

Read and understand entire manual before using this product

WARNING Orpaz Holster designs vary according to specific firearms, Users must verify that the holster fits their firearm. Before using the holster make sure your pistol is **checked, clear, and safe, with no magazine in the well.** Do not use a loaded handgun with any ORPAZ accessory without first testing in the unloaded condition, Do not carry any pistol with a round in the chamber unless you have received professional training. When drawing, replacing, or holstering your gun on different mounting locations, keep your finger away from the trigger, Be sure your safety is engaged, and keep the gun pointed in a safe direction. Drawing and holstering a firearm can be dangerous with risk of personal injury or death. You must seek proper instruction and training, Always use your firearm as recommended by the manufacture. Do not modify disassemble or remove any part from the OMS or any Orpaz holsters.

OMS INSERTS

The OMS features two types of inserts:

1. OMS Holster insert

The OMS Insert can be attached to any Orpaz accessory with a matching hole pattern such as Holsters, Magazine pouches, Law enforcement gear etc'. It will mount on any OMS Receiver and features a special locking release mechanism and adjustable cant. Customize and transfer your gear to different mounting locations within seconds.

2. OMS Molle insert

The OMS Molle insert can be attached to any gear with the Molle mil-spec system, such as bags, pouches, first-aid kits etc, and transforms them to be versatile and modular. Mount your MOLLE equipment on any OMS Receiver you want, without having to deal with Molle straps, configure it only once, and you're ready for any mission.

The **OMS receivers** are designed to accept any accessory with an **OMS insert**. Each receiver is specially designed to meet specific needs and gives you the freedom to rearrange your gear on different mounting points without the use of tools. Remove, change, and attach it according to your needs within seconds.

OMS Paddle

Slightly curved to the natural shape of your body, with minimal footprint and grips to hold tightly to your belt. The OMS Paddle Receiver is a classic OWB carry option.

OMS Belt Loop

Orpaz classic OWB carry option, Fits on all belts up to 2", designed with minimal footprint and grips to hold tightly to your belt.

OMS Molle

Transform your Molle platform to be versatile and customizable. Compatible with all MOLLE systems. Attach any accessory you want quickly and easily without having to deal with Molle straps.

OMS Low Ride

Specially designed ergonomic structure, allows you to mount your Holster at lower level and allows a quick draw when needed. Commonly picked by tactical and Law enforcement units.

OMS Leg Platform

Secure, ergonomic, adjustable with minimal footprint and maximum functionality. Designed to meet tactical needs and mobility.

OMS Holster Insert

1. Align the holster mounting inserts with the holes on the OMS Insert. Firmly hand tighten the screws.

2. Make sure the cant is set to your preference and firmly hand tighten the screws.

OMS Molle Insert

How to attach your OMS MOLLE insert to a MOLLE-compatible equipment (pouches, carriers, First-aid kits, pouches etc)

Thread all four edges of the insert underneath the MOLLE webbing at the same time- All four edges must be threaded properly.

The safety locking adapter locks the insert securely to the Molle webbing.

(A)- Thread it under the webbing .

(B)- Align it with the Insert's Locking hole, and slide it into place

How to mount your gear on an OMS receiver.

1. Pull the latch while turning it sideways, so it remains open.

2. Align the insert with the receiver's locking holes (A) Slide the insert down until it stops in place.(B)

4. Push the latch back in place to lock the insert into the receiver.
