

Life's Genetic Entanglements Trading Room 1 FAQ | updated

15th Aug 2023

Decoding Life is Founded | on spiritual & supernatural transparency for the purpose of exposing the root of DNA lies & evil covenants that the trichotomy has traded into, knowingly or unknowingly. Know that “All” trades are binding across generations. Our teams use what we call Language between Worlds. In short this is about translation of different levels of terminology that bridges information into revelation and over time creates transformation with completely extraordinary levels of wisdom. {Glossary 3-Chair's}

You will find parts of our conversations are BIG! Inside our workshops as a group, we travel through realms & dimensions, sharing our founders vast experience & blended resources that she has brought together in the cluster groups. So hold on! Be kind to yourself. Respect others as they progress at their own pace. Take care of your tongue! Be assured your individual health & wellbeing is our priority. {Glossary RLS}

Don't rush the process as it is not a race, move at your own pace. We will meet you where you are at. We strongly suggest that you complete all 7-Trading Rooms, before making your final assessment of our content. We walk with anyone from beginners to advanced, healing & teaching across the great divide & depths of genealogy, life & lifestyle issues.

This is done by talking through the entry points to current life's soul trauma. The human trichotomy has an unseen enemy and that enemy is what we understand, see and break people free from, areas of bondage never consider real or relevant to daily life struggles.

The medical profession do not look nor understand these aspects to life. These are common topics to our coaching team & what we share is backed by years of R&D, all designed to help facilitate a renewing of the mind, in many unthinkable ugly areas that life can be trapped into.

All Cluster Groups | During each workshop you will be asked to note down future references {track & trace} topics that are more relevant to cluster groups in other workshop levels. We do this to stay focused and what we ask is important to your results. Our track & trace is a process that keeps important content fresh.

You will start with Trading Room 1, Life's Genetics, Clusters 1-9. Here we move very fast, which is why the 8am-Rollercoaster/Orientation time helps you to feel like you are in control!

When it come to tracking & tracing evidence, if you don't move topics forward then that information or thread maybe lost, so make sure you pay attention. {Know that our assistant coach's will be on hand to help during these moments as extra support.} Please pay attention to detail when advised to move a topic to another Trading Room cluster topic.

We work this way because many topics are woven across generations, therefore we will take opportunities not to flip through other levels, but rather stay focused on the cluster group we are currently working through. When you are given a Coach's Revelation that needs to be recorded forward, {track & trace} to another workshop level, make sure you carry that information, clearly recording the purpose & context around that topic.

Think Like Us | Our coaching team needs you to think like you are prepping for your own Court Case {we often call this DIY Detective} inside each cluster group. The detective part is exacty that. Everything is about unveiling hidden intel across the generations to remove stubborn patterns & cycles that plague people. We will enter into serious conversations and we do this with a joyous approach. Together we get through what can feel like mountainous terrain.

Today you become your own DIY Detective. With the support of our coaching team, they will bring additional insights into problem solving. Understanding that the day is a problem solving expedition into the unseen & unknown! Our team is here to serve you! We are humbled that you have chosen to let us walk with you. Because of the complexity of man, know each workshop builds on the previous foundation presented to you & the results at the end of Trading Rooms-7 will be life long, tangible assets for your DNA.

It's important that you are open for deep conversations, and to be willing to research anything that is asked from our Coach & Assistant Coach. For some, you will be heading into uncharted territory, while for others, will either hold levels of understanding, or you will be on track with our language. No matter where you are at, our team meets each person where they are at, so nothing & no one is left behind.

As I close out on this part, I personally want to express my gratitude as you journey through each event with us. Our history is strong in content in what we deliver, our enthusiasm for your breakthrough is real. Are you ready to experience measures of breakthrough that Life's Genetics Trading Room will release. No matter your reasons for attending, know that each of our team members have been in similar places, including myself. Individually we have our own story of life's bondages & new stories of miracles & breakthrough. It is here inside our workshops we walk out many life's entanglements together.

Welcome to Trading Room 1

Glossary | Life's Genetic Entanglements | Trading Room #1

3-Chairs | A demonstration to the foundation of the trichotomy healing. Here we go deep into demonstration of how this applies to healing on all levels of issues, health, relationships, past, present and future. We deal a lot in this part regarding ancestral issues that binds people unknowingly into patterns & cycles of life & lifestyles.

