PROFILE

A hard working and experienced professional with a passion for creativity, coding, technology and design. My objective is to be a seasoned expert in the IT & Computer Science industry. With a set of polished skills in Computer Coding and Graphic Design as well as over 5 years of professional experience in the industry, I have a proven track record and I am well equipped to do your company's branding and project development and implrementation. My main goals include specializing in the field of Python, Artificial Intelligence and ML, Graphic Design and Freelancing.

WORK EXPERIENCE

Artificial Intelligence Engineer • **April, 2024 - Present**

EVE BYTES

Working as a trainee in Artificial Intelligence and Machine Learning. Key focus is based on Data Collection and Pre-Processing, Research, Model Development and Training, Integration and Testing. As an AI Engineer, my responsibilities include:
- Develop cutting-edge AI solutions to address complex business challenges
- Design and implement AI and Machine Learning models
- Use Python and other ML techniques to develop and implement ML algorithms
- Deploy machine learning models on cutting-edge devices to enable real-time inference
- Conduct experiments to test and validate models and achieve high accuracy & efficiency
- Maintain up-to-date knowledge of the latest Artificial Intelligence & Machine Learning techniques and tools, and evaluate their suitability for different use cases
- Contribute to research and development projects aimed at advancing state-of-the-art Artificial Intelligence and Machine Learning

Senior Graphic Designer • **December, 2023 - Present**

INNOVATIVE EDGE TECHNOLOGIES - LONDON, ENGLAND

Currently working as the Senior Graphic Designer at IET Experts, based in London, England. As the Graphic Design Lead, my role is to look after the creation of all Graphics Content for Print Media, Social Media and Web Design for several clients. I am also responsible for Leads Generation primarily from the UK and USA business markets and designing ads.

Artificial Intelligence and Machine Learning Intern • **March. 2023 - June. 2023**

EZILINE TECHNOLOGIES (PVT). LTD

Worked as an Artificial Intelligence and Machine Learning intern for 3 months. Collected datasets and developed AI Applications and Machine Learning Models using Python.

Lead Creative Graphic Designer and IT Specialist • **2019 - 2022**

7SKY DIGITAL MARKETING (PVT). LTD

As the creative lead, my role was to oversee all social media platforms and the design of print media and digital graphics for branding and advertising. As an IT Specialist, I managed and performed system maintenance on company computer systems.

Graphic Desgn Intern • **Sep. 2019 - Oct. 2019**

As an intern in graphic design, I created innovative designs for the purpose of branding as well as advetising and developed skills in various graphics editing software.

EDUCATION

January. 2023 to February. 2025

UNIVERSITY OF YORK - YORKSHIRE, ENGLAND

Pursuing my Graduate Degree in Computer Science with a specialization in Artificial Intelligence and Machine Learning

