

Spartan Wall Cyber Security Solutions

CMMC, Penetration Testing, Scanning, Monitoring, Forensic Tracing and Auditing

J2R VETS Spartan Wall Cyber Security Team provides Cyber Maturity Model Certification (CMMC), security monitoring and alerting, and Federally compliant forensic auditing and tracing solutions. Our offerings include using the brightest minds and the most sophisticated equipment available. All services are available worldwide (OCONUS) and are provided remotely or in-person.

Our Solutions

- 1. Cyber Maturity Model Certification (CMMC) Management**
Compliance to the Department of Defense (DOD) CMMC and related cyber security directives for Government Organizations and Government Contractors
- 2. Penetration Testing, Scanning, Monitoring and Alerting**
Next-generation remote services for identifying threats and monitoring unexpected network changes before they become security threats
- 3. Forensic Tracing and Auditing, and Compliance Auditing**
Fraud investigations; OCONUS on-site rapid response and forensic analysis assists clients with sensitive and complex electronic discovery, information governance, computer forensics, information security, and privacy issues; automated compliance auditing to plan, access, and mitigate at machine speeds

Differentiators

Our solutions provide custom managed security services suited to meet various security and compliance requirements before, during and after unexpected events.
