## Horse Clinic August 2023

16 ft. "Cross" Window

Summer is over and teens are back to school. The Davidson farm however continues to be busy as we head into fall. Currently a 70ft. x 140ft. indoor riding arena is being built by an Amish company. The work is moving along quickly and when they finish the indoor arena section, our work begins. The second phase includes a connector building with eight stalls, a larger tack room and a viewing room for spectators. In addition, there will be an area that I will be using as an office. For the completion of the connector addition we will be scheduling "work days" and are looking for volunteers. We would like to get this section completed before winter. If anyone is interested in volunteering, please contact me or call the office to sign up (office-607-432-0594).

For the new indoor arena Mark Davidson designed a 16 ft. "Cross" window for one end of the arena. I went in the unfinished arena to pray and realized I will be at the foot of the Cross every day when I am in the arena.

Humility is there, forgiveness is there and peace is there. It was a quiet moment in the dark arena when I prayed for God's blessing on this new building, to use it for his glory in ways I never imaged, with teens hearing the Word of God and receiving it as their own.

At the foot of the Cross, Dorothy Davidson