September 2015 to February 2020
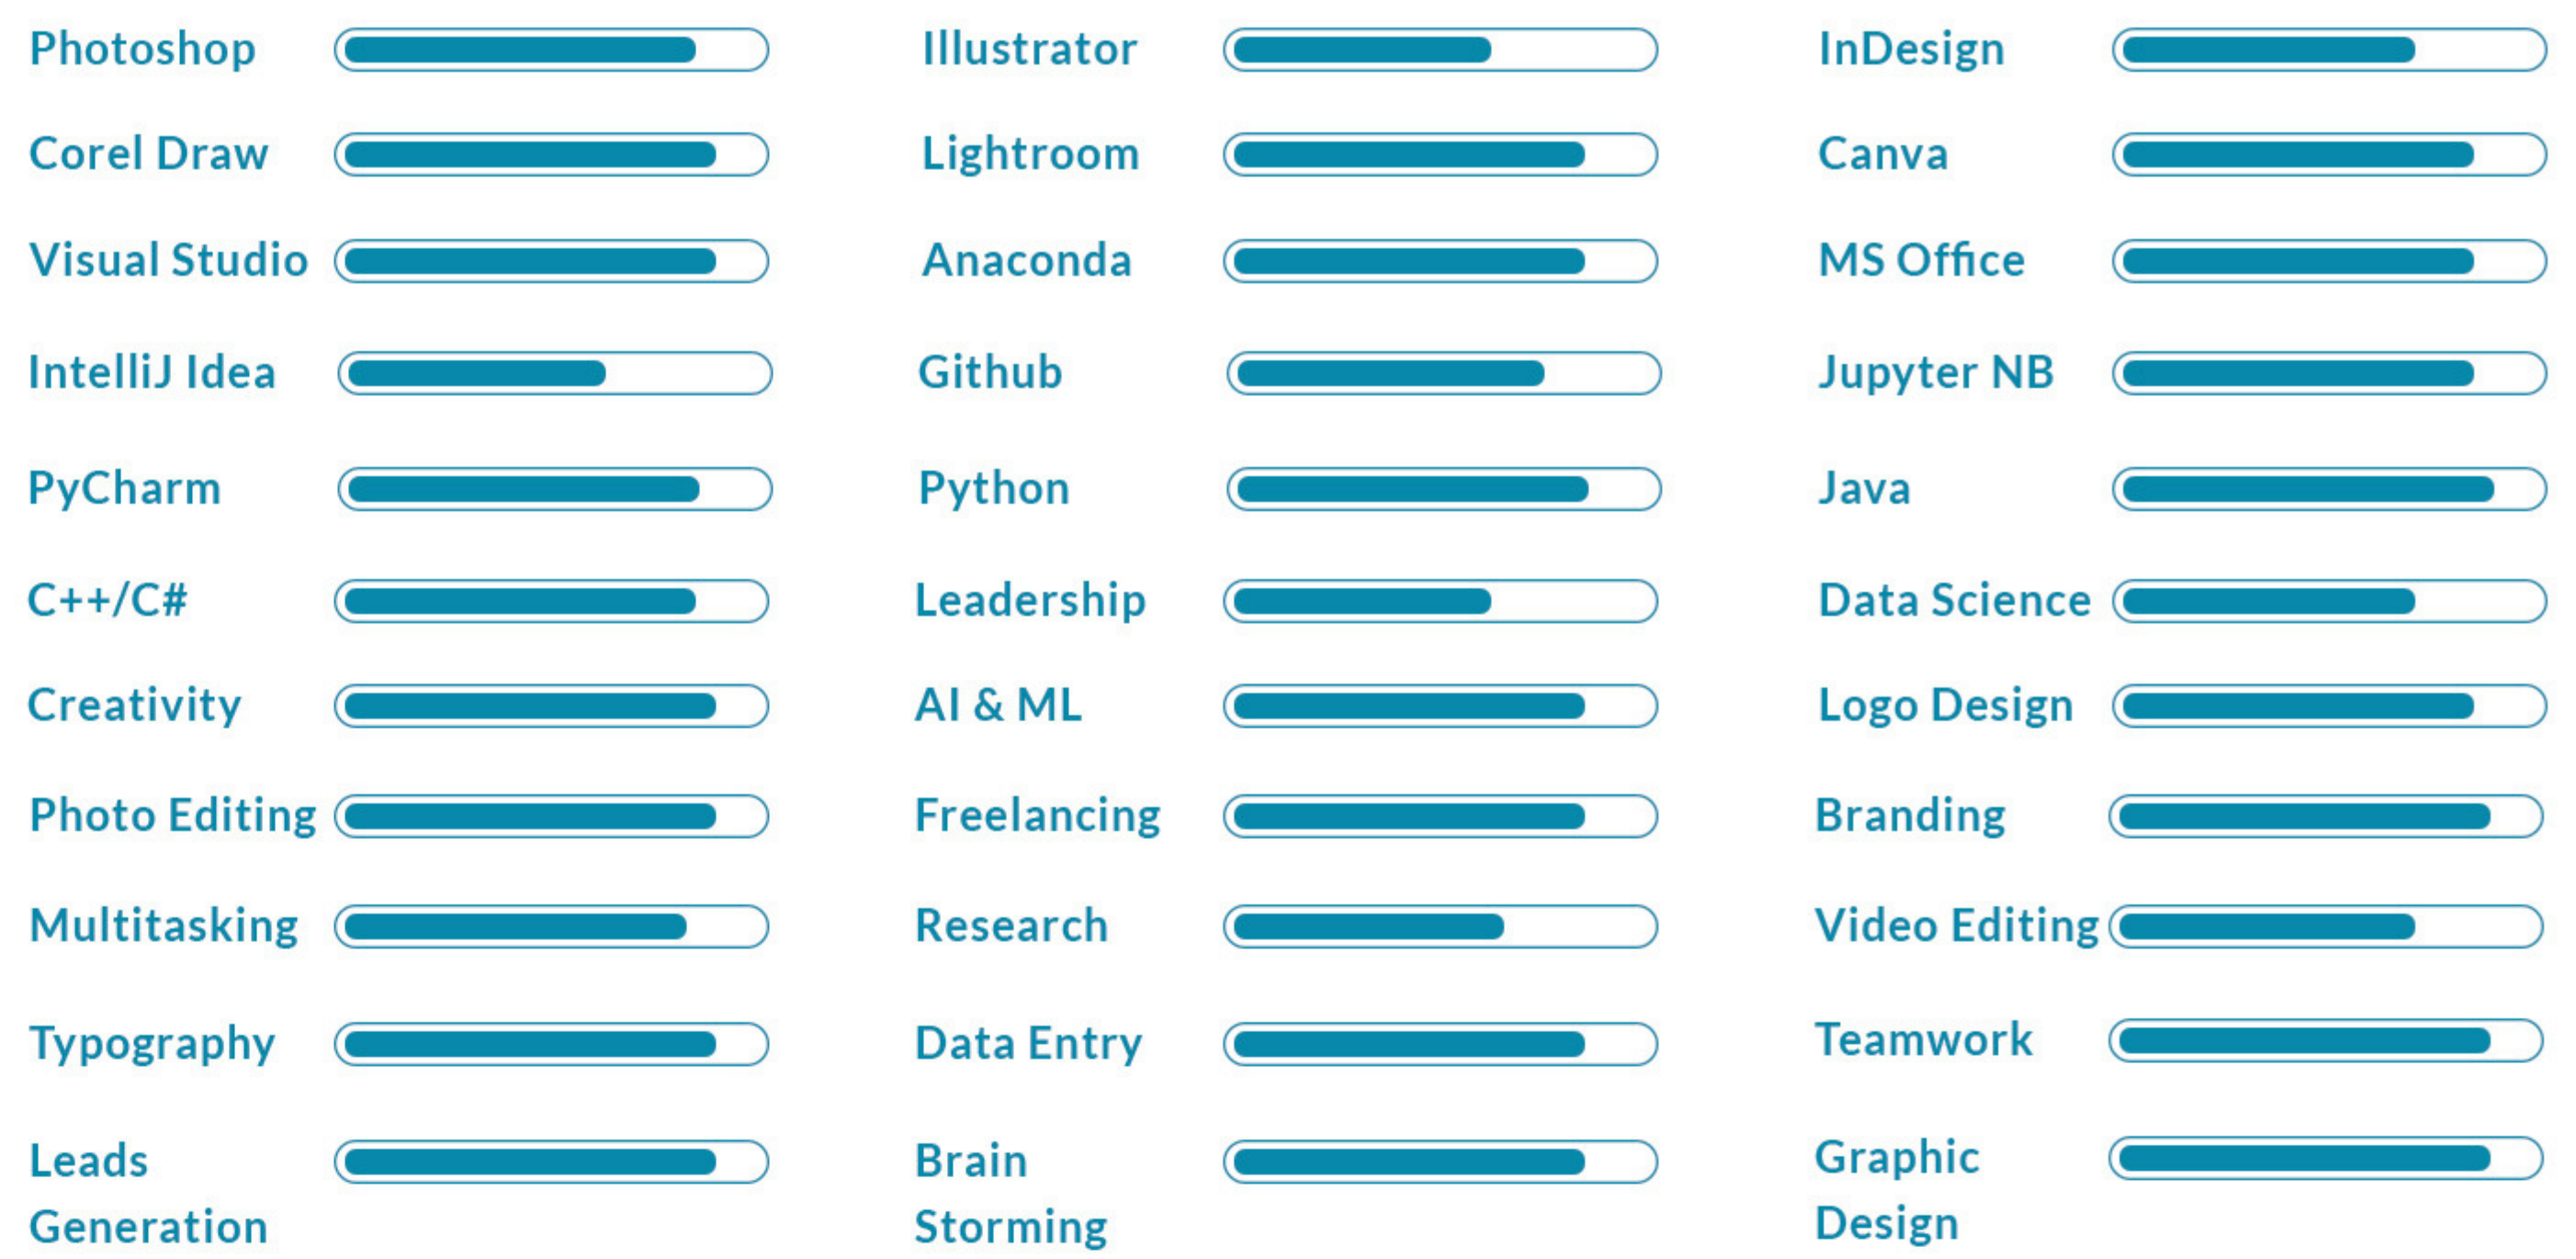

UNIVERSITY OF LAHORE - ISLAMABAD, PAKISTAN

Completed my Undergraduate Degree in Computer Science and IT.
Completed research and thesis in SMS Spam Detection using Machine Learning and Android Studio

