If you have read the reviews and praises for Codeword Barbelon, see the bottom of this left hand column for "More Details from the book"

Mon 20/04/09 - "Eric Phelps": "Concerning Codeword Barbelon... I loved it! Full of hitherto unmined nuggets of Jesuit duplicity, damnable doctrines and diabolical designs. I can't wait to read his next release. Mr. Stuart has given enough legal and historical reasons for any truly patriotic statesman to call for the expulsion of the Jesuit Order from his country. May the Lord bless him for his groundbreaking work!" Eric Jon Phelps Author, Vatican Assassins The Eve 07/04/09, Dave Adams: "I found the book Codeword Barbelon absolutely amazing. Probably the one thing that amazed me most was the references to support the claims. I have heard the main emphasis many times over the years but have not seen any foundation to the claims outside of scripture except the old Vatican 666 ones. It gives the book so much more authenticity. The other thing that amazed me was how up to the minute it was. I cannot wait to get a hold of the second in the series. Please keep me posted." Mon, 04/09, J. Dupuis: "I hereby wish to express my sincere thanks to PD Stuart, who made such a marvellous effort in producing such good research. I am looking forward to the next book with great expectation." On Mon 06/04/09, G. Logan: "I found this book compelling. It was chock full of historical information as well as providing a glimpse into what the future holds. It goes a long way into explaining many of the things that are going on in this world at present. I find myself frequently thinking of the things I learned through reading the book and am watching the news in the light of what I now know. Thank you for publishing it!" Wedn 25/3/09 Mutumba, Africa: "Codeword Barbelon is a compelling book with irrefutable information. It is very educative and informative. I am looking forward to having Book 2. Thank you." Tue 10/03/09 From customer in Australia - "Victor K": "... what was good is that the author put it all together, in simple language, under appropriate headings. There is more to be revealed - much, much more. The Bible reveals what is in the truth.... people will have to make a choice. The wrong result will be devastating..." ~ 3.3.09- From customer in Australia - "I have just received the two copies I ordered of Codeword Barbelon. I am using them to share with others. It is such a fantastic book, the best I have ever read in helping to understand what is truly behind and driving this new world order and the evil we are experiencing. I love the historical backing that validates it. ... Many thanks for your service, God blessed Jennifer Feb 26 /09 Thanks for the book. I received it today in the mail. Can't wait to read book 2 to come out. Voico .. CUSTOMER REVIEWS FROM AMAZON.COM: cm_cr_dp_all_summary?ie=UTF8&showViewpoints=1&sortBy-bySubmissionDateDescending A very important work, Nov 6 2008 This eye-opener will keep you on the edge of your seat. The book is readable, authoritative, very well researched, and profound. The author really did his homework, presenting strong arguments supported by impeccable proof and illustrations. The authors seem to interact with the reader with his eloquent style. A very important work which clears up any mystery as to what's really going on. Every thinking person needs to read this book. Dec 14 2007 By T. Kofi (London, England) Finally a book that sheds light on the current and historical condition of this world. A well written, clear, powerful and concise delivery as to who the real power brokers are and why. The author asks plausible and powerful questions of the reader. You cannot help but ask yourself, "What if this were really true?" If you ever needed something to help connect the dots and complete the jigsaw as to who "rules" this planet and why? This is it. A book that has it all, if you want to start your research start here. cm_cr_dp_all_helpful?ie=UTF8&collid=&showViewpoints=1&collid=&sortBy-bySubmissionDateDescending FROM AMAZON.COM: A Must Read!, February 26, 2009 By Mark Manfredine "Shauna Manfredine" (USA) "Codeword Barbelon is a must read for every Christian. We all need to have our eyes opened about how the Jesuits have worked to change religions from the inside out. This book is extremely compelling and heavily documented proving each amazing point thoroughly. The book shows how the Jesus order had been secretly working to bring the Vatican into global power,... it documents its charges so thoroughly that no honest soul can pass it off as merely a conspiracy theory. I was amazed and would highly recommend it." By L.J. Kum Yuan "DigThatBook" (Queensland, Australia) "This book is a well written, thoroughly documented case of the movements and plans of an organisation that is unpardonable, cunning, deceptive, destructive. The average citizen finds it almost incomprehensible that such a company exists - but FACT IS STRANGER THAN FICTION. ... Indeed Ignorance is not bliss Wake up, prepare ..., value your life and liberty. I couldn't recommend this book more. I look forward to Book 2" FROM AMAZON.CO.UK: cm_cr_dp_all_summary?ie=UTF8&showViewpoints=1&sortBy-bySubmissionDateDescending 26 Feb 2009 - By D. Robinson (UK) "The book is superbly written and hard to put down once you start reading it! Considering what it contains and reveals, you will admire the author for the boldness in getting it published! The author constantly tries to avoid the hype and supposition of many of the conspiracy theorists out there, by quoting from a considerable amount of current and historical source material/documents. He then lets you make up your own mind about the implications of the EVIDENCE, which appears obvious, before giving his conclusions. "Fascinating and quite terrifying at the same time..." this NON-fiction book will awaken you to who's really who, in the corridors (and back alleysways) of power. It will unnervse most readers; it is likely to offend some and probably will infuriate a small select group of the so called elite!! Highly recommend this one. Don't walk ahead with your eyes closed, get a copy and have a read for yourself. I'm looking forward to the second volume..."
