COVID 19 INFORMATION

Please note that regulations are set to change on the 19th July 2021. If the regulations do not change then we will need to adhere to the following:

- It is paramount that your stall is set up with social distancing in mind. Any stalls that are not set up accordingly will be asked to be rearranged. We all must adapt at this time for us to continuing operating safely.
- Masks or visors and gloves must be worn in all buildings. Unless regulations change on the 19th July, Indoor traders are advised to wear visors as they protect you and are much more comfortable to work in all day. We will have a stock of masks and gloves for those that need them, and these are free of charge.
- Indoor stalls will be positioned at least 2ft apart. Traders must respect this space. Anyone filling this space will be asked to rearrange their stall. We have half the number of indoor traders to allow for this.
- Indoor will have a one-way system in place. There will be fencing in the centre of the building to denote not to cross. Traders will be asked to not set up within this space. There will be one way in and one way out. Fire exits will be open but taped to stop people entering through this door.
- Sanitising stations will be positioned all around the showground.
- The handling of items should be discouraged unless the person plans on purchasing it. It is the responsibility of the traders to sanitise any items that have been handled.
- Catering will have outdoor seating only available in the day.