SOFTWARE PROFICIENCY & TECHNICAL SKILLS

Photoshop	Illustrator	InDesign
Corel Draw	Lightroom	Canva
Visual Studio	Anaconda	MS Office
IntelliJ Idea	Github	Jupyter NB
PyCharm	Python	Java
C++/C#	Leadership	Data Science
Creativity	AI & ML	Logo Design
Photo Editing	Freelancing	Branding
Multitasking	Research	Video Editing
Typography	Data Entry	Teamwork
Leads Generation	Brain Storming	Graphic Design

AREAS OF EXPERTISE

APPS · BRANDING · DESIGN · CODING

MULTI-TASKING · CREATIVITY · BRAIN STORMING · RESEARCH

EXTRACURRICULAR CERTIFICATIONS

PYTHON, ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING
- Professional Certificate in Computer Science and AI from Harvard University
- Professional Certificate in Computational Thinking with Python from MIT
- 2 Months Online Training in Coding with Python from Google
- 1 Month Online Training in Data Analysis using Data Studio from Google
- 3 Months Online Training in Data Science with Python from IBM
- 2 Months Training in Data Science and Machine Learning from Dice Analytics
- 2 Months Training in Artificial Intelligence from Dice Analytics
- 2 Months Training in Data Science using KNIME from Dice Analytics
- 2 Months Online Training in Python Essentials from Virtual University of Pakistan
- 2 Months Online Training in Linux Essentials from Virtual University of Pakistan
- 6 Month Online Bootcamp in Machine Learning with Python from Ezitech Institute

PROGRAMMING IN JAVA
- 3 Months Online Training in Learning to Code with Java from Microsoft
- 1 Month Online Training in Developing Apps with Java from Duke University

C++ PROGRAMMING
- 2 Months Training in C++ from Glowing The Greens Academy
- 1 Month Online Training in Advanced C++ from Saylor Academy

GRAPHIC DESIGN AND FREELANCING
- Professional Certificate in Graphic Design from LinkedIn
- 1 Month Online Training in Theory of Graphic Design from University of Colorado
- 3 Months Online Training in Graphic Design from Digiskills
- 3 Months Online Training in Freelancing from Digiskills
- 3 Months Online Training in Motion Graphics from Digiskills

LICENSES AND EXAMINATIONS

7th August. 2022
SCRUM ALLIANCE INC.
Successfully passed Scrum Master Certification and became a certified Scrum Master

7th June. 2022
PYTHON INSTITUTE
Successfully passed PCEP Certification and became a certified Python Associate

PERSONAL PROJECTS

April 2024 - Present
EVE BYTES
Dietary Meal Planning System using Supervised Learning and Neural Networks
Handmade Product Recommendation System using NLP and Collaborative Filtering

March. 2023 - June. 2023
EZILINE TECHNOLOGIES (PVT). LTD
Email Spam Filtering using Python and Natural Language Processing
Automated Content Generation using Python Flask and OpenAI
Bone Fracture Classification using Image Processing and Mura Dataset

January. 2023 - February. 2023
UNIVERSITY OF YORK
Carshop Application using Java, Classes, OOP and IntelliJ Idea

June. 2022 - July. 2022
DICE ANALYTICS
Ticket Price Prediction Model using Exploratory Data Analysis and Data Visualization

January. 2022 - April. 2022
DOUGLAS COLLEGE
Portfolio Website using Gitshowcase, Github, HTML, CSS, JavaScript and VS Code

October. 2018 - December. 2019
UNIVERSITY OF LAHORE
BS Thesis in SMS Spam Detection using Machine Learning and Android Studio

OTHER QUALIFICATIONS

February. 2023 - November, 2023
UNIVERSITY OF YORK
Post-Graduate Academic Student Representative for MSc in Computer Science Program

February. 2019 - June. 2019
UNIVERSITY OF LAHORE
Organized and managed 5 months long Python bootcamp and taught how to code in Python

September. 2013 - May. 2014
MANARAT AL-RIYADH SCHOOL
Head of Manarat School Sports Society during final year and organized sports tournaments
Achieved Excellence Award in Public Speaking Program
