

Read in conjunction
with board LEGEND

QuickStart SUMMARY

- 1. Set up Game:** Shuffle the **45 ASSIGNMENT Cards** and place a **draw pile** facedown adjacent to the board. All players select **1** colored pawn, **1 red roadblock cube** and **1 black bad weather cube**. Spare cubes are placed at **Air Traffic Control** and **Department of Transport** at the edge of the board.
- 2. Choose start location:** Each player can choose to start from a **different Airport**, including **Salt Lake City**, but **must** place their pawns at their starting airports **before** dealing the **TEMPLE Cards**.
- 3. Agree on number of temples to be visited:** **6** is a good balance to ensure plenty of fun, but also keeps the game time relatively short.
- 4. Shuffle & deal the 80 TEMPLE Cards:** Deal the number of cards, agreed in **3.** above, to players **face down**. Place unused cards back in the box, they are not required during the game.
- 5. Players carefully review their own TEMPLE Cards:** Plan a **route** to try and visit them in any order.
- 6. Obstruction Cubes:** Players each start with **1 red roadblock cube**, and **1 black bad weather cube**. After planning their own route everyone places both cubes on the board to try and slow down their opponents. These cubes can **only** be placed on the **roadblock** or **bad weather zones**, **not** at an **Airport / Temple, Temple, Border Post, Assignment Card, Open Roads** or **Clear Skies**.
- 7. Bypassing Cubes:** Players throwing a **six [6]** can **land on / pass over** any cubes on their route and **remove** the cubes to **keep** for their own future use. Alternately, players **must** throw an **EXACT** number to land on an **Airport / Temple, Temple, Border Post, Assignment Card, Open Road** or **Clear Skies zone**. Cubes are **not** removed when the **EXACT** number rule is played, unless a **[6]**.
- 8. Start:** The youngest player rolls the dice first, and then play rotates clockwise. Players do **not** draw an **ASSIGNMENT Card** on their first roll of the dice when they start the game.
- 9. MUST draw compulsory ASSIGNMENT Card:** Before players change travel mode at an Airport, **flight / road trip, road trip / flight, or**, go through a **Border Post** between USA and Canada or Mexico.
- 10. Optional ASSIGNMENT Card:** Players may draw an **optional ASSIGNMENT Card** if / when they **land on (not simply stop on)** the **ASSIGNMENT Card "A" circle** found on many travel routes.
- 11. ASSIGNMENT Card:** These create diversions and penalties or provide safe travel. Some cards will affect only **one player**, other cards will affect **all players**. The card border colors are important.
RED border – All players must follow instructions **PURPLE border** – Only selected players
GREY border – Only the player drawing the card **BLUE border** – BONUS / KEEP UNTIL NEEDED
- 12. TEMPLE Visit:** When players arrive at the city to match their **TEMPLE Card** they turn that card **faceup**, to show that visit is complete. Players can turn a **maximum** of **(2) TEMPLE Cards** over, but only **if** they have more than one temple sharing a **common board location**, (eg. Ogden & Bountiful).
- 13. Adding Cubes:** After arriving, and turning over a **TEMPLE Card**, and, if available, players can take **1 red or 1 black** cube from the respective bank at the edge of the board, and **immediately** place to try and block an opponent. If no cubes are available at the bank, a player may place a cube he already owns, but if he does **not** have any cubes then play continues **without** a cube being added.
- 14. Winning the Game:** When players have all their **TEMPLE Cards** turned **faceup** they must race back to **Salt Lake City**, and the **first** player to arrive **wins the game**.
