13 ECDIS FMD-3100 FMD-3200/3300 CBT: USER MANUAL 2 1 STARTING UP The application is packaged in the DVD/USB flash drive. It would contain a folder with a setup file for the application. In case the application does not run automatically, the user must run the setup by double clicking on it. Fig. 1. Running the application This will initiate the installation process for the application. The process would include running a background check of the availability of flash player and the .NET framework. If these are not available on the system, the installation process would also include initiating the installation of the same. Once the pre-requisites for running the application are confirmed, the application will be launched. The screen which comes up as the application launches is shown below. This is the login screen. ECDIS FMD-3100 FMD-3200/3300 CBT: USER MANUAL 3 Fig. 2. Login Screen The user must click on the help button provided on the top right corner. This will open the user manual for reference. Minimize and close buttons have their usual purpose. The user can enter the login details; a valid user id and password, if these have already been created. In case, the user has logged in for the first time, he/she needs to register himself/herself and create the user id and password. To register, the user needs to click on Create new user. 1.1 NEW USER The user clicks on Create new user. The following screen with Personal Details Form comes up. The user needs to fill the details as necessary and click on Submit to register. Since all the fields are mandatory, the user needs to fill every detail. Help button Close button Minimize button ECDIS FMD-3100 FMD-3200/3300 CBT: USER MANUAL 4 Fig. 3. Personal Details Form After entering the details in the form, the user must click on Submit. If all the details have been entered, the user will be created successfully by the application, after accepting the license agreement terms. Consequently, a message will be displayed, as shown below. Fig. 4. Message box: Successful user creation The user must click on OK. This will direct the user to the login page of the application, where the recently created User ID and password will be used to login. 1.2 USER LOGIN The login screen which comes up is shown below. The user must enter the ID and password details to login. ECDIS FMD-3100 FMD-3200/3300 CBT: USER MANUAL 5 Fig. 5. Login screen After entering the details, the user must click on Login. With this, the user is ready to take the training ECDIS FMD-3100 FMD-3200/3300 and start reading the tutorials. 1.3 ECDIS FMD 3100 FMD 3200/3300 CBT Once the user has login the application, he/she can proceed with the tutorials. In order to aid sequential learning, the user is required to go through every tutorial completely, at least the first time. Once the user has gone through a tutorial till the end and has clicked on Close button, the next tutorial will be unlocked. For every section/tutorial that has been unlocked, there appears a green indication adjacent to the same. ECDIS FMD-3100 FMD-3200/3300 CBT: USER MANUAL 6 Fig. 6. Tutorial The text box is movable and can be minimized too. The text box can be moved by clicking and dragging it to the desired location. To minimize the text box, the user can click on the minimize button provided on the top right corner of the text box. The minimized text box is shown in the image below. Fig. 7. Tutorial Minimized Textbox The text box can be restored by clicking on Restore Up button located on the top right corner of the minimized text box. Restore Up button ECDIS FMD-3100 FMD-3200/3300 CBT: USER MANUAL 7 2 UNDERSTANDING THE USER INTERFACE The ECDIS FMD-3100 FMD-3200/3300 CBT interface presents the tutorials in the form of a tree structure on the left hand side. In case of lower resolution, the tree structure will be dock-able. The tree structure will be then available on mouse hover on left side. 2.1 TUTORIAL A tutorial can be played by clicking on the corresponding name in the tree structure. Fig. 8. Home Screen The user can see the tree structure of the contents of training, including the groups; with each group containing a number of chapters, each chapter containing a number of sections and each section having various contents. Each content is a topic, corresponding to which there is a tutorial which can be played by the user. When the tutorial is being played, the user sees a text box, which contains a textual description regarding the tutorial. Also, in order to navigate through the tutorial, certain buttons are provided. The controls available are as follows: Play button: This button is used to play the current animation. Replay button: This button is used to replay the tutorial from start. Previous button: This button is used to go to the previous animation in the tutorial. Next button: This button is used to go to the next animation in the tutorial. Close button: This button is available only when the user reaches at the end of the tutorial. It is used to close the tutorial and consequently unlock the next tutorial. Minimize button: This button is used to minimize the text box. Previous button Replay button Next button Play button Minimize button Tree Structure: Group/ Chapter/Section/ Content EXIT button Pause button ECDIS FMD-3100 FMD-3200/3300 CBT: USER MANUAL 8 2.2 HELP To aid the training course, the user has been provided with the Help button. This button is available on the top right corner of the application and is being denoted by a question mark - ? (Refer image below). The user can click on this button at any time of the training. Fig. 9. Help Button Clicking on this button will present the screen as shown below. Besides the user manual, there are other documents which are available during the training. Fig. 10. Help available Help button ECDIS FMD-3100 FMD-3200/3300 CBT: USER MANUAL 9 Clicking on Documents available during training will open another window, as shown below. This is the list of documents available. To open a document, the user must click on the same. Fig. 11. Help: List of documents available during training To open the user manual for the training application, the user must click on ECDIS FMD-3100 FMD-3200/3300 CBT User Manual. Close and Back buttons are provided on the windows to close and go back to the previous screen, respectively. 2.3 MULTIPLE CHOICE TEST In order to complete the training, the user needs to answer the questions in the MCT correctly. MCT will be available once the user has completed all
