

The 2019 People's Charter

The Six Requirements
Needed to Collapse the
Criminal 'Deep State'

newchartismovement.org.uk

1. Restoring our ancient and proven Common Law Trial by Jury Constitution that puts the people back in authority over our politicians, lawyers and bankers by removing from them their power to punish.
2. Creating prosperity for all by bringing back debt-free and interest-free Treasury money that's simply based on the wealth and labour of our nation – exactly as we did in 1914 with the enormously successful '*Bradbury Pound*'.
3. Ending the abuse and harm of all children whilst protecting the Common Law rights of parents so as to strengthen the family unit.
4. Having the right numbers of Police and Armed Services needed to guarantee the sovereignty and protection of our country from all those who wish us harm.
5. Exposing and removing a hidden and alien system of 'legalese' governance that uses outright fraud, deception and entrapment to unlawfully impoverish and constrain the ordinary people of our country.
6. Ensuring that science is always used for the well-being and advancement of all and not for the profit and greed of the few.
