Conference

# Overview.

COVID-19 has changed the world as we know it. The impacts on governments, businesses and industries are continually evolving. The disruption caused across the world by the COVID-19 showed a clear business case of managing risk from an enterprise wide perspective. Hence, Kuwait 6th Enterprise Risk Management Conference will be organized on 6 -7 October 2021.

The Conference will focus on how to position ERM to add organizational value for the Oil sector in Kuwait in Post Covid era Addressing how ERM professionals can improve on the existing risk process.

Potential areas of focus may include:

- Transforming from qualitative to quantitative (quantifying risk exposures)
- Leveraging data analytics and metrics to support ongoing risk mentoring
- Cybersecurity & Information Security
- Business Continuity
- Long-term effects of pandemics
- Pandemic effects on people – Employees, families, society
- Shifting trends in the hydrocarbon market
- The effect of new environmental regulations on the oil industry
- Enterprise Risk Management Maturity Level vs Risk Culture
- Risk Management and Business Recovery
- Risks of Digitalization
- Trading Risks

## WHO SHOULD ATTEND

Managers, Senior Executives of:

- Enterprise Risk Management
- Risk Management
- Strategic / Corporate Planning
- Compliance
- Internal Audit
- Internal Control
- Corporate Strategy
- Business Continuity
- Information Technology
- CyberSecurity
