

DIVERSIFICATION, DEVELOPMENT & DISCOVERY

How raising standards and creating transparency across the supply chain reduces risk, improves compliance and develops suppliers

JAY KATZEN
Chief Executive
ACHILLES INFORMATION

Complex Landscape

Today's SCM landscape is fragmented, complex and opaque – all of which increase the risk of disruption, brand damage and incremental cost

COMMERCIAL PRESSURES

Performance-led procurement and the pressure to deliver genuine added value through effective category management and strategic sourcing.

Reducing costs remains the number 1 challenge for Chief Procurement Officers worldwide.

£30m

Achilles reduces supplier qualification cost in the UK Utilities industry by £30m per year

DIGITIZATION

Push towards automation and digitization of processes and systems to improve efficiency. Yet data is unstructured, inaccurate and incomplete so investments in technology not returning expected value

Less than 20% of companies update supplier information more than once per year.

500k

Achilles validates and assures over 500,000 supplier assessment questionnaires plus over 11000 onsite audits every year

GLOBALIZATION

Supply chains are increasingly diverse, international, multi tier and complex. 66% of procurement leaders have limited / no visibility beyond tier 1 suppliers.

Less than 6% procurement leaders have full visibility of their supply chain and risks of potential disruption

100+

Achilles supports customer supply chains in over 100 countries on 6 continents, with 20+ languages in our regional hubs

RISK

Increasing compliance requirements to meet regulatory and legislative requirements, whilst complex supply chains bring risk of disruption through multiple domains- HSE, Welfare, Ethics, Finance etc

53% of organisations think it likely that a supplier will expose them to business risk due to failing to comply with new legislation.

40%

of audited companies are less likely to have an accident vs RIDDOR average.

YOUR CHALLENGES & GOALS

Need to demonstrate cost and time efficiencies, compliance and quality

Limited pool of qualified suppliers

Limited resources means a focus on driving better strategic decisions and a need to leverage the community

Collaboration with competitors to drive overall improvements including:

- Reducing accidents and raising health and safety standards
- Making a positive impact on society; improving labor welfare, environment and sustainability
- Leveraging best practice across the supply chain

Source and select the best suppliers

Ensure suppliers are fit to do business with

Ensure welfare and safety in the supply chain

Create better outcomes and shared value for all

- Water
- Waste & Recycling
- Plastics
- Hazardous Substances
- Energy

PREQUALIFICATION OPTIONS

YOUR OWN QUALIFICATION & SOURCING SYSTEM

- ✓ More control, customized
 - ✓ Deep integration
 - ✗ Less expensive
 - ✗ Deep validation and Qualification
 - ✗ Multi region & Multi sector benchmarking for best practice
 - ✗ Reduces Risk
-

EXTENDING AN ERP – SAP / COUPA / JAGGAER BRAVO

- ✓ More control, customized
 - ✓ Deep integration
 - ✗ Less expensive
 - ✗ Deep validation and Qualification
 - ✗ Multi region & Multi sector benchmarking for best practice
 - ✗ Reduces Risk
-

BEST PRACTICE

- ✓ Integration with your APIs
 - ✓ Less expensive
 - ✓ Real time analytics
 - ✓ Integration of best third parties – eg Thomson Reuters Worldcheck
 - ✓ Unbiased scoring
 - ✓ Multi region & Multi sector benchmarking for best practice
 - ✓ Reduces Risk
-

OUR INDEPENDENCE IS YOUR ASSURANCE

- ✔ ASSURES & ENCOURAGES
BEST PRACTICE ACROSS THE
SUPPLY CHAIN

IMMEDIATE GLOBAL VIEW

METRICS & BENCHMARKING

Am I delivering on my commitment to improve health & safety?

My reputation will be damaged if modern slavery is found in my supply chain

Are my suppliers compliant?

Do I have a full view of my supply chain?

Is my supply chain competitive?

Where does Supplier X sit in relation to the competition

TASNEE

Leveraging industry standards to meet best in class supplier prequalification

Tasnee Supplier Management Model

Qualification and Classification

Qualify all suppliers based on a common set of criteria that are aligned with Tasnee's strategy and standards including commercial, QSHE, CSR, and sustainability issues. The pre-qualification process and ongoing data management is managed for us by Achilles. The actual qualification status is determined by Tasnee and the classifying of the suppliers is based on the provided material or service.

- Reduce supply chain risk and meet requirements from customers (e.g., brand, legal, reputational, environmental and supply risks) by ensuring we only work with high caliber suppliers.
 - To ensure that we are consistent and transparent with our qualifying standards across the company's supplier base.
 - To ensure we manage risks associate with supply at the appropriate level.
 - To make it easy for the supplier to update their information so that we have access to accurate information at all times.
- 1500+ suppliers already in system
 - Supplier funded
 - Aims of the programme:
 - To assure customers Tasnee maintain the highest standards
 - Improve supplier standards
 - Support engagement with Nitaqat system
 - Provide access to prequalified vendors by other buying organisations in the region
 - Reap benefits of supplier auditing expertise and resources

VALUE & BENEFITS

Supporting KSA to become a “centre of excellence” in supply chain risk management

Cost reduction

By creating a simple process, we make doing business easier for everyone.

Reduce Risk

Educate SMEs on Industry requirements for Health& Safety, Security Anti-Corruption, Cyber, Environment and Business Continuity

Create Opportunities

Opening up a new world of business opportunities and connections . Making is easier for buyers to source and select capable SMEs

Raise Standards

Educate SMEs to improve sustainability and compliance reducing anti social behaviours. Eg. Tax registration, SAKAT, GOSI

Capacity Building

Help industries develop local content for future sourcing needs, identifying early areas for supply chain investment

Market awareness

Increased SME visibility and exposure to relevant market opportunities through forward work plans

International trade

Our globally recognised stamp of approval provides transparency and familiarity that encourages new trade.

Trend analysis

Understand trends and drivers in the supply base so that you can react proactively.

Foreign Investment

Encourage foreign investment in form on JVs and partnerships by promoting recognised standards

Fair Competition

Enable SMEs to differentiate based on capability on a level playing field. Allow industry to stop rewarding mediocrity of existing suppliers

BECAUSE INSIGHT BEATS HINDSIGHT

Efficient, accurate inputs drive better decisions

We do this by providing **actionable insights** from our unrivalled bank of supply chain information.
