

# GROUNDTEX™

GEO FABRIC THAT WORKS

A good 'all round' or multi-purpose geo fabric that can be used for weed suppression and ground stabilisation in both soft and hard landscaping schemes. GROUNDTEX is a tough woven fabric which successfully meets the requirements for use above ground as a heavy duty weed barrier.

Due to its excellent strength and tear resistance, GROUNDTEX can also be used below ground as a stabilising and separating geotextile in groundwork and civil engineering applications. GROUNDTEX can be used beneath type 1 aggregate, sharp/angular stone and gravel including areas subject to pedestrian or vehicular traffic.

## INSTALLATION GUIDELINES

(for use as a heavy duty weed control membrane)

1. Prepare the area where the fabric is to be laid by strimming any existing vegetation down to ground level.
2. Remove any stalks or sharp objects that could pierce the fabric.
3. For areas badly affected by weed growth, apply a suitable weedkiller.
4. Lay the GROUNDTEX fabric out and ensure joints are overlapped by a minimum of 100mm.
5. Secure using EXTRAFIX fixing pegs. The best way to secure the edges of the fabric is by 'spitting' or 'trenching' the fabric 100-150mm into the soil.
6. Cover the fabric with a layer of bark or other mulch or decorative stone/aggregates by a minimum of 50mm.

## NOTES

1. GROUNDTEX is a woven fabric designed to suppress weeds, but does not eliminate the need for surface weeding as a result of seeds dropped by birds etc growing in the surface covering.
2. GROUNDTEX will suppress most weeds but particular attention should be paid to very invasive weeds/grasses such as Mare's Tail, Bindweed, Crocosmia, Ground Elder, Couch Grass, nettles, brambles and some bulbs. A weedkiller should be applied first and then we would recommend laying a double layer of GROUNDTEX or a double layer of the surface covering (e.g. min 100mm of bark) or both for severe areas.

## PRODUCT SIZES

CODE	PRODUCT	WIDTH	LENGTH	AREA
GWFO	Mini Roll - Narrow width, ideal for paths	1.0m	15m	15m <sup>2</sup>
GWFO2	Mini Pack - Wider width, ideal for patios	2.0m	10m	20m <sup>2</sup>
GWFF1	Midi Rolls - For medium size projects	1.0m	50m	50m <sup>2</sup>
GWFF05		1.5m	50m	75m <sup>2</sup>
GWFF22		2.0m	25m	50m <sup>2</sup>
GWFF2		2.0m	50m	100m <sup>2</sup>
GWFF10	Maxi Rolls - For larger size projects	1.0m	100m	100m <sup>2</sup>
GWFF20		2.0m	100m	200m <sup>2</sup>
GWFF45	Contractor Pack - Wide width, folded into packs for easy transport	4.5m	11m	50m <sup>2</sup>
GWFF450	Contractor Roll	4.5m	100m	450m <sup>2</sup>
