## Inti blackboard login guide

Blackboard is an online learning management system [LMS] that is designed to support classroom teaching and fully online courses. It has various tools that support and enriches your learning experience by introducing avenues for discussion, journal writing, blogging and other interactive modes of communicating between the student and lecturer. Explore this exciting medium that brings you access to your classroom from wherever you are! Kultura Media provides students with options to create video content in a variety of Blackboard tools such as the discussion board, blogs, journals, and other tools. With Kultura Media students may upload files, and create webcam recordings, or screen captures in their online courses. The Kultura Media tool is a video platform that lets you upload original or create new media through the content editor in online course assignments. You may also access Kultura Media through the MyMedia module on the MyBlackboard menu where you may create and manage your media. Topics at a Glance Back to the Top Accessing Kultura Media There are many ways to access Kultura within your Blackboard courses, but you can always view the video content associated with your account by clicking the My Media link located at the bottom of the course listing page when you log in to Blackboard. No Description The My Media page serves as a private video gallery where you may upload, record, and manage your media content. Check out the diagram below for more information about what you can do on the My Media page. My Media Options Sort, filter, view, or search for media using tags. Select one or more files to publish. ADD NEW: Access Media Upload, Webcam Recording, Video Presentation, and Screen Recording options. ACTION: Publish or delete media from the course. Edit, select a thumbnail, create a clip, trim video, upload and manage captions, publish media items, or disable comments. Delete media from the server. Select to see where your media is published. To view, the media click the image or link. Back to the Top Adding multimedia content to your course The Kultura Mashup tool allows you to add a video to your course anywhere that you can type. That means you can add a video to discussion board posts, assignment submissions, messages, or anywhere else you have access to the content editor. To add a video through the content editor, just click the Mashup button and select Kultura Media from the menu. No Description This will open a pop-up window where you can browse through the My Media or media content associated with your account or add new media. Back to the Top Creating multimedia content using Kultura Capture Space Kultura offers a built-in, free solution for creating video content in your Blackboard course with Kultura Capture, available through the Add New button in the My Media gallery. No Description Kultura Capture is a compact, easy-to-use desktop recording tool that you can use to capture video from your webcam, create screencasts of your desktop, or record audio from your microphone. To get started using the desktop recorder, you'll need to install it on your computer — just follow the on-screen prompts that appear when you select Capture Space from the Add New menu for the first time. Note that you only have to install the Kultura Capture desktop recorder tool on your computer once, but if you plan to use the program on multiple computers, you'll have to install it on each. Once installed, you'll be prompted by your browser to launch the program each time you select the Kultura Capture option from the Add New menu. Click to launch and the Kultura Capture Recorder will open on your desktop. Learn more: Record from your webcam, Create a screen recording, Record only your voice Back to the Top Uploading pre-recorded media Though Kultura offers a number of free solutions for recording multimedia inside your course, you can still upload media you've recorded on your own. If you've made a video or audio recording using something outside of Kautra — like the video recorder on your smartphone or screen capture software installed on your computer — you can upload the resulting file by selecting the Media Upload option from the Add New menu in the My Media Gallery. No Description Before uploading, you'll need to make sure the file is in one of the following approved formats. Media File Formats: Mpeg-4 and QuickTime Formats (MP4, MOV, QT, and M4V), Flash Video (FLV and F4V), Microsoft Windows Formats (AVI, ASF, WMV, and WMA), MPEG-1/2 (MPG, M1V, M2V, MP3), WAV, Matroska (MKV), OGG OGM & OGV, WEBM, 3GP, RM, Webex (ARF), MXF Back to the Top Back to the Top MyNC is used by applicants, students, staff and faculty to access important information. Login to MyNC Set my password | Reset my password Current Students: If you have paid your fees you can use the MyNC system to select your timetables and choose electives. Applicants: Have you received an Offer of Admission to Niagara College? Log in to track the status of your Niagara College program choices and transcripts received. Staff & Faculty: Use MyNC to update your contact information, request vacation days, access apps, and view other employment related information. New user? You must set your password before you can log in.
