# Controlling the Video

I have kept everything I do in the video, so you see my work from start to finish in full. I wanted to do it this way, but you should consider how you use the video

- **Fast forward** through steps if you think you have the idea. To help you, I have indicated the position (in time) of each step of the video. For example if you have traced, you might not want to watch all the drawing step.

- **Pause** to look more closely at sections

- **Rewind** to go back to a point in time that you want to see again

- **Stop** You may create your own work over time, even weeks, stop the video note where you are and pick up from there when you want

## Key steps in the Video

**Drawing starts at** 3 minutes

**First watercolour wash** at 12 mins and 15 seconds

**Second watercolour wash** starts at 21mins 40seconds

**Third watercolour wash** starts at 47 minutes