Each chair has a definite Language between World's that we take advantage of to demonstrate our terminology based upon our research since 2013. It is through our 3-Chairs we have witnessed healings because of deep valuable conversations.

Language between World's | Is our way of breaking down & demonstrating 3-chairs of terminology. We take evidence from all three positions and present evidence through demonstration & discussion.

Tracking & Tracing of Evidence | We share our style of evidence track & trace for a very important reason. The transferring of that information & record in a manner that when you read back over your notes you know what it means. Because our Coaching team does not hold this content on your behalf.

Content Pace | Within each workshop we move very fast with core content, that is why we have the 8am-Rollercoaster that are the opening for each Trading Room 1-6 with Trading Room 7 structure slightly different. These 2-hour sessions are designed to prep foundation so you can get the most out of the days content.

Trading Rooms 2-7 FAQ | We present an FAQ/Glossary for each Trading Room 1-7 listed here on our web site.

- We are a service, not a product.
- All handout & event information are given at our 8am-Rollercoaster.
- Glossary listed below; please bring your questions to this 8am-Rollercoaster
- Being a no-show to our 8am-Rollercoaster results in no admittance to the main event.
- We offer no rain-checks or refunds to any of our events.

Altars | History through our R&D has shown bloodline altars can date back 70 generations or even 250 generations. This is one part of timeline evidence that will surprise you on how they are entangled & are key blocks to daily life results.

Territory of Trades | Can represent a number of things:

- 1| Territory of the soul {3-parts} with 15-layers or components.
- 2| Territory of physical body & organs.
- 3| Territory of land, buildings, environments, governments etc.
- 4| Business, education, trades & other life & lifestyle trades.
- 5| Trades are buying or selling, trade & exchange of items, objects, financial, time, timeline records, gifts given or received, items in the home, items inherited are a big conversation.

Timeline | Here in class we demonstrate two threads that are in reference to the creation of timelines. An in house demonstration will bring this together. Please understand that learning this content is hugely important to heal many of life's daily issues. Many times this is about little niggly issues that pop up and then get out of control & start to create unjustified bigger problems. Knowing what this looks like inside a family brings balance to people without any contact, conversation. A powerful hidden tool for anyone, can also work in the workplace & amongst friendships.

Cluster Categories | 35 cluster topics, divided between seven Trading Rooms. Broken into three track & trace approaches.

#1 | Historical {From Previous Workshop & based around R&D & backed by Real Life Stories}

#2 | Coach's Revelations is content that is given by the Coach who is the main workshop presenter for that day's event. This is the place on your Trading Room work sheets that you will record their revelations that are specific to you.

#3 | Personal Revelation {On the work sheets there is a space for your own content. Again you will have a lot of Personal Revelation never considered to be a root or an anchor that needs to be revealed to release FREEDOM.

All will make sense once you receive the 7-Trading Rooms work sheets that are handed out during the 8am-Rollercoaster meeting.

Trichotomy | Reference to the 3-parts

Part 1 | Physical {Body, Organs, Blood}

Part 2 | Soul, {Mind, Will, Emotions}

Part 3 | Spirit {spirit of man or spirit-world} active in your life.

In total there are 15-moving parts in the Trichotomy that influence Bloodline Bondage & DNA Curses linked to spiritual gateways across the 3-parts above {part1-3}. The complexity of the trichotomy is easy once your approach has been renewed. Healing stagnant issues or deeply wounded relationship issues do get exposed through this demonstration & across our workshop tools. Each are non confrontational and a way to start the healing of anything that is broken.

DNA | Ancestors across all time, dimension, space, reality & bloodline bondages & DNA Curses for the human soul never dies. We discuss & examine content that is held/stored/recorded in certain frequencies held against you, across timelines, known & unknown, hindering life, health and wellbeing at all levels of life & lifestyles.

Many of you will be shocked at how the complexity across the matrix of bloodlines, timelines, where the trades are rooted into repeating patterns, cycles, sickness, disease, poverty, and more.

Soul Tapestry Q&A | 8am-Rollercoaster you will receive this handout. This resource you will add into your material and it is something that you will reference to many times across the 7-Trading Rooms inside each workshop. We have used these handouts for many years, they contain diagrams to help with the initial decoding of the human soul tapestry. In essence they look like matrix of man!

Trichotomy & 3-Chairs | From the 3-Chair position no matter your seat, this is how we have been able to travel through sections of society with open dialogue because we personally have been seated in each chair. For us our results to date see that this has been the best way to express terminology.

