My name is Linda Beaupre and I have been making miniatures and miniature dolls for 40 years (which I can hardly believe-where did the time go?). I've been selling and teaching classes at Ontario Gatherings, Montreal and now virtually in Edmonton for the first time, for all those years too!

With over 300 molds to work with, I can create for you a wide variety of dolls from babies, toddlers, women and men, both young and young at heart, to fairies and fantasy. You choose whether the doll will be fully dressed to your specifications or assembled and ready for you to dress. If you are interested in ordering a doll or have questions, please email me at:
