EXW ELEKTA Wooden Urns

MADE IN ITALY

The collections are completely designed, handmade and packaged in Italy through the selection of exclusive raw materials from the Italian craftsmanship. A choice which guarantees the creation of luxury objects, a reflection of a national identity acknowledged and appreciated all over the world for the accuracy of its manufacturing.

The finishes of these collections are all **FSC (Forest Stewardship Council)**. The FSC label indicates that the wood which is used in the production comes from sustainably managed forests, according to strict social, economic and environmental standards.

DELUXE collection

Versatile and luxurious urns. The interiors are upholstered in soft Florentine velvet by certified artisans and are equipped with a removable tray for storing personal items. The sophisticated "mirror" effect of the urn is obtained through an accurate lacquering process, which involves the application of a minimum of five layers of liquid paint and numerous alternating steps between brushing and painting. Even if it takes a long time to finish every a single urne, we believe it's worth waiting just to see the incredible result, which is all that matters to us.

PREMIUM collection

The PREMIUM style is elegant and modern. Simplicity at its best. The sober two-tone combination of glossy lacquered wood finish and the iconic cubic and rectangular shapes are the perfect formula for their success. The interior is mahogany and features a zinc urn for the ashes. The urn closes with 4 screws that fix the lid on the bottom.

ACCESSORIES

"This beautiful artwork fits me perfectly." These are the words used by many people, while looking and touching the chosen urn, among those of our production.

Shouldn't we decide ourselves for something that concerns us so closely? We do then choose the most suitable style for us, making the urn versatile and multipurpose, adding a tray for holding personal items such as letters, pictures, jewelry, cufflinks or watches. Today it will be a place to conserve our precious treasures, to become then our eternal guardian and witness, continuing to make us remembered by our loved ones, over time.

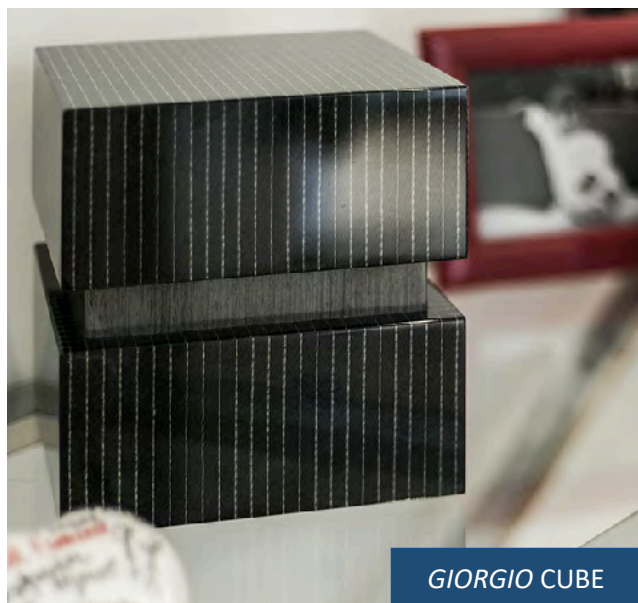

Both the interiors and the trays are covered in soft Florentine velvet by skilled Italian artisans.

EXW A.21 Steel Urns

The urns of the **NATURA** collection are made of AISI 304 stainless steel in both cylindrical and rectangular prism shapes.

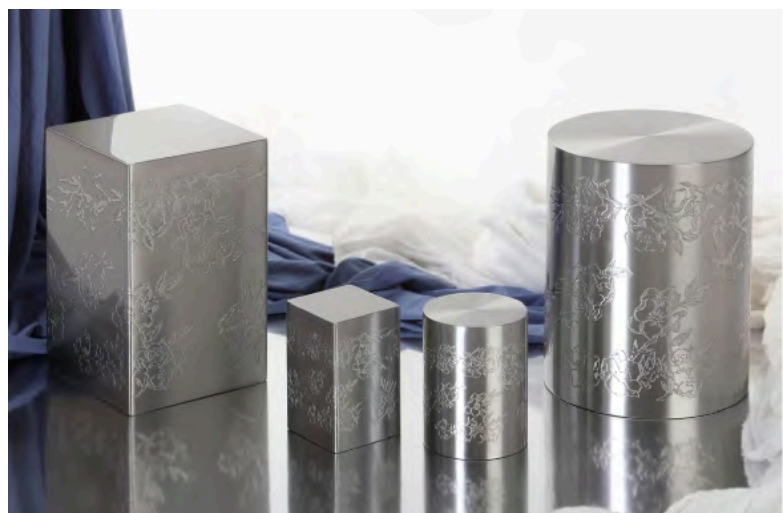

The ornamental motifs are engraved in bas-relief and polished.

The general surface is shaded and protected with a special varnish. All the urns are made with mainly manual processes taking care of all the details, in order to offer you a product of the highest quality and inalterability.

Maintenance is carried out using a suede or a dry cloth, any abrasive products must NOT be used to avoid damaging the surface coating.

There are three ornamental motifs:

- **ULIVO** (*Olive tree*) - an ancient tree that symbolizes permanence in life and peace;
- **CILIEGIO** (*Cherry tree*) - which represents peace and innocence, transit and renaissance;
- **EDERA** (*Ivy*) - a faithful climber synonymous with eternal friendship and memory.

ULIVO Urn Model - cylindrical	
Weight	2.3 kg
Capacity	4'000 cm ³
Dimension	Ø 16 cm × H 21 cm
Mod. Code	A21253

EXW ANTIQUA Urns in Terracotta

The incredible historical reconstruction and fidelity of the inlays enhance the urns of the **ANTIQUA line**. In full respect of the meticulous inlay technique created by skilled artisans whom model the clay, obtaining a perfect reproduction of the historical originals found in the tombs. A long and meticulous firing and painting process gives the surfaces a sophisticated “*antique effect*”.

Additional information: as an option, some urns of the **ANTIQUA line** can contain a steel core, for the ashes conservation, as an alternative to the plastic bag lined in aluminum, sealable.

There are four models:

- ROMANA, JUDEA, VISIGOTA, ETRUSCA: typical shapes, designs and engravings of the urns used by those cultures.

ROMANA Urn mod. in terracotta
(Pre-Christian era)

Tomb and details of the mosaic floor of the Roman basilica dating back to the 4th century A.D. - Aquileia (UD) (Italia).

Basilica of Santa Maria Assunta dating back to the 4th century A.D. - Aquileia (UD) (Italia).