Terminology of how the soul is caught in captivity (unseen in parts) or soul trauma (physical in parts) & how things look when trapped into our expansive universe {matrix or tapestries across bloodline timelines of a matrix of generations}.

This is also our way of not missing any people group out. Inter-soul trauma through sexual relationship is a very key topic in this category of trichotomy healing. Topics that harbour many issues including hidden altars & soul parts hosted on altars unknown to most. For us when viewing from the spirit-world or the spirit of man, know that the positions are two very different trajectories. It is

those trajectories that will become obvious to you as you walk through our content at each Trading Room event.

Our RLS are a cross section from many ethnic groups, addressing topics like colonialism, marxism, topics of SRA from morals & dogma, ancient scottish rite of freemasonry ancestral dedications & altars. These can take us into revelations about genetics from past trades into spiritual books & altars erected in a person's name within the spirit-world & the spirit of a person {trichotomy} because of unknown or sometimes known. Each trade is significant to the soul trauma that many of us are oblivious about. For your trichotomy is linked in such ways that shakes you to the core & sets you free all in the same breath! {Trading Room 4 hosts many hidden keys within this topic}

Trichotomy Voices | Soul voice or invisible voices! This content will assist anyone needing to know how to heal the soul, the physical, & to shut the voices in the heads that are turning people towards mental illness & early death, suicidal thoughts and emotional torture. Once understood, anyone can approach healing from a more informed position. Know that not all sounds as simple as we present & each case has its own complexities, but bring your scenario and let's see what is hidden in parts, known in part & revealed in parts!

Track & Trace | Is a simple way to express how we link content across the 7-Trading Rooms, 32 clusters & over 500 descriptions, situations & timelines, past, present and future, connected to Self, Others & DNA. Some topics will be woven deeply into parts of the soul tapestry, linked to many genetic timelines & lay-lines. This is called bloodline bondage & is something no one can escape. Here we talk about how a new born can be born with Bloodline Bondages & DNA Curses. From here these revelations bring about DNA corrections that can be made before experience shows up in life.

Coach's Revelation | Inside our events we need you to cross-reference group conversations & bring them into your own personal situations. Example inside conversations one topic may feel like a short Text message but for others it may feel like ...

- a book,
- some the conversation will feel like an index to a directory,

- others, could be more of a full document, even to the content of feeling like a legal document that you have lost through the courts on earth
- while others may sit back and in the last moments of the conversation they will feel as if they have just reviewed a message the size of an old fashioned post card.
- Please pay attention with all conversations.
- What we say is never dismissed what is important or relevant to you! & remember that the most insignificant can sometimes be the most significant.
- Here it is your choice to record or not, take action or not, we can't tell you this is your part & only you will know!
- What we have found is that the smallest piece of evidence can be a major key to breakthrough.
- What we also suggest is do not "nit-pick" through the information, it's just as important not to go down a rabbit-hole, trying to make something fit!
- Understand this glossary is a heads up on topics, it is once inside our workshops deeper revelation comes in many forms, through conversation, demonstration or an inner knowing, a word of knowledge that you hear inside your own physical body.
- Anyone can choose to receive the expansion of our RLS through testimonies, statements & evidence we present. By choice we share, by choice you hear!
- Some may push your understandings, don't let anything block your mind.

Angelic Host of Heaven I | By experience both personal & professional, Angeles came up. Honestly New Age teachings confused me a lot & on reflection nothing matched what I was seeing & many times what people were quoting. It took me 7-years to truly have encounters that gave definition to angelic host of heaven both 2nd & 3rd heaven. Event 7, in session 3 is where we go deeper in regards to Heavens angelic Host.

Here in this glossary you will find words like thrones, principalities, & ancient beings. They are both in relationship to 2nd & 3rd Heaven as well as 1st Heaven {earth}. Clarity around the angelic world is critical to understand bloodline bondages & DNA curses & more relevant to the correction that one is looking for, knowing the many statements around guardian angels is one that I am still piecing together but again worthy of a conversation.

Hell | A place that the souls of men, women, family groups are locked into. When the hope of divine love is denied and over looked by many as not important - Another 3-Chair discussion.

Here we discuss & take away discord & myth with real life stories & evidence. The Real Life Stories will wake you up. Be warned that this information is more than tangibly backed with the evidence we share.

