Among its details we note a fine **dovetail joint** meticulously worked and a modern cap in satin black painted poplar wood.

This model from the *SOLID OLIVE WOOD Collection* is **closed by screwing the lid onto the bottom**, to which in turn are fixed the four support feet, also in solid olive wood, which separate from the rest of the case and then return to their place again in a **refined game of joints**. As for the interior, they can be equipped with a **sealable polished stainless steel core** or with the classic **sealable ashes bag**.

M.ART Urns Line - MOSAIC

The *MOSAIC Collection* is completed with some limited edition models. Among these we find:

- the *LIGHT Urn*, a convex urn, in aluminum, with a central incision and cap lid embellished with a mosaic inspired by a detail of the starry sky of the **Mausoleum of Galla Placidia** in Ravenna (Italy).

Painted in a deep midnight blue color, with **scratch-resistant epoxy powders**, these urns are enhanced and embellished with a classic **Greek fret** decorated with a **mosaic** of **Murano glass tesserae**, **24K gold leaf tesserae** and **precious marble** and **stone** tesserae.

As with all the mosaics that enhance the *M.ART Urns Line*, they are all **unique pieces**, handmade by expert mosaicists. Starting from a meticulous choice of materials, then enhanced by the mastery, patience and dedication in **cutting to measure**, with hammer and cutter, every single card affixed to the urn in production, to then conclude this long and delicate process through the technique of pose, which faithfully follows the ancient canons of the **Byzantine mosaic**.
