

The New World Order

My reading over the last seven years has led me to conclude that freedom, justice and the Rule of Law face existential threats from this powerful confluence of interlocking forces. This somewhat daunting list is likely not complete; you could write a book on each of these points, which in the interests of brevity I've left as simple bullets.

Corporatist Globalism

- Creation of a corporate-controlled One World Government, to which the EU is but a stepping stone.
- City States and the Global Parliament of Mayors.
- Dissolution of nation states through devolution, regionalisation and the so-called 'international rules based order'.
- Despite Brexit, impending and ever-accelerating military union within the EU (see PESCO)¹.
- The Medical-Military-Industrial Complex ('MMIC').
- Free Trade Agreements (such as the failed Transatlantic Trade and Investment Partnership ('TTIP'), the Trans-Pacific Partnership ('TPP') and lately, their bilateral replacements).
 - Aim is to remove all impediments to trade and corporate profits.
 - Threats to environment, health and consumer protection posed by deregulation.
 - Threats to justice and democracy posed by the Investor-State Dispute Settlement ('ISDS').

Global Banking

- Fractional Reserve Banking and our debt-based monetary system.
- The move to a cashless society.
- The Bank for International Settlements ('BIS' in Basel) – the central bank for central banks – not subject to the laws of any state, their officials enjoy a form of diplomatic immunity!
- Big banks' involvement in laundering the proceeds of global criminal enterprise on a massive scale. Dozens of would-be banking whistle-blowers 'suicided'.
- 'Revolving doors' between banks, regulators and government.
- Impending US, EU & UK bank crises and governmental bankruptcy, global financial crisis Mk II ca. 2017-18.
- Introduction of 'bail-in' provision throughout the EU and elsewhere in the world provides the mechanism for the next banking crisis to expropriate the wealth of ordinary bank depositors.
- The Bradbury Pound as the answer to the Government's budgetary woes.

Communitarianism

- An emerging totalitarian dictatorship.
- The 'third way' - a blend of capitalism for the corporations and communism for the masses.
- The misleadingly named 'participatory democracy' (i.e., rule by specially selected and trained 'leaders' and 'experts').
- The planned destruction of the middle classes through the removal of their wealth.
- Mass privatisation of public functions, including the NHS, the armed forces, the emergency services, the court system, prisons, etc.
- Infiltration of all national institutions by tens of thousands (130,000 in one estimate) of networked Communitarian 'change agents' and 'thought leaders' furthering EU and globalist causes, trained by the secretive Common Purpose pseudo-charity and related organisations.

¹ Necessitates joint command structure (Command and Control Centres already built & ready for activation at 24 hours' notice), capital and operational budgets and a Treasury to administer them **and raise taxes**. When we lose control of our armed forces the nation of Britain will effectively cease to exist. [PESCO](#): Permanent Structured Cooperation.

The New World Order

- The 'separation of powers' principle systematically eroded, with ever-increasing cooperation, colocation and flows of highly sensitive personal information between the Police, Social Services, the health service, schools and education authorities. Initiatives include the Multi-Agency Public Protection Arrangement ('MAPPA'), the 'Prevent' strategy and others.
- Ever more intrusive state involvement and interventions in the lives of families and their children, as prototyped in Scotland with the 'Named Person' scheme and 'Getting It Right For Every Child' ('GIRFEC').
- Undermining the family as the basic unit of society.

UN Agenda 21, Agenda 2030 and World Government

- Smart Cities, Smart Meters, Smart Appliances, Smart Motorways = total surveillance/control.
- Codex Alimentarius and the assault on nutritional values.
- The Wildlands Project, Making Space for Water.
- The human depopulation agenda. The UN has 'adopted policies' to eliminate 75-95% of the human population.
- Much, much more besides...

Technocracy

- Ever more intrusive surveillance through CCTV, TVs, phones, computers, social media, RFID, biometrics, vehicle trackers, number plate & facial recognition.
- Increasing control and censorship in web search engines and social media such as Facebook, Twitter, YouTube etc.
- The human micro-chipping agenda.
- Transhumanism.
- Geo-engineering.
- Nanotechnology.
- Artificial Intelligence.
- Technology Suppression – numerous 'free energy' and other technologies suppressed by MMIC.