Here our experience from Soul Rescue Medium, The After Life & through experiencing “Minsitry of Reconciliation”, we walk you through how they all play a part in eternity. Its up to you to be open for this conversation & remember this is not an *argument or a debate, we speak of meaningful evidence & demonstrate by expieirnece, backed with RLS.* {Note eviction card below pertains to these typs of conversation we walk through togetehr across the *7-Trading Rooms*}

Courts | Heavens Court & Hells Court are supernatural places that humanities trade records are contested & defended. Know that these records do produce daily life changing results. There are may positive results to come from this level of work. Bloodline Bondages are recorded against each person, and that is why it is important for you to know both sides of the supernatural record keeping, linked to your spiritual & eternal supernatural life ahead of you!

Ledgers | Books of Rememebrence & Akashic Records are keys & keepers of your secrets. Both get exposed during the workshop. This one topic is in the top three of need to know for seeing, healing and to manifest into the physical.

Habeas Corpus | When this legal term came up for me as an audible word in truth I had no clue what it meant! What I discovered over the corse of time going into the Courts of Heaven, I saw into both Hells Court & Heavens. So my question is who told me the term habeas corpus and why or what situation was I about to walk into as I placed my hand on a door handle to a persons home; as my hand conectted to the door the term habeas corpus was like having someone standing next to me making a statment! A statement that I had no clue on how to pronounce nor knew what it meant.

Homework Resources | Inside our services we have many resources, two key healing decrees or statements that can sometimes take an entire day to work through is Trading Room 7 here you will be stepping into next level of soul trauma DNA healing.

Inside our homework online tools you will quickly learn that our intel is deeper than deep & that these moments do require conversations, they do include revelations with a few tissue moments, in truth. You have a choice to research more or not.

Trading Room 7 leads you into a deeper relationship with cosmic understanding, Heavenly understanding & Hell on earth undertaking against humanity. Starting with who are you in creation itself" & what are you called to do in the walk called life? What comes first timing or purpose?

Example of DIY Resources Post Event | One part of these resources fall under the acronym of U.G.L.Y. Dealing with The Good, The Bad & The Ugly that has been unknowingly documented & used against you & your DNA across timeline trades. A tapestry of "stuff" exposed, healed, restored.

DIY Detective | Inside both courts you need to know how to operate. In all our workshops we do not have time to go into the function of the courts, but we do have resources to which we will share across the 7-Trading Rooms. Slowly you will build basic foundation information.

Soul Seat Sharing | A demonstration on how when healing, fixing, addressing issue like depression, addictions, guilt, anxiety, suicide, mind issues, emotional issues (and more) & how strong knowing more about your trichotomy will change what you do in the physical to change the negative holds into re-positioning into a joyous position.

King Thrones | Entities that control minions & dark forces of the unseen realms. Many walk earth without constraints because people have no idea of their existence or know they are interacting with their physical life results. These entities hold a position over humanities life & lifestyle results through timelines. Yet once you know what we share you hold complete authority over these entities & what we share takes away fear attached to any topic in life.

Currently they have been running the earth & they have a specific way they communicate to control the lower levels that hinder all & everything on earth. They do not communicate through language! *{hollywood early deaths, overdose & other derailments fit into this conversation}*

F.E.A.R | Is not a “False Reality Feeling Real”. Fear is something more and it is here we demonstrate & share real life testimonies on how to remove fear. Including other topics like, anxiety & depression are some of the issues locked inside many of the Trading Room topics. Once you understand the Trading Room terminology you will not let fear take hold of you or anyone in your areas of influence. *{ What we share is made adaptable to everyday life}*

Removing Fear & Uncertainty | Fallen Powers, Principalities, demonic entities & all things that go bump in the night will be discussed at different stages & levels of our workshops. All will be backed with real life stories. Learning will take away physical arguments & destroy issues way before they get a chance to manifest. Here you learn how to change government mandates with out any protesting! Small numbers holding knowledge is powerful. Let those numbers grow in that knowledge then wisdom forms and impossible mountains move.

Mountains & Councils | These terminologies cross the big divided & hit daily life that is so hidden you will be speechless once you take off the blinders. Through Courts of Heaven & viewing Hell’s Court, we can say once you see something you cant un-see it! We will build on this information, over time and we will point you to some excellent outsourced resources that are essential at this level. We understand that not all will make sense until we arrive at *Trading Rooms 6 or 7*.

