

Annual General Meeting 2021 - Ratification of Committee Members

The following members have agreed to stand as Committee Members – from April 2021 to April 2022. Until the appropriate government restrictions have been lifted their role will be mainly carried out by email “conversation”.

The following protocol was agreed:

- The main form of communication between committee members will be by email – if there is a major event requiring and resulting in differing views a thread (open ongoing email conversation showing historical content) will be opened for a set period of time where opinions and discussion can take place. At the end of the allotted period a binary (fore/against) vote will be called for and if there is no clear cut decision (abstentions, nil returns, close vote) The Chairman will make the final decision.
- Emails to the whole membership containing information and/or linking to relevant pages on the website (<https://www.salisburyroadallotments.co.uk/>) and the site notice board will be the main means of communication between the committee and the membership.
- There are 3 members without email access – they will be sent, by letter, the paperwork pertaining to the “AGM” and an invite to forward possible emails for future correspondence or alternatively see the notice board regarding important updates.