The British Constitution and the Rule of Law

- EU Treaties violate the British Constitution and Parliament exceeded its constitutional authority. The treaties are therefore null and void and their signatories guilty of Treason.
- The British Constitution and English Common Law receiving ever-decreasing prominence in law syllabuses. See the British Constitution Group ('BCG').
- Surreptitious introduction of the continental 'corpus juris' judicial system.
- Corruption in the UK Police, Judiciary, Government agencies and contracted corporations.

Propaganda, Illusion and Mind Control

- Suppression of freedom of thought and expression through political correctness, diversity, multiculturalism and oppressive legislation, along with the systematic destruction of the nuances of the English language (Orwellian 'new-speak').
- Mass disinformation by means of a controlled mainstream media whose journalistic integrity has been terminally compromised.
- Psy-ops – mass brainwashing via applied behavioural psychology, predictive programming, operant conditioning.
- The Government's Behavioural Insights Team (the 'Nudge unit').
- The Global Warming psy-op.

The New World Order

Terrorism

- Mass immigration causing a 'clash of civilisations' that will result in massive civil unrest and will provide the pretext for the introduction of further oppressive legislation, surveillance and martial law.
- The Islamification of Europe.
- Arming and militarisation of the Police.
- False flag operations. See Gladio, Gladio B, and the Strategy of Tension.

Think Tanks, Pseudo-Charities & Secret Societies

The following organisations exercise an inordinate amount of secret influence over global affairs and Anglo-US foreign policy in particular.

- The 'Committee of 300'
- The Royal Institute for International Affairs (Chatham House)
- The Council on Foreign Relations
- The Trilateral Commission
- The Club of Rome
- The Bilderberg Group
- The Tavistock Institute of Human Relations
- The Fabian Society
- The Frankfurt School
- The Skull and Bones Society
- Many others...

Unethical Anglo-US Foreign Policy

- Western instigation and support for colour revolutions and Islamic terrorism in furtherance of globalist agendas. See the Project for A New American Century ('PNAC'), the 'Great Game' and so on.
- Destabilisation & regime change in middle eastern countries such as Iraq, Afghanistan, Egypt, Libya, now Syria and in plan, Iran.
- EU-NATO expansionism, baseless anti-Russian propaganda.

Child Abuse

- Establishment paedophile rings involving powerful individuals at the very heart of the state.
- Premature sexualisation of children through ever-earlier sex education, including the promotion of LGBTQX agendas.
- Police involvement in and failure to investigate child trafficking, prostitution and abuse.
- Succession of failed child abuse inquiries (cover-ups).
- Child stealing by the State – children are valuable assets to for-profit children's homes & adoption agencies.

Health

- GMOs. The USA's 'Monsanto Protection Act' – coming soon to a Trading Partner near you!
- Deleterious health effects of environmental toxins, modern farming practices, fertilizers, herbicides, fungicides, pesticides, feed & food additives, antibiotics, hormones and so on.
- Deleterious health effects of EM radiation, particularly Wi-Fi and 3/4/5G 'phone wavebands.
- Vaccine safety (lack thereof) – the biggest public health scandal in human history. Appalling corruption in pharmaceutical industry & regulatory bodies, fake science, cover-ups. Persecution of vaccine safety whistle-blowers. The last bastion of individual sovereignty, your body, violated

The New World Order

by coming compulsory vaccination. See the documentaries 'The Truth About Vaccines', 'Vaccines Revealed', 'Vaxxed', 'Trace Amounts', 'Vaccine Syndrome'.

- 'Revolving doors' between Big Pharma, regulators and government.
- ...

The foregoing is by no means a complete list of headings or individual issues.

I realise that much of the above might be viewed as contentious since the majority of the populace are effectively asleep and unaware, having been lulled into complacency with false narratives promulgated by a controlled, compromised mainstream media. However, the longer I study these subjects the surer I become that we truly are in the grip of an all-encompassing, audacious power grab at the hands of a criminal global elite with a very sinister agenda indeed. Our job as the guardians of truth, freedom and justice must surely be to help both activists and the people at large to awaken, educate themselves and see the world as it really is – to 'take the red pill' in the parlance of the allegorical film 'The Matrix'.

The mainstream news rarely if ever covers these topics but there are any number of alternative/independent news outlets which do – I have links to scores of such websites if you are interested but for now here are some of my personal favourites:
