

Life's Governance Trading Room 6 | FAQ updated 29th June 2023

Here I would like to think that you have done a lot of your own research into all things that have meaning to you across each workshop cluster content & other conversations that have taken place. I hope that many of the books & authors I have shared with you have inspired you to learn and look more deeply into the spiritual aspects of your trichotomy. I welcome your questions at our Q&A sessions, as they will bring us all to an epic close!

By now you would have had access to our extended resources classroom & workbooks. Please bring all your unanswered questions concerning that material, both DIY Detective or Discovery Hearing content & results you would like to discuss, including RLS.

Satanic Ritual Abuse is a real issue across our society. Now you have what we call Spiritual-armor that will assist with breaking bondages, patterns & cycles & levels of spiritual warfare for past, present & the next generation. From here your results will be worthy of conversation, now & into the future.

With each cluster in this workshop I have personally encountered many times. I am not shy about the road I have experienced & I am honoured to say Jesus walks with me & I walk with him. He leads me by still waters as I lay down in green pastures *{in the moments "when I let "go" & let God in! Allowing myself to rest}*. It is his military might that saved me and I am eternally grateful. For no one called me into HIS church but HIM!

Now! If you have pre read all the FAQ before attending any of our workshop, then my statements might make you feel uneasy! & I get it. Because this was exactly me in the beginning. Today it is 20th Aug 2023, after church today I did take one of those very long and overdue Sunday afternoon naps! It was when I woke that I realised why I am not so good at resting.

This was a pattern from my childhood, a family story that after I took the nap today, or allowed myself to rest today! that I identified a trauma that stopped me from resting! RLS#214. Now this had been with me since a child, today I am 62-year of age! Now that's a long time not to rest! My body was held-up in a historical event, that also created dysfunction inside my own family unit as a mother & as now an ex-wife. More to share inside our event is all I will say at this time. {Dream RLS#219, I will share}.

On this same Sunday I had another revelation as I drove into the city for Church. As I drove I was thinking about Covid & the segregation process & trauma through that process. This took me into a word of knowledge from Holy Spirit.

Here is what I heard -

- You have been released from the “National Archives” RLS#216
- I thought what!! does that mean Holy Spirit.
- Then I said what does that look like Holy Spirit?

The answer was more of a understanding about historical events in my life, across the 3-Chair's

[Atheist – Agnostic](#) | Historical trauma from parents actions attached to addiction. RLS#214

[New Age / Modernism / Power of Thought](#) | This is about Master Guides SRA, Trauma of Soul Parts & ownership trades in the spirit-world. RLS#215

[Faith Relationship](#) – Answers to your question through my revelation will be discussed in workshop 6.

Reference to : Prophetic Utterance RLS#216 & RLS#217. This prophetic utterance will never be published, in part here in Trading Room 6 I feel you will be ready for another level of knowledge about trichotomy inner-healing & deliverance, that the conversations I will hold regarding 3-chairs I have quoted above. This content will position your spirit-man for Trading Room 7 Q&A.

It is in Trading Room 6 that we direct you to our online resources that will be actioned in Trading Room #7. This material is your homework or Workshop 7 prep. Understand there are 3-sessions inside Trading Room 7. Registration for Trading Room 7 is made in person at event 6. All Q&A can be made at our Check-in desk at any workshop. You will not find any details about our last event, you physically need to work through all 6-events to arrive at a place of discernment to walk into Trading Room 7.

I close with this & hope that my words intrigue you rather than repulse or frighten you! For governance impacts all that live & it's within the realms & dimensions that the human trichotomy can become a victim through ignorance of that governance, as I have encountered both personally & professionally. I would be blessed to call any of you my brother or sister in Christ & with a Amen to the work you have done!

For it is not I that Lives!
But HE that Lives in me!

RLS #1,RLS#2, RLS#4,RLS#5, & RLS#76 were key case files that impacted my experiences. They & many other clients at that time brought me to find out who this Jesus dude was!

When I first came to Faith with Jesus back in 2018, I could not get my head around the conversations of calling others my brothers & sisters! Yet through the revelation of my comfort zone it did not take long for me to understand why I was blocking & what the relationship brought once I had a shift in my spirit. This was within many different discipleship moments over a few months building out within my first year as a Christian.

Understand you are here on earth for a reason, and knowing what that purpose is changes everything.

Welcome to Workshop Trading Room 6
Founder Karyn Cooksley

Glossary | Trading Rooms #6 | Life's Governance

Agreements | Here you may think this is only about jobs & careers. What you will find is that this is also about simple booking appointment & no shows to appointment. Remember the Hells Court & remember the Akashic Records that is what is at play here. RLS#213, Books of Rememberance held in Vatican Vault, covered in dust with an hour glass rotating patterns cycles.

This example is about false governance, this case took 2-years to expose the truth. In 2022 one religion started to call its money and all assets back into its vaults. This timeline around these lost books or loss of access to their books is tethered into the system that has called back its investments. For this person the vision was anchored into her physical life acting as a brickwall blocking lifestyle & career. You could even see her life was a living sacrifice.

Councils & Board Rooms | This will take on a completely different level of understanding. While this looks like governmental & business, there is more behind the scenes than I will say here. Think like this, when someone in government that you voted for does the unthinkable, and it cost's lives, they are accountable in the spirit world for all those lives in eternity. For both good & evil. I let your thought research my expression.

Think about medical but now go deeper & think about the science and pharmaceutical, now think about their boardroom members. Now think about school board's & local council meetings.

Understanding this in detail will give you a wonderful understanding of how to change mis-management, of the wrong doings. {know that there is a "but" that you need to also learn about}

Mountains in the Spirit World | Tell that mountain to move and it will! This is a watchful moment when you see things that have over

shadowed you or your bloodline in the past. When I first learnt about these inside the church it did not make sense until I experienced something magnificent in an encounter that moved a specific satanic mountain. These mountains also pertain to industry leaders that do bad things through monopoly & governance.

Over-reaching in Governance | I would call this double or tripple dipping. We have those that do and those that would never do this. Its a time for this to be addressed! {Done in humility only} understand this topic does not always come up at our events, when it does you will be taught on this topic.

GLSA | Global Luciferian Satanic Abuse, found in governance, boardrooms & other closed door corporations. Sitting ontop of their false Mountains of Manipulation. Know that it is our intent to build Supernatural Bodyguard {session2 Workshop 7} in all that want to understand & take a stand. Know that every human being has the capacity to remove from earth these systems of abuse, controle & other de-pop agendas. Unity with understanding, is the key for the mass exodus out of their evil power that they “DO” & have “sourced” through worshiping god’s for false power & money to influence their sold out agendas through satanic ideology. [Scientology in the spirit comes to mind as one very dangerous religion]

Relationship Power & Authority | It is by undertsanding your authority & power that makes spiritual-warfare not a gift but a tool. For your unique trichotomy gifts may be in food production, business logistics, governance, educations, medical, science, corporation, middle managment, sports or the arts. No matter your mission & strength in lifes calling/mission, its when you partner with heavens Angelic Host in a way that the 1st & 2nd Chair cant! That’s when you connect the missing dots to the puzzle called life. It’s then you walk in unity for ALL of humanity, to come agaisnt those that are culling-humanity.

By experience GLSA false power & authority is no match for what our events introduces you to, why? Simply because they deny Christ Jesus as the King of Kings & Lord of Lords. *{remember its oligarchs & billionaires of ancient ways that still walk the realms today & they are very much influencing today's results}*. Earth is Jesus's Kingdom, the God head gave man Free Will and it's your free will that will take you to the intersection of two pathways. {Remember my conversation of the tarot number 2's}

Here in our workshop we don't have the intent to only demonstrate Jesus we make room for him to deliver you personally from any earthly bondage known or unknown, seen or unseen, understood or not!. Why! because it's his gifts that are not for sale, it's his eternity that can't be brought! It is all about free will & choice through relationship. Jesus is the door, you enter through his bloodstained door {the cross} knowingly and life changes.

For those that rule the governance can't buy their way into eternity, many have already made a firm choice. They have stolen our identity along the way, now it's your turn to claim back and walk in victory. For no man can buy his authority & power for it is not for sale, it is only through "relationship", that relationship will help build your faith, you will start at 30% then progress to 60% & up to 100% faith.

For us we ignite you into that relationship, a relationship that you will feel! This will be a feeling of peace, it may take a bit to understand, but you will receive a knowing inside of your spirit-man that breaks open hope with brand new profound possibilities! Gifting you certainty, that will not let uncertainty consume you ever again.

Consulting Spirits | Consulting angels that are in charge of the wrong "BEADS". This does not always come up at our events, when it does you will be taught on this topic of false beads, with Q&A being a strong part of the discussion. Trading Room 7 inside session 3 we share insights into the real angels versus the wrong angels. RLS#211.

A Touchy Subject | AI is one topic we speak about from the unseen perspective, based on encountering rather than designing or functionality. Purpose of man & machine has become allusive, yet it's in our face right now, slightly veiled to create interegue!

One thing I like to say is that I was not born a coffee machines nor was I born a duck or a male. Here I no more want to create agression through my statements, than to desire to fly or walk on the moon. Why? It's becuae I can enter into the realms any time!

Instead I would like you to think about like this. If you can't handle my content inside our workshops or anything across any of the 6-FAQ then for certin you wont want to be changing the origin of the nature you where originaly made in. Becuae if you can't handle what I share then eternity is a long time to be fighting your earthly desissions. *{ie; those that sell you ideas have you considered their purpose or their handlers purpose by getting you to 'BUYE" in & follow them?}*

Why? Becuae if you have not encountered realms & dimenstions inside the spirit-world of past evil governence from this world, then for certin you wont handle the un-known of being part machine, when you give away your human autonomy, by being plugged or chipped into AI! & then be known as "hybrid" – have you wondered why so many things are branded as hybrid? Again by RLS I have meet 1-hybrid-non-human's that looked completly human but in the spirit-nope! This and other encounters are radical to say the least! RLS#179 inside Trading Room 4.

I can not stress this enough! giving away or up on your authenticity as a human being is unretrievable. And when you THINK about eternity, it's a long, long time for regreats! The dog-eat-gods, spirit-cosoms-world is no playground for inexperienced people. When I speak about cloning stations I am completly serious! This AI techno sales pitch saying you can be your own god! is decietful to the core.

Like I said before, To understand this more, trying to be your own ‘god’, then think again, for millions of years do you think Kronos who ate his own children is ready and waiting to place you on your own throne, next to him & share his kingdom?

Or better are you ready to contend with his ancient authority that he wields? Are you ready in your AI suit to contend with the ancient beings from the cannibal era of nations, that walk the cosmos? Somehow I don't think they know how to share their territory either?

Abstract as my points are, know that humans are one-micro-chip away from selling off their free will to the spirit-world system, just so you can swipe your hand over as a “wand” and MAGICALLY your goods & services are paid for. Reference {“Am I only human” podcast}.

Trading Room 7 Homework & Event Prep I

Event 7 is our closing event, information about this event is provided inside any of our workshops. Please ask at our event Check-in Desk regarding registration, content, event prep / homework & entry T's & C's. Please note this last event is Free for anyone who has attended previous 6-Trading Rooms within our current seasons workshop schedule.
