Application for conversion of a foreign ICAO licence issued by a third country (non EASA member state) to a Part-FCL Private Pilot Licence PPL(A) according to Commission Regulation (EU) No 2020/723.

Attachments (Please attach, if not specified differently, copies of the listed documents to the application)

- Pilot logbook
- Foreign medical certificate
- Application form (form 096) and confirmation of the language proficiency (english)
- · Certificate of the theoretical knowledge examination
- Medical certificate (Licencing authority: Austria)

- Foreign licence
- Radiotelephony licence / Acceptance of radiotelephony licence
- If applicable: Residential registration form
- · Passport or identity card
- If the practical skill test was conducted by an examiner of a different member state: Copy of the examiner's licence

r				
	SECTION 2 (CONTIN	UED)		
с	Climbing i. best rate of climb ii. climbing turns iii. levelling off			
d	Medium (30° bank) turns			
е	Steep (45° bank) turns (incl. recognition and recovery from a spira	l dive)		
f	Flight at critically low air speed with and without flaps			
g	Stalling i. clean stall and recover with power ii. approach to stall descending turn with bank angle 20°, approach config iii. approach to stall in landing configuration	guration		
h	Descending i. with and without power ii. descending turns (steep gliding turns) iii. levelling off			
SEC	CTION 3 - EN-ROUTE PROCEDURES		1 st attempt	2 nd attempt
а	Flight plan, dead reckoning and map reading			
b	Maintenance of altitude, heading and speed			
с	Orientation, timing and revision of ETAs and log keeping			
d	Diversion to alternate aerodrome (planning and implementation)			
е	Use of radio navigation aids			
f	Basic instrument flying check (180° turn in simulated IMC)			
g	Flight management (checks, fuel systems and carburetor icing, etc			
h	ATC compliance and R/T procedures			
SEC	CTION 4 - APPROACH AND LANDING PROCEDURES		1 st attempt	2 nd attempt
а	Aerodrome arrival procedures			
b	 Precision landing (short field landing), crosswind, if suitable conditions available 	aerodrome		
с	* Flapless landing aerodrome			
d	* Approach to landing with idle power (SE only)	aerodrome		
е	Touch and go	aerodrome		
f	Go-around from low height	aerodrome		
g	ATC compliance and R/T procedures			
h	Actions after flight			

Application for conversion of a foreign ICAO licence issued by a third country (non EASA member state) to a Part-FCL Private Pilot Licence PPL(A) according to Commission Regulation (EU) No 2020/723.

Application for conversion of a foreign ICAO licence issued by a third country (non EASA member state) to a Part-FCL Private Pilot Licence PPL(A) according to Commission Regulation (EU) No 2020/723.

11 Guidelines for the conduct of the skill test

CONTENT OF THE SKILL TEST

- (a) The route to be flown for the navigation test should be chosen by the FE. The route may end at the aerodrome of departure or at another aerodrome. The applicant should be responsible for the flight planning and should ensure that all equipment and documentation for the execution of the flight are on board. The navigation section of the test should have a duration that allows the pilot to demonstrate his/her ability to complete a route with at least three identified waypoints and may, as agreed between the applicant and FE, be flown as a separate test.
- (b) An applicant should indicate to the FE the checks and duties carried out, including the identification of radio facilities. Checks should be completed in accordance with the authorized checklist for the aeroplane on which the test is being taken. During pre-flight preparation for the test the applicant should be required to determine power settings and speeds. Performance data for take-off, approach and landing should be calculated by the applicant in compliance with the operations manual or flight manual for the aeroplane used.

FLIGHT TEST TOLERANCE

- (c) The applicant should demonstrate the ability to:
 - (1) operate the aeroplane within its limitations;
 - (2) complete all maneuvers with smoothness and accuracy;
 - (3) exercise good judgment and airmanship;
 - (4) apply aeronautical knowledge;
 - (5) maintain control of the aeroplane at all times in such a manner that the successful outcome of a procedure or maneuver is never seriously in doubt.
- (d) The following limits are for general guidance. The FE should make allowance for turbulent conditions and the handling qualities and performance of the aeroplane used:

(1)	Height (i) normal flight	± 150 ft
	(ii) with simulated engine failure	± 200 ft (if ME aeroplane is used)
(2)	Heading or tracking of radio aids	
	(i) normal flight	± 10°
	(ii) with simulated engine failure	± 15° (if ME aeroplane is used)
(3)	Speed	
	(i) take-off and approach	+ 15 / - 5 knots
	(ii) all other flight regimes	± 15 knots