With each of the closing Q&A times of each event you will begin to understand what the non-physical means to EVERY man, women and child & to every man made “the, they’s, others, for those that class as a Rat, A Cat, A Mouse, A Donkey! *{please do not miss quote me or read into what you have not heard also reminder of the eviction card at our events do apply}*

No matter your identity language, our eternity language between World’s. We will rattle and shake you instantly into a bigger profound reality. Done not to

intimidate, nor to scare, our reasons are case based & encounter based. Because 2020 changed our world for every bloodline across the planet all nation & people groups.

Disclaimer | In reference to Mountains & Councils statement. If you can't receive this level of supernatural intelligence & come to disrupt our workshop, we will give you the eviction card without dialog. Our events are in a private group setting.

Free Will beings you and our Free Will holds no hesitation in "Evicting" you! To save embarrassment PLEASE read our T&C's. Be respectful & ask questions appropriately within the context of the Workshop you are attending.

Soul Parts | Is in relationship to parts of the soul that get held in captivity {in darkness}. A feeling where there seems to be no light & that no hope will come upon any situation, person or circumstance, past, present or future. These tools will help people who have others around them that can't get to the point of freedom.

Here we teach you how to step into a gap and make space for them, so they get a break and in that moment you can start to implement small parts of your own experiences of the cluster content & other information we share.

Breakthrough sometimes is best coming from within the family, not outside. For others it's friends who steps into the gap we are talking about. Either scenarios can produce powerful results. Inside our workshops we are building you up so you can confidently help others around you & support them until they are ready to work on themselves.

Evidence & Photo | You will be shown a photo of a bloodline bondage entity that was unknowingly caught on camera. This picture will be on display at the workshop. It is referred to as the "Idris Rd Photo". This material is evidence & we express to you that meaningful evidence is our foundation on what we share for the outcome to expose and heal bloodline bondages & DNA Curses through discernment.

Dragons, Dungeons, Chains, Shackles of Iron | Ancient of days exist in the spirit-world and they are very much co-existing with many on earth. Today we will discuss the veils of layers of who is allowed to see what & why?

Angels around the Throne of God | The Lion, The Eagle, The Ox, The Lamb. A beautiful discussion & depiction of how I came to engage at this level of encounter. We will share details on how wisdom came from this encounter and joined the dots over a ten year period of trying to understand who was talking to me why & how!

SRA Person Revelation | As the founder of Decoding Life it is my responsibility to give accurate knowledge of all the different levels of encounters & to discern accurately and to give meaningful evidence within the translation to others. For transparency the following are *Trading Room* topics that we hold experience in.

Levels of SRA | Satanic Ritual Abuse | {From Movies, Entertainment, Freemasonry}

Level of RAOTE | Ritual Abuse of the Elderly | {Mind Zombies}

Levels of MRA | Mandate Ritual Abuse | {Demonic Boardrooms}

MCRA | Media Corporate Ritual Abuse | {Druids}

Each of these four topics are more real in everyday life than I even wanted to acknowledge. In our 8am-Rollercoaster I step you through my own person soul entanglements specifically to SRA, also covered in many real life stories across all four topics.

As each topic {four above} came to revelation in my own personal life, as they moved off my trichotomy my life took massive change. This then started a change in my lifestyle, explaining so many issues across my life since childhood.

Prior to this I had absolutely no revelation, nor consideration or vocabulary on how to deal with such matters, I did not even acknowledge that these above four topics are linked into every day life for us all, 5-years ago (2018) to me they would not have even been considered as real “THINGS”.

Today for me; SRA is actually more damaging than cancer! Now in our orientation I will expand on this statement, so don't get angry with me right now! Come and listen ask questions do the work and join in our ongoing discussions across our 7-*Trading Rooms*.

RLS Blog | I have other basic resources published blogs & podcasts that host many real life stories, establishing evidence logs & physical log content {without context} and many references. Inside each of the 10 blogs are filled with countless case files & research content around bloodline issues.

This is also referred to as DNA bad-blood, that have been established through soul trades, across past generations hitting current generations as patterns or cycles. Until this 'bad-blood' has been addressed through the record keeping systems {books}, patterns & cycles will seem to be on rinse, repeat, reload, across family members & across generations. Sometimes jumping the gene line to confuse references to historical recollection.

Privacy in Testimony - RLS Coded | Referencing RLS {Real Life Stories / Testimonies} by number example #21. This is our inhouse reference is to keep the identity of a past case file private.
