

DOBSON MARINE CHANDLERY

EXTREME TRAIERS

TRAILER RANGE

All Extreme Trailers are designed, manufactured and built in Great Britain to ensure the highest of quality.

Our boat trailers are 'hot dipped' galvanised to BS EN ISO 1461 standard, and use U-bolt construction allowing each boat trailer to be fully adjustable to suit most boat hulls.

We only use high quality parts including AL-KO axles, Dutton Lanson winches and our own in house made Wobble Rollers. We use waterproof sealed bearings throughout our trailer range.

All Extreme Trailers come with a light board, winch* and certificate of conformity as standard.

*excluding the EXT300

LAUNCHER

Light weight and easy to use, perfect for launch and recovery by hand.

LAUNCHER 2

Suitable for small dinghies up to 13' or 4m in length.

It has two keel rollers and four adjustable side rollers, making launching and recovery a breeze.

The large 14" sand hopper puncture proof tyres allow you to manoeuvre the trolley over sand and gravel.

It can be reduced in size for easy storage.

Please note this trolley is not suitable for road use.

Overall Max Length: 2800mm

Overall Min Length: 1700mm

Overall Width: 1350mm

Carrying capacity: 240kg

LAUNCHER 3

Suitable for small dinghies up to 15' or 4.60m in length.

It has two keel rollers, with the rear being height adjustable and two adjustable side rollers, making launching and recovery a breeze.

It has an adjustable height snubber at the front, allowing it to fit different types of boats

The large 14" sand hopper puncture proof tyres and jockey wheel allow you to manoeuvre the trolley over sand and gravel.

Please note this trolley is not suitable for road use.

Overall Max Length: 3000mm

Overall Min Width: 1350mm

Carrying capacity: 250kg
