dogs going by
- Settling on a mat/place with outside distractions
- "Humans Are Talking" - Stay calm while we stop and talk
- Off leash skills
- Fun stay and recall challenges
- Down at a distance
- And so much more!

This class is perfect for those of you that have some core skills on your dog and you're ready to build upon them. Have you been attending Day School, classes with us or somewhere else and ready for what's next? This is the class for you!

Rock Solid Recalls: Does your dog *sometimes* come when called or seem to have selective hearing? Do you have to chase your dog around to get her to come in from the yard every morning? This class is jam packed with games for teaching your dog to pay attention and come when called - the first time you call her.

A reliable recall may be the most important skill your dog can learn. It could save your dog's life!

Walk With Me: Do you struggle with your dog pulling you on leash? This loose-leash walking class will focus on walking nicely next to you during a walk, walking ahead of you and not pulling during a walk, building confidence during the walk while passing people, dogs, and an assortment of different distractions. We will work on skills to refine and strengthen loose leash walking and overall build your bond and communication with your dog while out and about with them.

Puppy Foundations; Optimistic Puppy: Make sure to start your puppy out right! The way we socialize puppies is always changing. Be in the know of the most modern techniques. In this class we will be working on games that will build on your relationship by making things like recalls, impulse control, focus, going from chaos to calm, fun. We will have obstacle courses, different sounds, novelty objects, new people and dogs that will help your puppy to become properly socialized and optimistic. We will also work on foundations for attention, leash walking, stays, polite greetings, leave-its and more. We teach this all while playing games and having fun. *This class is best for puppies 5 months and younger.*
