

Adventure Program-July 12-15

The Adventure Program is four days of work, learning and fun. Our days were spent working with and riding the horses, swimming, completing team building trail elements, and learning about God. Our nights were spent camping in the woods. On the first day the six participants hiked to the campsite and set up their tents. Each day the group worked to complete necessary chores in the barn in addition to riding horses and other program activities. It is always amazing to see the girls get more efficient with the chores. They quickly learned that if the work was divided among the group, they could finish in less time. The girls also worked diligently to show patience and to be helpful to each other during the four days. We were all exhausted by the end of the week! It was such a gift to watch the group grow and learn. On the last day, we put on a horse show so that the girls could show their parents all they had worked on during the week. We are looking forward to the second Adventure Program coming up in August!
